ACTICIDE® CBM 2

ACTIVE INGREDIENTS:
- Chloro-2-methyl-4-isothiazolin-3-one ........ 1.00%
- 2-Methyl-4-isothiazolin-3-one .............. 5.00%
- 1,2-Benzisothiazolin-3-one ................. 10.00%

OTHER INGREDIENTS: .......................... 84.00%
TOTAL: ........................................ 100.00%

KEEP OUT OF REACH OF CHILDREN
DANGER - PELIGRO
See Side panel for additional precautionary statements

FIRST AID

If in Eyes:
- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

If on Skin or Clothing:
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

If Inhaled:
- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible.
- Call a poison control center or doctor for further treatment advice.

If Swallowed:
- Call a poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water to swallow.
- Do not induce vomiting unless told to do so by the poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

Note to Physician: Probable muco-ocular damage may contraindicate the use of gastric lavage.

Have the product container or label with you when calling a poison control center or doctor for treatment.

For emergency information of ACTICIDE® CBM 2, call the National Pesticide Information Center at 1-800-858-7778, 6:30 AM to 4:30 PM Pacific time (PT), seven days a week. During other times, call the poison control center 1-800-222-1222.

For Transportation / Spill Emergency: Call Chemtrec at 1-800-424-9200

EPA Reg. No. 67071-62

PHYSICAL AND CHEMICAL HAZARD
This product is corrosive to mild steel. Materials to be avoided: Alkalis, reducing agents, strong oxidising agents, Nudrophiles.

STORAGE AND DISPOSAL
This product (pH 3.0) is corrosive to mild steel. PESTICIDE STORAGE: Do not store or transport in unlined metal containers. Do not contaminate water, food or feed by storage, disposal or cleaning of equipment.

IN CASE OF A SPILL OR LEAK: Wear goggles, rubber gloves, and protective clothing. Absorb spills and leaks with inert material such as sand, clay or vermiculite. Shovel into a sealable container and dispose of in an authorized EPA disposal facility.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide or rinseate is a violation of Federal Law. If waste cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Non-refillable container. Do not reuse or refill this container. Triple rinse container promptly after emptying. Triple rinse as follows. [For containers > 5 gallons in size] - Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Pour container 1/4 full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. [For containers > 5 gallons in size] - Empty the remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and let it back and forth several times. Turn the container over once or twice. Roll it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times. Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

GENERAL: CONSULT FEDERAL, STATE OR LOCAL AUTHORITIES FOR APPROVED ALTERNATIVE PROCEDURES.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Industrial microbiocide for use in polymer lactons, paints and coatings, building materials, adhesives and tackifiers, mineral slurries, oil-in-water emulsions, as an in-container preservative for aqueous products, for use in household consumer, industrial, janitorial products, metal working fluids, and textiles/cordage products and textile- textile fibers-making.

READ AND FOLLOW THE DIRECTIONS FOR USE ON THE ACCOMPANYING INFORMATION SHEET.

Batch: Mfg Date: Net Contents (pounds):
**ACTICIDE® CBM 2 INFORMATION SHEET**

**THIS ACTICIDE® CBM 2 INFORMATION SHEET MUST ACCOMPANY EACH SHIPMENT OF ACTICIDE® CBM 2**

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**PRESERVATIVE FOR LATICES, POLYMER EMULSIONS OR SOLUTIONS:** ACTICIDE® CBM 2 microbiocide is recommended for the control of bacteria and fungi in the manufacture and storage of synthetic and natural polymer latices (including process wash solutions) including: acrylics, styrene-butadiene, carboxylated styrene-butadiene, ethylene-vinyl acetate and biopolymers intended for industrial use such as xanthan gum, gum arabic, guar gum, protein derived polymers, starches and casein derived polymers including latices for paper and paperboard. Add 0.05% - 0.4% (0.5 - 4.0 lbs. ACTICIDE® CBM 2 to 1000 lbs. of emulsion) to provide 80 – 640 ppm active ingredient. *Not approved for this use in the state of California*

**PRESERVATIVE FOR PAINTS AND COATINGS:** ACTICIDE® CBM 2 microbiocide is recommended as an in-container preservative for the control of bacteria and fungi in water based coatings such as paper and wood coatings and paints (including process wash solutions) used for architectural product finishes and *special purpose coatings*. Add 0.05% - 0.4% (0.5 - 4.0 lbs. ACTICIDE® CBM 2 to 1000 lbs. of paint, or coating fluid formulation or polymer latex to provide 80 – 640 ppm of active ingredient. *Not approved for use in the state of California*

**Special purpose coating uses:** Include use as a: <> preservative for electrodeposition paints or solutions, <> preservative for photoplateing solutions or coatings, <> preservative in fount (or fountain) solutions used in the printing process as a maintenance fluid/coating and as a special coating for printing plates, and <> preservative in spin finish coatings for fibers. The application/addition directions for these special purpose coating uses are:

**Electrodeposition:** ACTICIDE® CBM 2 microbiocide is recommended as a tankside additive for the control of bacteria, fungi, and slime in re-circulating electrodeposition systems and associated rinse systems. Alternately, ACTICIDE® CBM 2 microbiocide may be added through the components of the electrodeposition paint prior to their addition to the electrodeposition system.

