**Precautionary Statements**

- **If On Skin:** Wash with plenty of soap and water.
- **If Swallowed:** Do not induce vomiting unless told to do so by the poison control center or doctor. Call a poison control center, doctor, or 1-877-854-2494 immediately for treatment advice.
- **First Aid:** If exposed, thoroughly wash exposed parts thoroughly with soap and water. If swallowing, do not induce vomiting. Call a poison control center or doctor immediately. Treatment for mild intoxication may consist of gastric lavage, administration of an osmotic diuretic and corticosteroid. If loss of hind limb use, or seizures for animals), limit absorption by either emesis or gastric lavage. Sublethal symptoms, if present, would be the result of cerebral edema and should be treated accordingly through hyperosmotic therapy, albumin administration, and corticosteroid treatment.
