For selective preemergence control of grass and broadleaf weeds in:
- Established turf grasses (excluding golf course putting greens) and lawns
- Landscape ornamentals (including established perennials & wildflower plantings)
- Covers up to 16,390 square feet

KEEP OUT OF REACH OF CHILDREN

CAUTION

See the following sections, Precautionary Statements, Hazards to Humans and Domestic Animals, for additional information.

EPA REG. NO. 34704-77S

EPA EST. NO. 48155-CAN-2 (Lot begins 2)
EPA EST. NO. 41142-OH-1 (Lot begins 0)

NET WEIGHT 50 LBS. (22.68 KG)

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes moderate eye irritation (irritation). Harmful if inhaled or absorbed through the skin. Avoid contact with skin, eyes, or clothing. Avoid breathing dust. Wash thoroughly with soap and water after handling. For prolonged or frequent repeated skin contact, while handling the material may cause allergic reactions in some individuals.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling. This product is a selective preemergence herbicide that provides residual control of many grass and broadleaf weeds in:
- Established turf grasses (excluding golf course putting greens) and lawns
- Landscape ornamentals
- Established perennials & wildflower plantings

This product controls susceptible weeds by inhibiting weed seeds germination and root development. Most effective weed control will be obtained when this product is activated by at least 0.5 inches of rainfall or irrigation, or within 1 week (3 inches) incorporation, prior to weed seed germination and within 14 days following application.

For use on plants being grown (for) sale or other commercial use, (for) commercial seed production, or (for) research programs. For use on crops intended for aesthetic purposes or climatic modification and being grown in ornamental gardens or parks, or on golf courses or lawns and grounds.

Do not graze or feed livestock forage out from areas treated with this product.

Do not apply this product through any type of irrigation system.

APPLICATION DIRECTIONS

Apply uniformly with suitable, calibrated application equipment.

APPLICATION INSTRUCTIONS

First Aid

If in eyes:
- Hold eye open and rinse slowly and gently with water for 15 - 20 minutes.
- Remove contact lenses. If present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

If on skin or clothing:
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

If swallowed:
- Keep person calm.
- Do not induce vomiting unless told to do so by the poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

EQUIPMENT HAZARDS

This product has low solubility in water. At the limits of solubility, this product is not toxic to fish. However, at concentrations above the level of water solubility, it may be toxic to fish. Do not apply directly to water. To areas where surface water is present or to intertidal areas below the mean high water mark. Drift and runoff from treated areas may be hazardous to aquatic organisms in adjacent sites. Do not contaminate water when disposing of equipment washwater.

If material is spilled:
- Contain and sweep up material of spill for disposal or use per local instructions. Wash cleanup equipment to prevent contamination elsewhere. Excess quantities above normal application rates could result in damage to plants subject to spill. Water in rain, stream, ditch, under, cover with layer of soil, or leave exposed to sunlight, as deemed appropriate to the situation.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. STORAGE: Store in original container away from other fertilizer, feed, or food stuffs and separated from other pesticides.

PESTICIDE DISPOSAL: Waste resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Completely empty bag into application equipment by shaking and tapping sides and bottom to loosen clinging particles. Offer for recycling if available or dispose of empty bag in a sanitary landfill or by incineration. Do not burn, unless allowed by state and local ordinances.

GENERAL APPLICATION GUIDELINES:

<table>
<thead>
<tr>
<th>Rate</th>
<th>lbs. Product per 1,000 sq ft</th>
<th>lbs. Nitrogen per 1,000 sq ft</th>
<th>lbs. A.I. per acre</th>
</tr>
</thead>
<tbody>
<tr>
<td>Low</td>
<td>3.05</td>
<td>0.40</td>
<td>0.50</td>
</tr>
<tr>
<td>Medium</td>
<td>6.40</td>
<td>0.60</td>
<td>0.75</td>
</tr>
<tr>
<td>High</td>
<td>6.14</td>
<td>0.80</td>
<td>1.00</td>
</tr>
</tbody>
</table>

These allowances are appropriate for the application rates shown per 1,000 square feet. You may need to adjust the spreader setting depending on walking speed, spreader condition and product.

These product contains XCU Polymer Coated Sulfur Coated Urcae, a trademark of Agron Advanced Technologies.

ESTABLISHED TURF

This product is a selective preemergence herbicide that, when properly applied, will control certain grass and broadleaf weeds in established turfgrass and lawns. The maximum amount of this product that may be applied per year is given for each turf grass species in the Maximum Annual Rate section of this label. Most effective weed control in turf grasses will be obtained when this product is activated by at least 0.5 inches of rainfall or irrigation prior to weed seed germination and within 14 days following application.
Contact your Locali products Sales Representative or local Agricultural Extension Agent for crabgrass germination information for your area.

