FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for further treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible. Call a poison control center or doctor for further treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for further treatment advice.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Algaecide 30 is used to control the growth of algae in swimming pools, exterior spas, whirlpools, hot tubs, and decorative fountains. For maximum effectiveness, pools, spas, whirlpools, hot tubs, and decorative fountains containing heavy growth of algae should be shocked and cleaned prior to using Algaecide 30.

For pools having just visible algae growth add an initial dose of 2.5 to 5.0 fluid ounces of Algaecide 30 per 10,000 gallons of water. Algaecide 30 is used for treatment of freshly cleaned and filled pools add initially 0.2 to 0.6 fluid ounces of Algaecide 30 per 10,000 gallons of water. Subsequent additions of 4.2 to 6.8 fluid ounces of Algaecide 30 per 10,000 gallons of water should be made every 5 to 7 days after initial treatment for maintenance.

Spas, whirlpools, hot tubs, and decorative fountains having just visible algae growth require an initial dose of 1.0 to 3.0 fluid ounces of Algaecide 30 per 1,000 gallons of water. For treatment of freshly cleaned and filled spas, whirlpool, hot tub, or decorative fountain, add initially 1.0 to 2.0 fluid ounces of Algaecide 30 per 1,000 gallons of water. Subsequent additions of 0.0 to 0.5 fluid ounces of Algaecide 30 per 1,000 gallons of water should be made every 5 to 7 days after initial treatment for maintenance.

Algaecide 30 is compatible with those chemicals normally used to treat pools and spas and is effective at both acidic and alkaline pH. Algaecide 30 can be used in pools and spas treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix Algaecide 30 with concentrated dry or liquid chlorine products.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. STORAGE: Keep container closed when not in use. Leaking or damaged containers should be placed in a plastic bag and discarded in trash. Mop up spills with clear water. All pesticides should be kept out of reach of children and stored away from food.

CONTAINER HANDLING:
Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. Triple rinse container (or equivalent) promptly after emptying.
