FIRST AID

IF SWALLOWED:
- If the person is fully alert and cooperative, have the person rinse mouth with plenty of water. Have the person drink plenty of water (10-15 oz) followed by small sips of water if the mouth is dry.
- Do not induce vomiting. Do not attempt mouth rinse if the person has respiratory distress, altered mental status, or nausea and vomiting.
- Call a physician or transport to an emergency facility immediately. See Note to Physician.

IF IN EYES:
- Wash immediately and continuously with flowing water for at least 30 minutes.
- Remove contact lenses after the first 5 minutes and continue washing. Obtain prompt medical consultation. See an ophthalmologist.
- Call a poison control center or a doctor for treatment advice.

IF ON SKIN OR CLOTHING:
- Take off contaminated clothing.
- Rinse skin with large quantities of water for at least 15-20 minutes.
- Call a poison control center or a doctor for treatment advice.

If Hazled:
- Move person to fresh air.
- If person is not breathing, give artificial respiration and call a physician or transport to an emergency facility immediately.

If contact with the eyes, skin, or mucous membranes occurs, rinse immediately with large quantities of water for at least 15 minutes. Call a physician or transport to an emergency facility immediately.

Storage:

GLUTEX® Sanitizers and Disinfectants are for use with children. Do not use on skin. Never mix with other chemicals. Store at room temperature. Keep out of reach of children.

In Case of an Emergency

Do not use on skin or mucous membranes. Do not use if the bottle is cracked or has a leak.

Note to Physician:
- Avoiding aspiration is a primary concern. Be aware of the patient’s respiratory status. Do not attempt mouth rinse if the patient has respiratory distress, altered mental status, or nausea and vomiting.
- Large quantities of water may be required for an extended period of time. Consider the patient’s hydration status.
- If aspiration is suspected, contact a physician immediately.

Product information:
- GLUTEX® Sanitizers and Disinfectants are for use in areas where disinfection is necessary. Do not use on skin. Never mix with other chemicals. Store at room temperature. Keep out of reach of children.

Hazard: Flammable solid. Do not expose to heat or fire. Avoid prolonged exposure to moisture. Keep out of reach of children.

Disposal:
- Do not dispose of in the usual manner. Disposal must be in accordance with local regulations. Contact your local waste management authority for disposal instructions.