Use Precautions
The following precautions apply to the use of this product in turf grass and lawns: Application of this product may thin emerging annual bluegrass and newly emerged grasses. Do not apply to overseeded turf within 60 days after seeding or until after the second mowing, whichever is longer. Injury to declare seedlings is likely if this product is applied before secondary seedlings and in the second inch of soil, not thatch plus soil. Do not cut (harvest) treated soil before 120 days after application. Do not apply to newly set soil until the following year. Application of this product to turf stressed by drought, low fertility, or pest damage may result in turf injury. Disturbing the herbicide barrier with cultural practices such as diking may result in reduced weed control. Do not apply this product to putting greens or areas where dichloro, clopyralid, bentazone, bentazon or atrazine (Phos annual) are desirable species.

Rates of Application
This product may be applied in one or several applications to control weeds germinating throughout the year. All applications must be made prior to germination of the target weeds. This product will not control established weeds. Maximum use rate selection should be based on turf species. The length of time of residual weed control will be related to the rate applied.

Maximum Annual Rates
This product is recommended for use on the turf grass species listed in the following table. Do not exceed the maximum yearly rate as given in the following table:

<table>
<thead>
<tr>
<th>Crabgrass Preventer with EVADE 375% Plus</th>
<th>Turf Species</th>
<th>lbs/1000sq ft</th>
<th>lbs/100g</th>
</tr>
</thead>
<tbody>
<tr>
<td>Bermudagrass</td>
<td>400</td>
<td>1.5</td>
<td></td>
</tr>
<tr>
<td>Bahiagrass</td>
<td>400</td>
<td>1.5</td>
<td></td>
</tr>
<tr>
<td>Centipedegrass</td>
<td>400</td>
<td>1.5</td>
<td></td>
</tr>
<tr>
<td>Sodgrass</td>
<td>400</td>
<td>1.5</td>
<td></td>
</tr>
<tr>
<td>Tall Fescue (including turf-type)</td>
<td>267</td>
<td>1.0</td>
<td></td>
</tr>
<tr>

<td>700</td>
<td>0.7</td>
<td></td>
</tr>
<tr>
<td>Creeping Bentgrass</td>
<td>175</td>
<td>0.65</td>
<td></td>
</tr>
</tbody>
</table>

These are the maximum rates per calendar year by species limitations. May be used on newly sprayed or plowed Bermuda grass at rates not to exceed 139 lbs/A. Newly sprouted or plowed Bermudagrass stolon rooting may be temporarily retarded. Suppression of only forage, nongrass and noncrabgrass due to reduced product rates used in spraying situations. Do not apply more than 400 lbs of this product per calendar year. Use higher rates of this product to achieve higher levels of fertility and longer periods of weed control for each turf type, but do not exceed the maximum application rates specified in the Maximum Annual Rates Table. When applied in accordance with this product will provide control of the following weeds:

- Bermudagrass
- Bluegrass, Annual (Phos annual)
- Carpetweed
- Chickweed, Common
- Chickweed, Mouse-eared (showd)
- Crabgrass (large, woolly)
- Dallisgrass
- Green一键输入的内容在此处
- Honda Grass
- Knobleda Grass
- Lushgrass
- Lowrygrass
- Paniac (Texas, Fall, Broadbased)
- Goosegrass
- Pigweed

- In many areas a single application of 175 to 400 lbs/A of this product will control grasses. However, under heavy grass pressure and/or an extended growing season, additional applications may be required. Do not exceed the maximum annual application rates recommended for each turf species. All applications must be made prior to germination of the weed species. When TO APPLY AFTER OVERSEEDING TURF
Do not to overseeded turf within 60 days after seeding or until after the second mowing, whichever is longer. Injury to declare seedlings is likely if this product is applied before secondary seedlings and in the second inch of soil, not thatch plus soil. When TO OVERSEED AFTER APPLICATION
This product will inhibit the germination of turf species if overseeded too soon after application. Rates and intervals to the table below for best overemerging/overseeding results.

LANDSCAPE ORNAMENTALS
This product may be applied for residual weed control in ornamentals. Use Rates Apply this product at 175 to 400 lbs/A in fall and/or spring. Higher rates of application for longer control periods. Sequential or single applications are allowed so long as the total amount of product applied does not exceed the maximum annual application rate of 400 lbs/Ayte.

