Ben's Clothing & Gear will treat TWO complete outfits!

Direct from USE. It is a violation of Federal Law to use this product in a manner inconsistent with its label. SHAKES WELL BEFORE USING! This product should not be applied to clothing while it is being worn. Under no circumstances should bare skin or clothing on the body be treated. Do not allow contact with treated surfaces until spray has dried. Do not allow spray to contact metal surface or supply lines. Avoid contamination of feed and foodsusts. GENERAL INSTRUCTIONS FOR CLOTHING TREATMENT: For protection against Ticks (including those which may carry Lyme disease and Rocky Mountain Spotted Fever), chiggers, and mosquitoes, apply product as directed below. For further protection, use in conjunction with an insect repellent registered for direct application to the skin, like Ben’s 30 Tick and Insect Repellent, and utilize the following primary preventive measures: Avoid areas where ticks are found, wear appropriate protective clothing (light-colored, long-sleeved shirt and long pants tucked into socks) and inspect body daily for ticks. Pant cuffs should be worn inside the socks or boot/straps to ensure full protection against ticks and chiggers. INITIAL TREATMENT INSTRUCTIONS FOR CLOTHING: Select a well-ventilated outdoor area protected from wind and lay out the clothing to be treated (as complete outfit: shirt, trousers and socks). Hold up upright about 6 to 8 inches from the surface of the clothing and spray with a slow sweeping motion to lightly moisten the surface of the fabric. Continue spraying over entire outfit until the outer surface of the article is moist enough to cause a slight color change or darkening. Pay special attention to socks, trouser cuffs and pant cuffs. Turn the clothing over and treat the other side as described in Steps 2 & 3. Hang the treated clothing and allow to dry for at least 2 hours (4 hours under humid conditions) before wearing. One can will treat two complete outfits. INITIAL TREATMENT ON NETS, TENTS, SLEEPING BAGS AND BACKPACKS: Do not treat inside of sleeping bag. Spray exterior surfaces of tent only. Select a well-ventilated outdoor area protected from wind and lay out article to be treated. Hold up upright about 6 to 8 inches from the surface of the article and spray with a slow sweeping motion to lightly moisten the surface of the fabric. Continue spraying over entire article, until the outer surface of the article is moist enough to cause a slight color change or darkening. Turn the article over and treat the other side as described in steps 2 and 3. Hang the treated article and allow to dry for at least 2 hours (4 hours under humid conditions) before using. RETREATMENT INSTRUCTIONS: This product can contain an active ingredient which actually bonds to the fiber being treated, providing residual protection which lasts a minimum of two weeks, and holds up through several machine washings. DO NOT RETREAT CLOTHING MORE THAN ONCE EVERY TWO WEEKS. LAUNDER CLOTHING AT LEAST ONCE BEFORE RETREATING. For repeat applications, follow instructions for initial treatment.
