Control lasts for up to 3 months
Treats up to 3,000 sq. ft.
Easy-to-Use
**BONIDE® Eight Insect Control Flower & Vegetable Above & Below Soil Insect Grains**

**EPA Est. No. 4NY-1 EPA Reg. No. 53853-194-4**

**DIRECTIONS FOR USE:**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Apply this product directly to the lawn or garden area. Water treated area as directed on this label. Do not water after the point of run-off. Do not make applications during the rain. Application is prohibited directly into drains or ditches, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.

**GENERAL INFORMATION:**

This product is for use on lawns, around home foundations (perimeter treatment), ornamental and flower gardens, and vegetable gardens for the control of the insect pests listed in the table below.

**VEGETABLE GARDENS**

This product can be applied to the vegetable listed below. Apply a single application before planting or after plants emerge and work into the top 4 to 6 inches of soil. Use 1.0 lb of product for a 500 sq. ft. area.

- **Crop:** Tomatoes, Sweet Corn, Broccoli, Chinese Broccoli, Cabbage, Cauliflower, Kohlrabi, Chinese Mustard, Eggplant, Head Lettuce, Peppers (bell and non-bell)
- **Days to Wait Until Harvest:** 7

**ORNAMENTAL & FLOWERS**

This product can be applied just before planting or after plants emerge. Apply 0.5 to 1 lb. evenly over each 500 sq. ft. area. Repeat if there is any sign of renewed insect activity.

- **LAWNS:** Apply this product when insect activity or damage is first observed (awn thins, brown spots appear, or moths fly up from the grass when moved). Spread this product uniformly over the lawn area. If needed, apply another treatment 14 days after first treatment. Do not use any other weed, disease, or insecticide control products for at least one week after application. For best results and to prevent further damage, treat the entire lawn area, not just the browned areas. Repeat application if there is any sign of renewed insect activity. NOTE: Food utensils such as tabletop or dishware must be cleaned after use for food purposes after use in measuring pesticides.

**Table 1**

<table>
<thead>
<tr>
<th>Pest</th>
<th>Application Rate</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Arthropods</strong> (including Caterpillar, Harvest, Oozing, Pyramidal, Argentina, Corn, Black Turf, Fire Ants and Foraging Fire Ants, Ants)</td>
<td>Uniformly apply 1.0 to 2 pounds over a 1,000 sq. ft. area of lawn.</td>
</tr>
<tr>
<td><strong>Lawn Mowers:</strong></td>
<td>For 3 months/season long control, apply 2 lbs of product for every 500 sq. ft.</td>
</tr>
<tr>
<td><strong>For Fire Ant Mounds:</strong> Uniformly apply 1 tablespoon or 3 teaspoons of granules to the mound at least once each month. For best results apply in cool weather, 65 to 80°F in early morning or late evening hours. Avoid disturbing ants. Treat new mounds as they appear. Thoroughly water the treated area after application.</td>
<td></td>
</tr>
<tr>
<td><strong>Mole Crickets</strong></td>
<td>Uniformly apply 1 to 2 pounds over a 500 sq. ft. area of lawn. For best results, thoroughly water the treated area after application.</td>
</tr>

</table>

**NOTE:**

In New York State, this product may NOT be applied to any grass or turf area (lawns) within 100 feet of a water body (lake, pond, river, stream, wetland, or drainage ditch). In New York State, do not make a single repeat application of this product if there are signs of renewed insect activity, but no sooner than two weeks after the first application.

**STORAGE AND DISPOSAL:**

**Precautions:** Do not contaminate water, food or feed by storage or by disposal.

**Pesticide Storage:** Keep out of reach of children and domestic animals. Store in original containers only. Store in a cool, dry place and protect from direct sunlight. Do not mix with household cleaners or other pesticides. Do not store in or near heating units. Do not store on or near wood or paper surfaces. Do not store container in or on surfaces where it could come in contact with water or food. Use immediately after opening. Do not contaminate water, food, or feed by storage or by disposal.

**FIRST AID:**

- If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
- If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
- If on hair: Shampoo hair with soap and water. If necessary, consult a doctor.
- If swallowed or inhaled: Call a poison control center or doctor for treatment advice.

**PRECAUTIONARY STATEMENTS - Hazard to Humans (and Domestic Animals):**

**CAUTION:** Harmful if absorbed through the skin. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Wash thorously with soap and water after handling and before eating, drinking, chewing gum or using tobacco. Remove and wash contaminated clothing and shoes before reuse. Do not allow children or pets in the treated area for 24 hours.

**ENVIRONMENTAL HAZARDS:**

This pesticide is extremely toxic to fish and aquatic invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not wash or blow pesticide off the treated area. Sweeping any product that lands on a driveway, sidewalk, or street, back onto the treated area of the lawn or garden. In warm weather, this product will not persist in the treated area after application due to higher temperatures and decreased moisture. Application to any state or local regulations for use of this product. This product is a pyrethroid. If large amounts have been ingested, the milk, cream or other digestible fats and oils may increase absorption and so should be avoided.
