Supplemental Label

For enhanced burndown weed control in soybean

Active Ingredient:
saflufenacil: N-[2-chloro-4-fluoro-5-(3-methyl-2,6-dioxo-4-(trifluoromethyl)-3,6-dihydro-1(2H)-pyrimidinyl)benzoyl]-N-isopropyl-N-methylsulfamide................................................................. 29.74%
Other Ingredients................................................................................................................................... 70.26%
Total: ................................................................................................................................................... 100.00%
Contains 2.85 pounds active ingredient saflufenacil per gallon formulated as a water-based suspension concentrate.

EPA Reg. No. 7969-278

Directions For Use

Refer to the Sharpen™ herbicide main label, EPA Reg. No. 7969-278, for complete Directions For Use and all applicable restrictions and precautions. When following the instructions on this supplemental label, the user must have this label and the entire Sharpen container label in possession at the time of pesticide application.

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Enhanced Burndown

Apply Sharpen preplant surface through preemergence at 1.5 fl ozs/A for enhanced burndown broadleaf weed control prior to crop emergence.

Soybean Planting Interval

Dependent on soil texture and organic matter, an interval between Sharpen application and planting may be required (see chart below). These intervals must be observed prior to planting soybean or crop injury may occur.

<table>

The Chemical Company
Crop-specific Restrictions and Limitations

- DO NOT apply more than a maximum cumulative amount of 4.0 fl ozs/A of Sharpen™ herbicide (0.089 lb ai/A of saflufenacil) per cropping season. Sequential applications MUST be separated by at least 30 days.

- DO NOT apply more than a maximum cumulative amount of 0.089 lb ai/A of saflufenacil per cropping season in soybean from all product sources.

- DO NOT apply when soybean has reached the cracking stage or after emergence or severe crop injury will occur.

- DO NOT apply Sharpen with other products containing Group 14/Group E herbicides (such as sulfentrazone or flumioxazin) as a tank mix or sequential application within 30 days of planting because crop injury may result. Group 14/Group E herbicides labeled for postemergence applications in soybean may be used 14 days after soybean emergence.

- DO NOT apply Sharpen within 30 days of planting where an at-planting application of an organophosphate or carbamate insecticide(s) is planned and/or has occurred because severe injury may result.

- Ensure that the seed row is sufficiently covered with soil to avoid washing and concentration of the herbicide in the seed zone.

- Always use the most restrictive preplant interval of all inclusive herbicides when applying Sharpen as part of a tank mix.

- Soybean forage may be fed or grazed 65 or more days after application.

- Refer to Table 4 on the product container label for rotational crop intervals.

Tank Mixtures

Broad-spectrum burndown control of grasses and/or additional broadleaf weeds will usually require a tank mix with a herbicide such as glyphosate. Sharpen may be tank mixed with or applied sequentially with one or more of, but not limited to, the following herbicide products:

- Clarity™ herbicide
- Extremo™ herbicide
- Prowl® H2O herbicide
- Pursuit® herbicide
- Scepter® herbicide
- glyphosate (e.g. Roundup®)-herbicide
Conditions of Sale and Warranty

The Directions For Use of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and must be followed carefully. However, it is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or use of the product in a manner inconsistent with its labeling, all of which are beyond the control of BASF CORPORATION ("BASF") or the Seller. To the extent consistent with applicable law, all such risks shall be assumed by the Buyer.

BASF warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions For Use, subject to the inherent risks, referred to above.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY OR ANY OTHER EXPRESS OR IMPLIED WARRANTY.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BUYER'S EXCLUSIVE REMEDY AND BASF'S EXCLUSIVE LIABILITY, WHETHER IN CONTRACT, TORT, NEGLIGENCE, STRICT LIABILITY, OR OTHERWISE, SHALL BE LIMITED TO REPAYMENT OF THE PURCHASE PRICE OF THE PRODUCT.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF AND THE SELLER DISCLAIM ANY LIABILITY FOR CONSEQUENTIAL, EXEMPLARY, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT.

BASF and the Seller offer this product, and the Buyer and User accept it, subject to the foregoing Conditions of Sale and Warranty which may be varied only by agreement in writing signed by a duly authorized representative of BASF.