Tankside Addition To Electrodeposition Systems: ACTICIDE® CBM 2 microbiocide should be dispensed into the recirculating rinse system, ultrafilter permeate, or final distilled rinse system at a point to insure uniform mixing. When the system is noticeably fouled, add up to 0.4% ACTICIDE® CBM 2 microbiocide (based on the total gallons of fluid in the system). Repeat until control is achieved. When microbial control is evident, add up to 0.2% ACTICIDE® CBM 2 (based on the total gallons of fluid in the system) weekly or as needed to maintain the system. A change of frequency of treatment may be required depending on the rate of dilution of the preservative with the makeup fluid, the nature and severity of contamination, level of control required, filtration effectiveness, system design, etc. *Not approved for this use in the state of California*

**Treatment Of Electrodeposition Paint Components:** Initial Dose of Paint Components: ACTICIDE® CBM 2 microbiocide should be added to the resin, pigment, or other component of the electrodeposition paint at a level to ensure that the final use-dilution fluid will contain no more than 320 ppm isothiazolones. *Not approved for this use in the state of California*

**Photoplate Processing, Photo Processing, Fountain Solutions, And Ink/Ink Components:** ACTICIDE® CBM 2 microbiocide is recommended for the control of bacteria and fungi in photoplate processing such as stabilizer solutions and in fountain solutions. ACTICIDE® CBM 2 microbiocide is recommended for water-based printing inks such as flexographic, gravure, screen and ink jet types. ACTICIDE® CBM 2 microbiocide is recommended for the control of bacteria and fungi in printing ink components such as resins, plasticizers, water soluble dyes, pigments, gelling agents, waves, surfactants, and thickeners. ACTICIDE® CBM 2 microbiocide should be added to achieve the recommended dosage range for ink, ink components, fountain solutions and photoplate processing chemicals of 0.05% to 0.4% on a total weight basis. A level adjustment may be necessary to accommodate the slight change in solution formulations. Up to 500 lb ACTICIDE® CBM 2 per 1,000 lbs of concentrate may be added to concentrates so long as the final use-dilution product contains not more than 320 ppm active ingredients (a dilution of 100x). *Not approved for this use in the state of California*
ACTICIDE® CBM 2
INFORMATION SHEET

THIS ACTICIDE® CBM 2 INFORMATION SHEET MUST ACCOMPANY EACH
SHIPMENT OF ACTICIDE® CBM 2

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

*PRESERVATIVE FOR BUILDING MATERIALS: ACTICIDE® CBM 2 microbiocide is recommended as an in-container preservative for the control of bacteria and fungi in building materials such as mastics, caulks, joint cements, spackles and grouts, and concrete admixtures. Add 0.05% - 0.4% (0.5 - 4.0 lbs. ACTICIDE® CBM 2 to 1000 lbs. of fluid to provide 80 - 640 ppm active ingredient. * Not approved for this use in the state of California

*PRESERVATIVE FOR ADHESIVES AND TACKIFIERS: ACTICIDE® CBM 2 microbiocide is recommended as a preservative for the control of bacteria and fungi in water soluble and water dispersed adhesives such as animal glues, vegetable glues, natural rubber latices, polyvinyl acetate, styrene-butadiene and acrylatic latices. ACTICIDE® CBM 2 microbiocide is recommended as a preservative for tackifiers derived from rosin and hydrocarbon resins. Add 0.05% - 0.4% (0.5 - 4.0 lbs. ACTICIDE® CBM 2 to 1000 lbs. of fluid to provide 80 - 640 ppm active ingredient. * Not approved for this use in the state of California

*PRESERVATIVE FOR DISPERSED PIGMENTS (MINERAL SLURRIES): ACTICIDE® CBM 2 microbiocide is recommended for the control of bacteria and fungi in the manufacture and storage of dispersed pigments such as refractory coatings, ceramic glazes, kaolin clay, montmorillonite clay, titanium dioxide, calcium carbonate, calcium sulfate, barium sulfate, magnesium silicate and kieselguhr used in paint and paper products. Add 0.03% - 0.3% (0.3 - 3.0 lbs. ACTICIDE® CBM 2 to 1000 lbs. of dispersion to provide 40 - 400 ppm active ingredient. * Not approved for this use in the state of California

