RAID EARTH OPTIONS® HOUSE & GARDEN INSECT KILLER may be used indoors or outdoors as a contact spray for flying and crawling pests commonly found in and around the home. RAID EARTH OPTIONS® HOUSE & GARDEN INSECT KILLER contains Pyrethrins, derived from a chrysanthemum flower, to give fast and effective kill of German Cockroaches on contact. Pyrethrins also will “flush” hiding German Cockroaches, which then allows you to spray them for immediate contact kill.

A family company since 1886. Fisk Johnson

Sold By: ©2010 S. C. Johnson & Son, Inc.
Racine, WI 53403-2236 U.S.A. All Rights Reserved.
EPA Reg. No. 4822-563
EPA Est. No. 09019-OH-001
For Use on All Ornamental Plants (such as Roses, Hyacinth, Geraniums, Fuchsias).

- Annuals (such as Cosmos, Celosia, Ageratum, Impatiens).
- Perennials (such as Gazania, Cineraria, Chrysanthemum, Zinnia).
- Shrubs (such as Mountain Laurel, Juniper).
- Privet, Mock Orange.
- Shade Trees (such as Oak, London Plane, Maple, Sycamore, Mulberry).
- And all vines (such as Trumpet Creeper, Creeping Lantana, Wisteria, Honeysuckle).

For the Control of: Ants, Aphids, Armyworms, Asparagus Beetles, Bittercress, Cabbage Loopers, 10-Spotted Cucumber Beetles, Colorado Potato Beetles, Corn Earworms, Crickets, Cross-striped/Cabbageworms, Diamondback Moth Larvae, Fireworms, Flea beetles, Fruit Worms, Fruit Tree Leaf rollers, Grape Leaf Hoppers, Gypsy Moths (larvae and adult), Harlequin Bugs, Tomato Hornworms, Imported Cabbageworms, Leaf Hoppers, Leaf Rollers, Leafroller, Mexican Bean Beetles, Potato Leaf Hoppers, Psyllids, Slugs, Spiders, Ticks, Vineyard Flies, and Webworms: Water plant thoroughly. Turn spray nozzle to the on position, and hold spray nozzle about 12” from the plants. Spray thoroughly covering contacting insects on upper and lower leaf surfaces until surfaces are slightly wet. Do not wet plants to the point of runoff or drip. Spray when insects or their damage first appear. Do not wait until plants are heavily infested. Spray may be applied up to and including day of harvest.

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry, preferably locked storage area, in the original container, in an upright position only. Store with spray nozzle securely closed. Do not store with spray nozzle below level of product in container.

CONTAINER DISPOSAL:

If empty: Nonrefillable container. Do not use or refill this container. Offer for recycling if available.

If partly filled: Call your local solid waste agency or (800) 525-3394 for disposal instructions. Never place unused product down any indoor or outdoor drain.

Precautionary Statements

Hazard to Humans and Domestic Animals: Caution: Harmful if swallowed or absorbed through the skin. Avoid contact with skin, eyes, or clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse. Remove pets and birds and cover fish aquariums before spraying.

FIRST AID:

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Do not give any liquid to the person. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For additional information on this product (including health concerns, medical emergencies, or pesticide incidents) you may call (800) 558-5252.

Environmental Hazards: This product is toxic to aquatic organisms, including fish and invertebrates. Do not apply near lakes, ponds, or streams. Do not allow runoff to enter storm drains, drainage ditches, gutters, or surface waters. Applying this product in calm weather, when rain is not predicted for the next 24 hours, will help to ensure that wind or rain does not blow or wash pesticides off the treatment area. See directions for use for additional precautions and restrictions.

Physical or Chemical Hazards: Do not use this product in or on electrical equipment because of shock hazard.
A Chrysanthemum.

A way to kill bugs. The flower’s extract, called pyrethrum, is an effective plant-based insecticide that’s right for your garden. Right for the way you live.

A difference for family

In East Africa, SC Johnson helps families farm chrysanthemums. By supporting agriculture—and things like schools and sustainable practices, we make a better life for people in the villages while doing the same here at home.
