FIRST AID

IF IN EYES:
• Hold eye open and rinse slowly and gently with water for 15-20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
• Call a poison control center or doctor for treatment advice.

IF SWALLOWED:
• Call poison control center or doctor immediately for treatment advice.
• If person is asleep, awaken before giving water.
• Do not induce vomiting unless told to do so by the poison control center or doctor.
• Do not give anything by mouth to an unconscious person.

IF ON SKIN OR ON CLOTHING:
• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15-20 minutes.
• Call a poison control center or doctor for treatment advice.

IF INHALED:
• Move person to fresh air.
• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
• Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. In case of emergency call toll free 1-800-558-0445.

NOTE TO PHYSICIAN:
Probable mucosal damage may contraindicate the use of gastric lavage.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER
CORROSIVE. Causes Invariable Eye Damages and Skin Burns. Harmful if swallowed, inhaled or absorbed through skin. Do not get in eyes, on skin, or on clothing. Avoid breathing vapors or spray mist. Wear protective eyewear (goggles, face shield or safety glasses). Wash thoroughly with soap and water after handling. Wash contaminated clothing and wash clothing before reuse.

PERSONAL PROTECTIVE EQUIPMENT (PPE)
Applicators and other handlers must wear:
1. Coveralls over long-sleeved shirt and long pants
2. Chemical-resistant footwear plus socks
3. Goggles or face shield
4. Chemical-resistant gloves (such as barrier laminates, nitrile rubber, neoprene rubber and vinyl)

Respirator with an organic vapor cartridge with a prefilter approved for pesticides (MSHA/NIOSH approval prefix TC-225C) or a canister approved for pesticides (MSHA/NIOSH approval prefix TC-145 or NIOSH approved respirator with an organic vapor (OV) cartridge or canister with any R, P or HE prefilter.

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions exist for washables, use detergent and hot water. Discard clothing or other absorbent materials that have been drenched or heavily contaminated with this product. Do not re-use them. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS

Users should:
• Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
• Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
• Remove personal protective equipment immediately after handling this product.
• Wash outside of gloves before removing. As soon as possible wash thoroughly.

ENVIRONMENTAL HAZARDS:
This pesticide is toxic to fish. Do not apply directly to any body of water or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters or rinsewater. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other water bodies in accordance with the requirements of a National Pollution Discharge Elimination System (NPDES) permit and the permitting authority. Do not contaminate water by washing in or near waterways. Do not discharge the product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

WARRANTY: We warrant this material to comply with our published specifications and to be of good merchantable quality and such as will respectively pass in the trade for goods within the description, and further warrant such goods to be fit for the normal purposes which goods are used. We assume no responsibility that the goods contained in this container are fit for any particular purpose for which they are being bought outside of the general purposes of goods of the description.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

GENERAL PRECAUTIONS AND RESTRICTIONS:
FOR INDUSTRIAL USE ONLY
DILUTE BEFORE USING
Do not apply this product in a way that will contact workers or other persons.

Wear synthetic rubber gloves or plastic coated gloves in handling solutions and freshly treated lumber.

Treated treated and other wood products should be disposed of properly and should not be used as mulch where it will come in contact with seeds of living plants. Use should be taken to prevent spill or spray from coming in contact with streams, rivers, and other desirable vegetation.

GENERAL INFORMATION

Description: WORKHORSE III Sapstain and Mold control is a liquid concentrate containing an effective combination of fungicides for the control of sap stain and surface staining fungi that cause discoloration and staining of freshly cut lumber. WORKHORSE III Sapstain and Mold control is an aqueous solution which may be applied to dimensional lumber, logs, plywood and particle board to prevent surface mold growth.

Dilution Ratio: WORKHORSE III Sapstain and Mold control is dilutable with water. For lumber in dip systems, use 1 gallon of Concentrate per 100 gallons to 200 gallons of water to protect against staining epiphytes. For spray systems use 1 gallon of concentrate per 5 to 100 gallons of water. Contact Kop-Coat, Inc. for recommendations and further information.

APPLICATION INSTRUCTIONS: WORKHORSE III Sapstain and Mold control Application: Flood spray or dip the freshly sawn lumber to be treated in WORKHORSE III Sapstain and Mold control solution within 24 hours after cutting. A dip of 15 seconds or more is sufficient. If not treated within 24 hours, stain may occur.

Lumber should be totally immersed or sprayed to insure treatment. Tanks should be covered by a roof to prevent the addition of rain water and consequent dilution of the solution. Vats and spray equipment should be cleaned regularly to remove sawdust and other debris. Freshly treated lumber should not be exposed to water. Store in protected area from rain and stack properly for best results.

Clean Up: Use water to clean immersion tanks, spray equipment and surrounding area. Soap and water may be required to remove WORKHORSE III Sapstain and Mold control from floors and equipment.
