Control of Spotted Wing Drosophila in Cherry

**Directions for Use**

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of application.
- Read the label affixed to the container for Entrust® Naturalyte® insect control before applying. Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label.
- Use of Entrust according to this supplemental labeling is subject to all use precautions and limitations imposed by the label affixed to the container for Entrust.

Refer to product label for Entrust for General Use Precautions, Mixing Directions, and Application Directions. Follow all use precautions and restrictions specified on the label.

**Application Timing:** Treat when pests appears and crop is becoming susceptible (e.g., around the blush or pink stage) to spotted wing drosophila (SWD). Fruits become more susceptible as harvest approaches. Later harvested cultivars are at greater risk from SWD.

**Application Rate:** Apply 1.5 to 2.5 oz of Entrust per acre as a foliar spray to control SWD. Use a higher rate in the rate range for or moderate to severe infestations. Heavy infestations may require repeat treatment, which follows the specific use restrictions, precautions, and resistance management requirements listed below.

**Specific Use Restrictions and Precautions:**

- **Preharvest Interval:** Do not apply within 3 days of harvest.
- Allow at least 7 days between applications.
- Do not apply more than 2.5 oz of Entrust (0.125 lb ai) per acre per application.
- Do not apply more than a total of 5 oz of Entrust (0.25 lb ai) per acre within 10 days of harvest.
- Do not apply more than a total of 9 oz of Entrust (0.45 lb ai) per acre per year.
- **Resistance Management:** Do not make more than three consecutive applications of Group 5 insecticides (spinetoram and spinosad) within a crop season.
- **Chemigation:** For use under this SLN label, do not apply this product through any type of irrigation system.
- This product is toxic to bees exposed to treatment for 3 hours following treatment. Do not apply this product to blooming cherries during the pollination period. Bee colonies used for pollination should be removed from the field being treated prior to the application. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area. Notify beekeepers pollinating crops within 1/4 mile of the field to be treated at least 48 hours prior to the application.
WA Aquatic Advisory
This pesticide is toxic to aquatic invertebrates. Entrust should not be used under this SLN label where impact on listed threatened or endangered species is likely. You may refer to the WSDA Endangered Species Program web site at http://agr.wa.gov/PestFert/NatResources/EndangSpecies.aspx, or contact the Washington Department of Fish & Wildlife, National Marine Fisheries Service (NOAA Fisheries) or US Fish & Wildlife Service for information regarding aquatic species listed as threatened or endangered. Consult the federal label for additional restrictions and precautions to protect aquatic organisms.

WSDA Container Disposal Guidance: Pesticide containers must be properly cleaned prior to disposal. The best time to clean empty pesticide containers is during mixing and loading because residue can be difficult to remove after it dries. Triple rinse (or pressure rinse) the pesticide container, empty all pesticide rinse water into the spray tank, and apply to a labeled crop or site. Recycling cleaned containers is the best method of container disposal. Information regarding the recycling of empty and cleaned plastic pesticide containers in Washington is available on the WSDA Waste Pesticide Program web site at http://agr.wa.gov/PestFert/Pesticides/WastePesticide.aspx. Cleaned containers may also be disposed of in a sanitary landfill if permitted by the county. Burning is not a legal method of container disposal in Washington.
