ADL™
HIGH SURFACTANT OIL CONCENTRATE

WA REG. NO. 71975-10001 CA REG. NO. 71975-50005 ID REG. NO. 71975-22905

PRINCIPAL FUNCTIONING AGENTS:
Paraffinic hydrocarbons,
d-limonene and alkyl phenol ethoxylate . . . . . . . 100%

ADL is a blend of non-ionic surfactants and oil of limonene. Oil of limonene is a by-product of the citrus industry and, as such, is biodegradable. ADL is specially formulated to minimize the performance of a broad range of herbesides. ADL increases contact activity of herbicide sprays, aids in penetration of waxy leaf cuticle and provides uniform coverage of plant surfaces. ADL is especially suited to aerial application and applications using low volumes of water. Optimum application and effects, however, can be influenced by the crop, pest, spray equipment, spray volume, pressure, droplet size, spray mixture and environmental factors. Consequently, it is recommended that careful observation of the spray deposit be made and ADL concentrations adjusted accordingly.

KEEP OUT OF REACH OF CHILDREN
CAUTION

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes; then continue rinsing. Call a Poison Control Center or doctor for treatment advice.

IF SWALLOWED: Immediately call a Poison Control Center or doctor for treatment advice.

DO NOT induce vomiting unless told to do so by a Poison Control Center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance. Give artificial respiration, preferably by mouth-to-mouth if possible. Call a Poison Control Center or doctor for further treatment advice.

Have the product container or label with you when calling a Poison Control Center or doctor or going to treatment.

NOTE TO PHYSICIAN: Contains petroleum distillate. Vomiting may cause aspiration pneumonitis.

NOT FOR AQUATIC USE

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Causes moderate eye irritation. Harmful if swallowed or inhaled. Avoid contact with eyes or clothing. Avoid breathing spray mist. Wear long sleeved shirt, long pants, and shoes plus socks when mixing or handling concentrate. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS
Do not contaminate water when cleaning equipment or disposing of equipment washwater.

PREPARATION OF SPRAYS
To prepare a herbicide spray containing ADL, fill the spray tank half full with water; add the proper amount of herbicide as directed by its label and then add ADL, agitating during the entire process. Continue to agitate while filling the tank with water and agitate before and during each application to insure a uniform spray.

DIRECTIONS FOR USE:
High Volume Ground Application: The following recommendations are for the rates of ADL in herbicide sprays.

<table>
<thead>
<tr>
<th>Rate (100 gal)</th>
<th>Rate (Per Acre)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Right-of-Ways (Foliar)</td>
<td>1-2 qts</td>
</tr>
<tr>
<td>Forest Site Preparation</td>
<td>1-2 qts</td>
</tr>
</tbody>
</table>

Low Volume Ground and Aerial Application: The following recommendations are for the rate of ADL per acre sprayed.

<table>
<thead>
<tr>
<th>Rate (100 gal)</th>
<th>Rate (Per Acre)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Right-of-Ways (Foliar application)</td>
<td>1-2 qts</td>
</tr>
<tr>
<td>Forest Site Preparation</td>
<td>1-2 qts</td>
</tr>
</tbody>
</table>

*NOTE: ADL should not be mixed with turf herbicides unless the herbicide label indicates it may be mixed with an adjuvant. ADL with turf herbicide should be used only on Bermudagrass.

Sprays containing ADL and herbicides should be applied from same equipment and in same manner as the herbicides would be applied alone.

For ground application of contact herbicides such as Roundup® and Gramoxone®, use ADL at the following rates per 100 gallons of spray mix: Orchards, Vineyards, Windbreaks, Shade and Ornamental Trees: 1-4 pts.

NOTE: When applying aerially, follow pesticide label directions including minimum water volume per acre. Do not substitute ADL for water required by the pesticide label.

Pre-prep Burn Down: ADL can be added at the rate of 1 to 2 quarts per 100 gallons of spray with herbicides (i.e. Roundup®, Gramoxone®, 2,4-D) to kill weeds in preparation of planting with conservation tillage. Reduced tillage, no tillage or conventional tillage.

NOTE: The percent concentration of ADL varies with the total volume used per acre. Do not exceed 2% concentration by volume.

COMPATIBILITY
ADL is compatible with most pesticides. However if the desired combination has not previously been tested, a compatibility test is recommended.

STORAGE AND DISPOSAL
DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL

STORAGE: Store in original container away from children, animals, foods, feeds and seeds. Handle in accordance with Precautionary Statements. In the event of spillage or leakage, soak up with the material with absorbent clay, sand, sandstone or other absorbent material. Sweep up and dispose in accordance with Product Disposal.

PRODUCT DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Clean containers are recycled. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state or local ACRC recycler, visit the ACRC web page at www.acrc.org. Decontaminated containers may also be disposed of in a sanitary landfill.

CONDITION OF SALE:
Seller warrants that the product conforms to the chemical description and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal condition of use. Since weather, crop, soil and other conditions may vary, Northwest Agricultural Products, Inc. and/or seller make no warranty of any kind, expressed or implied, concerning the use of this product. The user assumes all risks of use of handling, whether or not in accordance with directions or suggestions.

Roundup® is a registered trademark of the Monsanto Company
Gramoxone® is a registered trademark of Syngenta Company.
