For selective preemergence control of grass and broadleaf weeds in:

- Established turf grasses (excluding golf course putting greens) and lawns
- Landscape ornamentals (including established perennials & wildflower plantings)
- Covers up to 16,390 square feet

KEEP OUT OF REACH OF CHILDREN

CAUTION

Product No. 8113370 F1548

GENERAL APPLICATION GUIDELINES:

| Rate | lbs. Product per 1,000 sq ft | lbs. Nitrogen per 1,000 sq ft | lbs. A.I. per acre | L | N |
|------|-------------------------------|------------------------------|-------------------|---------------|-------|-------|
| Low  | 3.05                          | 0.61                         | 0.50              | L   | J    | N     |
| Medium | 4.60                         | 0.92                         | 0.75              | N   | 7    | K     |
| High  | 6.14                          | 1.23                         | 1.00              | High | 18   | L     |

These settings are appropriate for the application rate shown per 1,000 square feet. You may need to adjust the spreader setting depending on wind speed, sprayer condition and product.

Contains ECM Polymer Coated Sulfur Coated Urea, a trademark of Agrim Large Technology.

EPA EST. NO. 41124-01-1 (Lot begins H)

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

This product is a selective preemergence herbicide that provides residual control of many grass and broadleaf weeds in:

- Established turf grasses (excluding golf course putting greens) and lawns
- Landscape ornamentals
- Established perennials & wildflower plantings

This product controls susceptible weeds by inhibiting weed seed germination and root development. Most effective weed control will be obtained when this product is applied by at least 0.5 inches of rainfall or irrigation, or within 1 to 2 inches incorporation, prior to weed seed germination and within 14 days following application.

Not for use on plants being grown (1) for sale or other commercial use, (2) for commercial seed production, or (3) for research purposes. For use on plants intended for aesthetic purposes or climate modification and being grown in ornamental gardens or parks, or on golf courses or lawns and grounds. Do not graze or feed livestock forage cut from areas treated with this product.

Do not apply this product through any type of irrigation system.

Do not apply as an irrigation preemergent.

APPLICATION DIRECTIONS

Apply uniformly with suitable, calibrated application equipment.

ENVIRONMENTAL HAZARDS

This product has low solubility in water. At the levels of solubility, this product is not toxic to fish. However, at concentrations above the level of water solubility, it may be toxic to fish. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Drift and runoff from treated areas may be hazardous to aquatic organisms in adjacent sites. Do not contaminate water when disposing of equipment washwater.

If material is spilled: Contain and sweep up material of spill for disposal or use per label instructions. Wash cleanup equipment to prevent contamination elsewhere. Excess quantities above normal application rates could result in danger to plants subject to spills. Water-in-remnants, disc under, cover with layer of soil, or leave exposed to sun, at least six to eight weeks, as deemed appropriate to the situation.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. STORAGE: Store in original container away from other fertilizer, feed, or food stuffs and separated from other pesticides.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Completely empty bag into application equipment by shaking and tapping sides and bottom to loosen clinging particles. Offer for recycling if available or dispose of empty bag in a sanitary landfill or by incineration. Do not burn, unless allowed by state and local ordinances.

DISTRIBUTED BY:
LOVELAND PRODUCTS, INC.
P.O. BOX 1286, GREELY, COLORADO 80632-1286
**CRABGRASS SEED GERMINATION RATES**

*Note: These are the maximum rates per calendar year by species limitations.

- May be used on newly sprayed or plowed Bermudagrass at rates not to exceed 130 lb/A. Newly sprayer or plowed Bermudagrass standing rooted may be temporarily retarded. Suppression only of Forbs, Gourgeous and Bermudagrass due to reduced product rates used in spraying situations.

- Do not apply more than 400 lbs of this product per calendar year.

- Use higher rates of this product to achieve higher levels of fertility and longer periods of weed control for such turf types, but do not exceed the maximum application rates specified in the Maximum Annual Rates Table.

