face shield, or shielded safety glasses, cotton-towels worn over short-sleeved shirt and short pants, socks, chemical-resistant gloves, chemical-resistant footwear, and a dust/mist filtering respirator (NIOSH number prefix TC-210), or a NIOSH-approved respirator with any R, P, or HE filter. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using toilet. Remove and wash contaminated clothing before reuse.

PHYSICAL OR CHEMICAL HAZARDS: CONTAINS AN OXIDIZING AGENT: DO not mix with other products or chemicals. Never add water to product. Always add product in dry form directly to pool or pool skimmer. Use only on water surfaces. Do not add this product to any dispensing device containing sources of other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with organic matter or other chemicals will start a chemical reaction and generate heat, hazardous gas, possible fire, and explosion. In case of contamination or decomposition, do not recontact container. If possible, isolate container in open area or well-ventilated area. Flood area with large volumes of water. Keep area ventilated until all fumes are gone.

FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call poison control center or doctor for treatment advice. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. IF SWALLOWED: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. IN CASE OF MEDICAL EMERGENCY, CALL 1-877-800-5553.

Note to Physician: Probable maxium damage can contriubite the use of gastric lavage.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

NOTE: Buyer assumes all responsibilities for safety and use not in accordance with directions.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. READ ENTIRE LABEL AND USE STRICTLY IN ACCORDANCE WITH PRECAUTIONARY STATEMENTS AND DIRECTIONS FOR USE.

WATER BALANCE: Optimum product performance and swimmer comfort will be achieved if you test, adjust, and maintain the following: pH between 7.2 - 7.6, alkalinity between 80 - 125 ppm for plaster pools and 125 - 150 ppm for vinyl, fiberglass and painted pools. Calcium hardness between 200 - 250 ppm for plaster pools, and 175 - 225 ppm for vinyl, fiberglass and painted pools.

DO NOT preadecideur this product before adding to pool or skimmer. DO NOT mix this product with any other products or chemicals. This product should be applied in the dry form through the skimmer or directly to pool as follows:

Directly to Skimmer: Add product in dry form directly through the skimmer with the pump running. Replace the skimmer basket and keep the pump running for at least 2 to 4 hours.

Directly to Pool: Add product in dry form directly to the pool water, with the pump running for at least 2 to 4 hours. If your pool has a bleachable surface, such as vinyl, colored plaster, peened or fiberglass, use skimmer application, add directly to pool, brushing visible product until completely dissolved to avoid bleaching. To open your pool in the spring, if the pool has not been maintained for several weeks, or if the pool is freshly filled: brush all pool surfaces with pump running. Add 1 lb. of this product to dry form per 10,000 gallons of pool water. After two hours, test chlorine level (residual). Repeat dosage until you obtain a chlorine level of 1 - 3 parts.

To shock your pool, apply product weekly when buffer levels are high, water appears hazy or dull, unpleasant odors or eye irritation occurs, or after heavy rain. Add 1 lb. of this product to dry form per 10,000 gallons of pool water.

To treat wristing your pool, treat any algae present then add 2.5 lbs. of this product in dry form per 10,000 gallons of pool water.

Precautions: Swimming is prohibited above levels of 3 ppm chlorine due to risk of bodily injury.

STORAGE AND DISPOSAL: Keep this product dry in original unopened bag until use. For partially used bags, fold over top of bag and secure with adhesive tape. Store unopened and partially used bags in a secure location away from children. Store in a cool, dry, well-ventilated area away from heat or open flames. Do not contaminate food or feed by storage or disposal. STORAGE CONTAINER: Nonrefillable container. Do not reuse or refill container. Offer for recycling, if available. Tripe rinse container (or equivalent) promptly after emptying.

PRECAUTIONARY STATEMENTS:

Hazard to Humans and Domestic Animals: Danger: Corrosive. Causes irreversible eye damage and skin irritation. May be fatal if inhaled. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin, or on clothing. Do not breathe dust. Wear goggles,