Application Timing and Information
This product is a pre-emergence herbicide and will not control emerged weeds. Most effective weed control in ornamentals will be obtained when this product is activated by at least 0.5 inches of rainfall or irrigation, or with shallow (1 to 2 inches) foliar application, prior to weed seed germination and dependent on weed growth and development.

Best weed control is obtained when this product is applied to soil free of clods, weeds, and debris such as leaves. Prior to application of this product, control existing vegetation by hand weeding, cultivation, or the use of an appropriate preemergence herbicide.

Established Landscape Ornamentals
This product may be applied to established ornamentals as a broadcast, over the top or directed application. Irrigation or rainfall soon after application will mesh residues off plant foliage and activate this product in the soil.

Newly Transplanted Landscape Ornamentals
This product may be applied to newly transplanted ornamentals as a broadcast, over the top or directed application. Delay application to allow soil to settle around new transplants and water thoroughly before applying this product. Apply this product after cuttings form roots and become established. Apply before budding/grafting or after buds/grafts have taken to avoid any inhibition of the tissue union.

Tolerant Ornamental Species
This product will not harm most trees, shrubs, vines and flowers. Best results will be obtained when this product is uniformly applied to the soil surface avoiding contact with ornamental shrubs which may defeat the effort to get uniform distribution on the soil surface. This product may be applied over the top of species. When plants are under stress (such as heat, drought, or flood damage) some cultivars of plants may be sen- sitive to this product.

Do not use on food producing trees, vines, or plants. Not for use on container grown plants.

CONDITIONS OF SALE AND LIMITATION OF WARRANTY AND LIABILITY

BEFORE BUYING OR USING THIS PRODUCT, read the entire Directions for Use and the following Conditions of Sale and Limitation of Warranty and Liability. By buying or using this product, the buyer or user accepts the following Conditions of Sale and Limitation of Warranty and Liability, which no employee or agent of LOWLAND PRODUCTS, INC. or the seller is authorized to vary in any way.

Follow the Directions for Use of this product carefully. It is impossible to eliminate all risks inherent in the use of this product. Each user must assess his own plant injury, ineffectiveness, or other unex- pected consequences may result from such risks as weather or crop conditions, mixture with other chemicals not specifically identified in this product's label, or use of this product contrary to the label instructions, all of which are beyond the control of LOWLAND PRODUCTS, INC. and the seller. The buyer or user of this product assumes all such inherent risks.

Subject to the foregoing inherent risks, LOWLAND PRODUCTS, INC. warrants that this product conforms to the chemical cleaning: of this product's label and is reasonably fit for the purposes stated in the label. In no event shall LOWLAND PRODUCTS, INC. or the seller be held liable for any consequential or indirect damages, or for any loss of profits, revenue, or data in connection with the use of this product. In the event that you shall use this product in strict accordance with such directions for use under normal conditions of use, EXCEPT AS WARRANTED IN THIS LABEL AND TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, THIS PRODUCT IS SOLD "AS IS" AND LOWLAND PRODUCTS, INC. MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR ENSIBILITY OF THIS PRODUCT FOR ANY PARTICULAR TRADE USAGE.

In the unlikely event that buyer or user believes that LOWLAND PRODUCTS, INC. has breached a warranty, customer must return the product, along with original receipt, to the place of purchase. Buyer or user must send written notice of its claim to the following address, LOWLAND PROD- UCTS, INC., ATTN: LAW DEPARTMENT, 100 P.O. BOX 30, CLEBURG, FL 32761, TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, THE BUYER OR USER'S EXCLUSIVE REMEDY FOR ANY INJURY, LOSS, OR DAMAGE RESULTING FROM THE HANDLING OR USE OF THIS PRODUCT, INCLUDING BUT NOT LIMITED TO CLAIMS OF BREACH OF CONTRACT, NEGLIGENCE, STRICT LIABILITY, OR OTHER TORTS, SHALL BE LIMITED TO ONE OF THE FOLLOWING, AT THE ELECTION OF LOWLAND PROD- UCTS, INC., OR THE SELLER: DIRECT DAMAGES, LOSS OR DAMAGE TO THE REPLACEMENT OF THE PRODUCT, TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, LOWLAND PRODUCTS, INC. IS THE SELLER SHALL NOT BE LIABLE TO THE BUYER OR USER OF THIS PRODUCT FOR ANY CONSEQUENTIAL, SPECIAL, OR INDIRECT DAMAGES, OR DAMAGES IN THE NATURE OF A PENALTY.