**Weeds Controlled**

When used in accordance with the label this product will provide control of the following weeds:

- Barmudagrass
- Bluegrass, Annual (Poor annuals)
- Carpetweed
- Chidrick, Common
- Chidrick, Moussaire (from seed)
- Crabgrass, Large (from seed)
- Cowweeds
- Cypergus, Woolly
- Fertilizers, Annual
- Gourgeous

In many areas a single application of 175 to 400 lbs/A of this product will control crabgrass, however, under heavy crabgrass pressure and for an extended growing season, the most effective weed control may be obtained by making an initial application of 175 to 267 lbs/A followed after 40 to 60 days by a second application at doses that would not exceed those given in this (Maximum Annual Rate Table). Do not exceed the maximum rate for turf grass species listed in the Maximum Annual Rate Table above.

- Applications for this weed should be made in late summer, fall or winter prior to germination.

**Rates of Application**

This product may be applied as a single application or in sequential applications to control weeds germinating throughout the year. All applications must be made prior to germination of the target weeds. This product will not control established weeds.

Maximum use rate selection should be based on turf species. The length of time of residual weed control provided by this product is relative to the rate applied.

**Maximum Annual Rates**

This product is recommended for use on the turf grass species listed in the following table. Do not exceed the maximum yearly rate as given in the following table:

<table>
<thead>

<tr>
<td>Creeping Red Fescue</td>
<td>175</td>
</tr>
</tbody>
</table>

**Application Timing and Information**

This product is a preemergence herbicide and will not control emerged weeds. Most effective weed control in ornamentals will be obtained when this product is activated by at least 0.5 inches of rainfall or irrigation, or with shallow (1 to 2 inches) mechanical incorporation, prior to weed seed germination and within 14 days following application.

For best weed control it is important that this product is applied to soil free of clods, weeds, and debris such as leaves. Prior to application of this product, control existing vegetation by hand weeding, cultivation, or the use of an appropriate postemergence herbicide.

**Established Landscape Ornaments**

This product may be applied to established ornamentals as a broadcast, over the top or directed application. Irrigation or rainfall soon after application will wash residues off plant foliage and activate this product in the soil.

**Newly Transplanted Landscape Ornamentals**

This product may be applied to newly transplanted ornamentals on a broadcast, over the top or directed application. Delay application to allow soil to settle around new transplants and water thoroughly before applying this product. Apply this product after cuttings form roots and become established. Apply before shoeing or laying out by larvae or grubs have taken to avoid any inhibition of the tissue union.

**Conditions of Sale and Limitation of Warranty and Liability**

**Buying or Using this Product.** Read the entire directions for use and the following conditions of Sale and Limitation of Warranty and Liability. By buying or using this product, the buyer or user accepts the following Conditions of Sale and Limitation of Warranty and Liability, which no employee or agent of LOVELAND PRODUCTS, INC. or the seller is authorized to vary in any way.

follow the directions for use of this product carefully. It is impossible to eliminate all risks inherent in the use of this product. Certain other plant injury, effectiveness, or other unintended consequences may result from such risks as weather or crop conditions, mixture with other chemicals not specifically identified in this product's label or use of this product contrary to the label instructions, all of which are beyond the control of LOVELAND PRODUCTS, INC. and the seller. The buyer or user of this product assumes all such inherent risks.

Subject to the foregoing inherent risks, LOVELAND PRODUCTS, INC. warrants that this product conforms to the chemical description and generally fits for the purposes stated in the directions for use when the product is used in strict accordance with such directions. For the limited warranty coverage for the product, all claims must be presented to the seller within 180 days of the purchase date. This warranty shall be void if the product is used in any manner other than as directed by this label. This warranty is non-transferable. The remedies for breach of warranty are limited to the replacement of the product.

In the unlikely event that buyer or user believes that Loveland Products, Inc. has breached a warranty to such buyer or user, the buyer or user must send written notice of its claim to the following address: Loveland Products, Inc., Consumer Relations Department, P.O. Box 1326, Greeley, CO 80632-1326.

To the extent consistent with applicable laws, the buyers or users exclusive remedy for any injury, loss, or damage resulting from the handling or use of this product, including but not limited to claims of breach of warranty, negligence, strict liability, or other torts, shall be limited to one of the following: at the election of Loveland Products, Inc. or the seller: (1) the purchase price paid by buyer or user for the defective product, or (2) the purchase price paid by buyer or user for the replacement of the product, to the extent consistent with applicable law, Loveland Products, Inc. and the seller shall not be liable to the buyer or user of this product for any consequential, special, or indirect damages, or damages in the nature of a penalty.
