PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if absorbed through skin. Avoid contact with skin, eyes, or clothing.

PERSONAL PROTECTIVE EQUIPMENT (PPE): When mixing, pouring, or applying this product, wearing or cleaning equipment used with this product, cleaning up spills, or in any other way coming into contact with it, use protective clothing, including one that will protect you from skin contact and splashing as well as breathing the vapor. Immediately after handling the product, wash thoroughly both hands and clothing. Wear long-sleeved shirt, long pants, chemical-resistant apron, socks, and shoes. Wash hands, face and area with soap and water as soon as possible after handling, loading, or applying this product. This product may cause skin sensitization reactions in some people.

USER SAFETY REQUIREMENTS: Follow manufacturer’s instructions for cleaning/managing PPE. If no such instructions is washables, use detergent and hot water. Keep first such PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS: • Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. • Users should remove PPE immediately after handling the product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing. After work, remove all clothing and shower using soap and water. Do not reuse clothing worn during the previous day’s mixing and loading or application of this product without cleaning first. Clothing must be left wet and washed separately from other household laundry. If this container is over one gallon and less than five gallons, then persons engaged in open burning of this product must also wear coveralls or a chemical-resistant apron. If the container is five gallons or more in capacity, do not open pour product from this container. A mechanical system (such as a probe and pump or sprayer) must be used for transferring the contents of the container. If the contents of a non-refillable pesticide container are emptied, the probe must be rinsed before removal.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and aquatic invertebrates. It does not apply directly to water, to areas where surface water is present, or to treated areas below the mean high water mark. Do not apply on sites where wildlife is abundant. Do not contaminate water when disposing of equipment, packaging, or unused or discarded product. This product is a toxicant and is harmful to people and wildlife, including pets. When disposing of equipment, packaging, or unused or discarded product, use appropriate means of disposal to protect water resources. This chemical has properties and characteristics associated with chemicals detected in groundwater. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination. Application around a stream or well may result in contamination of drinking water or groundwater.

FIRST AID

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 20-20 minutes. Call a poison control center or doctor for treatment advice. IF IN EYES: Hold eyes open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses to facilitate rinsing. Call a poison control center or doctor for treatment advice. IF SWALLOWED: Immediately call a poison control center or doctor for treatment advice. Do not inducive vomiting. Do not give anything by mouth to an unconscious person. Have the product container or label with you when calling a poison control center or doctor. Giving water for flushing of the mouth is not recommended.

NOT TO PHYSICIAN: May pose an aspiration pneumonia hazard. Contains petroleum distillates. Contains petroleum distillates. Do not use or store near heat or an open flame.

SCIENTIFICALLY FORMULATED FOR INDUSTRIAL AND INSTITUTIONAL USE

NET CONTENTS:

5 U.S. gallons 18.9 LITER(S)

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. This product is a specially formulated non-selective vegetation killer for controlling a wide range of annual and perennial weeds and grasses. Applied as a spray on non-irrigated sites where bare ground is desired. Product will vary with the amount of chemical applied, hot hip, and other conditions. This product is nonremovable to metal surfaces. Especially compounded for industrial and municipal weed control.

APPLICATION RESTRICTIONS: Do not apply this product in any way that will contact workers or other people, either directly or through drift. Only protected handles may be in the area during application. Not to be used in any recreational use in or near water or other sensitive areas. Use of this product in certain portions of California, Oregon and Washington is subject to the January 22, 2004 Collaborative Initiative at www.westcals.com or by calling 1-800-452-0666. For further information, please call EPA Water Hotline at 1-800-438-4318.

SPRAY DRIFT MANAGEMENT: A variety of factors can cause drift occurring: wind direction, wind speed, temperature, relative humidity and method of application (e.g., ground, aerial, aerial, ground); changes in method of application can influence potential drift. The application method must either be adjusted or changes to more suitable application method may occur. Before applying spray, and when applying sprays that contain 2.4-D as the sole active ingredient, or when applying sprays that contain 2.4-D mixed with active ingredients that require a coarser or coarser spray, apply only as a coarse or course spray (AAE standard 2.5 g) in a volume mean diameter of 365 microns or greater. For the liquid concentrate product, apply only as a coarse spray (AAE standard 2.5 g) in a volume mean diameter of 365 microns or greater. For the liquid concentrate product, apply only as a coarse spray (AAE standard 2.5 g) in a volume mean diameter of 365 microns or greater.
