P-37 II INSECTICIDE CONCENTRATE

For use as an insecticide for the treatment of preconstruction lumber and logs, and for use on buildings/structures.

Active Ingredient
Permethrin* 36.8%
Other Ingredients** 63.2%
Total 100.0%

* cis/trans ratio: Max. 42% (cis) and min. 58% (trans)
** Contains petroleum distillates.

Contains 3.2 pounds permethrin per gallon as an emulsifiable concentrate.

KEEP OUT OF REACH OF CHILDREN CAUTION

FIRST AID

IF SWALLOWED:
- Immediately call a poison control center or doctor.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give any liquid to the person.
- Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING:
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

IF IN EYES:
- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

IF INHALED:
- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth to mouth if possible.
- Call a poison control center or doctor for further treatment advice.

In case of emergency, call 1-800-654-6911. FOR CHEMICAL EMERGENCY: Spill, leak, fire, exposure, or accident, call CHEMTREC 1-800-424-9300.

NOTE TO PHYSICIAN: Contains petroleum distillates — vomition may cause aspiration pneumonia.

Net Contents: 55 US Gallons
EPA Reg. No. 70506-6-62190
EPA Est. 37429-GA-01
Manufactured for: Arch Wood Protection, Inc.
P.O. Box 724438, Atlanta, GA 31339-1438
ACEAN 24-hr. Eng. Resp. 1-800-654-0011

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. States may have more restrictive requirements regarding qualifications of persons using this product. Consult your State Pest Control Regulatory Agency prior to use of this product.

GENERAL USE INFORMATION

This product is toxic to fish. Exercise care when making applications near ponds, lakes, streams, reservoirs and other aquatic environments where fish are present. For advice concerning current control practices with relation to specific local conditions, consult your local State Cooperative Extension or regulatory agencies. P-37 II Insecticide Concentrate is formulated as an emulsifiable concentrate (EC) formulation and is to be diluted with water and applied as an emulsion. When tank mixing as an emulsion with other products, observe all precautions and limitations on the labels of each product in the mixture. P-37 II Insecticide Concentrate can be tank-mixed with pyrethrin-containing products or Insect Growth Regulators (IGRs). Do not tank mix dichlorvos (DDVP) or other fumigant products.

TREATMENT OF PRECONSTRUCTION LUMBER AND LOGS

General Information

P-37 II Insecticide Concentrate must be diluted. To prepare the spray, dilute P-37 II Insecticide Concentrate as shown in the following sprayer dilution chart:

Directions for Application

To protect unsawn lumber and logs from wood destroying insects, such as Termite, Carpenter Ants and Beetles (Ambrosia, Powder-post, Old house borers and others), totally treat wood with a 0.5% to 1.0% solution of P-37 II Insecticide Concentrate. This solution can be applied by various methods including spraying, brushing, dipping, and pressure treatment. Frequent monitoring of dip and pressure systems are necessary to insure that the desired level of P-37 II Insecticide Concentrate is maintained. Wood can be handled after treatment when dry.

1. For dip treatments, totally submerge the wood in the solution until thoroughly wet and then allow to dry in a suitable location. Agitate dipping solutions to which P-37 II Insecticide Concentrate has been added before use if left unused for long periods of time. Periodically clean sediment, debris and other deposits from the tank.
2. For pressure treatments the wood must be placed in the treatment chamber, the P-37 II Insecticide Concentrate solution added and the system pressurized up to 250 psi for up to one hour depending on the density and type of wood treated. After the pressure is released and the system drained, the wood should be placed in a suitable location for drying.
3. For spray treatments, spray the wood thoroughly including back and ends.
4. For brush treatments, thoroughly treat all parts of wood surfaces.

STORAGE AND DISPOSAL

PESTICIDE STORAGE: Store at temperatures above 40°F [5°C]. Shake container well before using. If crystals form, warm to room temperature by placing container in a room at ambient temperature 70°F [23°C] until crystals dissolve. Do not use or store near heat, open flame or hot surfaces. Keep out of reach of children and animals. Store in a dry place and avoid excess heat in storage. Store in original containers only. Carefully open containers. After partial use, replace lids and close tightly. Do not put concentrate or dilute material into food or drink containers. Do not contaminate other pesticides, fertilizers, water, food, or feed by storage or disposal. In case of spill, avoid contact, isolate area and keep area well ventilated. Wipe up spill or spillover with undamaged paper towel, then discard in accordance with local regulations. If spill material, cover to prevent dispersal. Place damaged package in a holding container. Identify contents.

PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or residue is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Once cleaned, some agricultural plastic pesticide containers can be taken to a container collection site or picked up for recycling. To find the nearest site, contact your chemical dealer or manufacturer, or contact the Ag Container Recycling Council at www.acrcouncil.org. Triple rinse container promptly after emptying. If recycling is not available, puncture and dispose of in a sanitary landfill or incinerator or if allowed by state and local authorities by burning. If burned stay out of smoke. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container is full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Empty the rinse into application equipment or a mix tank or store rinse for later use or disposal. Repeat this procedure two more times.

ATTENTION: Do not apply to sources of electricity. Do not use concentrate or emulsion in fogging equipment. Firewood is not to be used. Use only in well ventilated areas. Do not allow spray to contact food, foodstuffs, food contacting surfaces, food utensils or water supplies. Do not use in aircraft tanks. For use in cargo areas only. Do not touch treated surface until dry. Dealers Must Sell In Original Packages Only.