*PRESERVATIVE FOR OIL-IN-WATER EMULSIONS: ACTICIDE® CBM 2 is recommended for use in spin-finish solutions used in the textile industry and photographic emulsions. Add 0.05% - 0.4% (0.5 - 4.0 lbs. ACTICIDE® CBM 2 to 1000 lbs. of emulsion to provide 80 - 640 ppm active ingredient. * Not approved for this use in the state of California

*IN-CONTAINER PRESERVATIVE: ACTICIDE® CBM 2 is recommended as an in-container preservative for the control of bacteria and fungi in aqueous products such as aqueous emulsions and dispersions including stabilized oil/water emulsions, *surface preparation compounds, *foam control products, *nutrient solutions and *aqueous pesticides which includes, but is not limited to, insecticides, termiticides, fungicides, bactericides, algaeicides, herbicides, rodenticides (includes use as an in-container preservative for the control of bacteria and fungi in pesticide products for dilution applied to crops and for use in pesticide formulations for use on food contact surfaces at rates described for in-container preservative category). Add 0.05% - 0.4% (0.5 - 4.0 lbs. ACTICIDE® CBM 2 to 1000 lbs. of treated product to provide 80 - 640 ppm active ingredients. * Not approved for this use in the state of California

*HOUSEHOLD, CONSUMER, INDUSTRIAL, JANITORIAL PRODUCTS: For the control of bacteria and fungi in solids and liquid soaps, liquid and solid cleaners, liquid and solid detergents, liquid and solid laundry products, liquid and solid dishwashing detergents, waxes, polishes, liquid and solid fabric treatment/refresher products, liquid and solid air fresheners/deodorizers, car care products, and other similar cleaners. ACTICIDE® CBM 2 may also be used for the control of bacteria and fungi in package utility products such as pre-moistened sponges and mops. ACTICIDE® CBM 2 may also be used for the control of bacteria and fungi in solutions that are then put into/onto wet wipes for use in industrial, commercial, residential and household uses cited above. Wet wipes containing a solution preserved with this product may not be used for personal care, as baby wipes, or for food contact. ACTICIDE® CBM 2 is added at a level of 0.05% - 0.4% (0.5 - 4.0 lbs. ACTICIDE® CBM 2 to 1000 lbs. of product to be protected to provide 80 to 480 ppm of active ingredients. ACTICIDE® CBM 2 microbiocide may be added to those products formulated as concentrates which are in turn diluted for use at a level to ensure that the final use-dilution product will contain between 0.05% to 0.30% ACTICIDE® CBM 2 microbiocide. * Not approved for this use in the state of California
ACTICIDE® CBM 2
INFORMATION SHEET

THIS ACTICIDE® CBM 2 INFORMATION SHEET MUST ACCOMPANY EACH
SHIPMENT OF ACTICIDE® CBM 2

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

*PRESERVATIVE FOR METAL WORKING FLUIDS: ACTICIDE® CBM 2 microbiocide is recommended for the control of bacteria and fungi in aqueous metal working fluid solutions and emulsions. Add 1 -2 gallons per 1000 gallons of emulsion every 4 weeks for maintenance of a non-fouled system. For a noticeably fouled system use an initial dose of up to 4 gallons (35 lbs.) per 1000 gallons emulsion followed by subsequent maintenance dosage above. A higher dosage rate and/or increased frequency of treatment may be required depending upon the nature and severity of contamination, level of control required, filtration effectiveness, system design, etc. The preservative should be dispersed into the use dilution of the metal working fluid using a metering pump and uniformly dispersed throughout the system. * Not approved for this use in the state of California

*PRESERVATIVE FOR TEXTILES/CORDAGE PRODUCTS AND TEXTILE-TEXTILE-FIBERS MAKING: ACTICIDE® CBM 2 is recommended as a preservative for the control of bacteria and fungi in textiles and non-woven products (such as canvas, carpet, cordage, drapes, and shower curtains), in chemicals commonly used in the production of natural and synthetic fibers and fabrics (such as fiber lubricants, spin finishes, sizes, dyestuffs, textile printing inks, dispersants, thickeners, dye fixatives), and in textile coatings. 0.05% - 0.4% (0.5 - 4.0 lbs. ACTICIDE® CBM 2 to 1000 lbs. of fluid to provide 80 - 640 ppm of active ingredients. * Not approved for this use in the state of California
