DEFUSER
ANTIFOAMING AND DEFOAMING AGENT

PRINCIPAL FUNCTIONING AGENTS:
Dimethylpolysiloxane ................................................................. 10%
Constituents ineffective as a spray adjuvant .......................... 90%
TOTAL .......................................................................................... 100%

WA Reg. No. 73127-10004  All ingredients are exempt from tolerance requirements under 40 CFR 180.

CAUTION
KEEP OUT OF REACH OF CHILDREN
Causes moderate eye irritation. Harmful if swallowed, inhaled or absorbed through skin. Avoid contact with skin, eyes or clothing. Avoid breathing spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or smoking tobacco. Remove and wash contaminated clothing before reuse. Personal Protective Equipment: Wear chemical-resistant gloves, long-sleeved shirt and long pants, and shoes plus socks.

FIRST AID
Call a poison control center or doctor immediately for treatment advice.
Have the product container with you when calling a poison control center or doctor, or going for treatment.

If Swallowed: Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.
If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth to mouth if possible.
If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye.

GENERAL INFORMATION:
Defuser is an oil-in-water, silicone emulsion antifoam and defoamer. Defuser can be used to prevent foam formation or knock down existing foam. Use rates for Defuser depend directly on temperature, composition, viscosity, agitation and other various conditions; therefore rates may require adjustment for the most effective dosage. Generally, use rates are lower when used as an antifoam to prevent or reduce foam formation.

DIRECTIONS FOR USE:
Use Defuser at 1/2 - 6 oz. per 100 gallons of solution. It may be necessary to adjust the amount used according to individual conditions.

Antifoaming: For best results, fill the tank approximately half full of water, put first tank mix component into water, then add recommended amount of Defuser. Also, to ensure proper dispersion and foam control, Defuser should be added directly to the top surface of the mixture, not to edges or tank sides or bottom. After mixing in Defuser, continue addition of other ingredients. Add more Defuser, as necessary, to continue to suppress foam.

Defoaming: If foam develops, stop agitation and add the recommended dosage of Defuser. Continue addition if foam does not disappear. When foaming develops in urea water solutions, it may be necessary to use as much as 6 ounces of Defuser per 100 gallons of solution.

NOT FOR AQUATIC USE

STORAGE AND DISPOSAL:
Storage: Defuser will be come thicker in cold weather and freeze. Freeze and thaw cycles may cause the emulsion to separate. Testing has shown that freezing does not significantly affect performance. Warming and shaking the container will help restore the material to its normal consistency. For optimum storage stability, store at temperatures between 40°F (4°C) and 90°F (32°C). Do not store near oxidizing agents. Keep in original container.

Disposal: Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal.

The Agricultural Container Recycling Council (ACRC) operates the national recycling program. Contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

WARRANTY STATEMENT: Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label, when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to the seller, and buyer assumes the risk of any such use.
