If in eyes:
Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Hotline Number: Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For emergency information concerning this product, call the hotline number 1-800-255-3924.

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION
Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

Personal Protective Equipment (PPE) Requirements:
• Long-sleeved shirts and long pants; and shoes plus socks.
• Follow manufacturer’s instructions for maintaining PPE.
• If no such instructions for washables, use detergent and hot water.
• Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS
• Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
• Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
• Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS:
This product is toxic to aquatic invertebrates. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwater or rinsate.

FIRST AID
If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Peas, lettuce, rhubarb, spinach, Swiss chard, turnip greens and watercress.

**Leafy Vegetables (except Brassicas) and leaves of root and tuber and legume vegetables**

- Arugula, beets, celery, peas, lettuce, rhubarb, spinach, Swiss chard, turnip greens and watercress.

**Cole Crops**

- Broccoli, broccoli raab, Brussels sprouts, cabbage, cauliflower, Brussels sprouts, Chinese cabbage (bok choy), Chinese cabbage (napa), Chinese mustard cabbage (gai choy), collards, kale, kohlrabi

**Legume Vegetables**

- Succulent and dried beans and peas

**Cucurbit Vegetables**

- Cucumber, edible gourds, melons, muskmelons, cantaloupe, honeydew, pumpkin, summer squash, watermelon, and winter squash

**Fruiting Vegetables**

- Eggplant, groundcherry, pepino, pepper (except black), tomatillo, tomato, and okra

**Non-agricultural use requirements**

- The requirements in this box apply to uses of this product that are not within the scope of the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water:
  - Coveralls
  - Waterproof gloves
  - Shoes plus socks

**Commercial Agriculture**

- Scattered on the ground around or near the plants to be protected. For broadcast application, use standard broadcast spreaders. For row application, use standard granular spreaders. Apply the higher rates if the infestation is severe or if the area is heavily watered or after long periods of heavy rain. Reapply as the bait is consumed or at least every 2-4 weeks. Do not apply more than 3 times in any 30 day period.

- Do not place in piles. The product works best when soil is moist but with little or no standing water. See specific directions for different use sites.

**Pests Controlled**

- Earwigs, cutworm, sowbugs, pillbugs, slugs, snails

**Application rate reference table**

<table>
<thead>
<tr>
<th>Application Rate of Bug-N-Sluggo</th>
<th>Spinosad Equivalent (lb ai/acre)</th>
</tr>
</thead>
<tbody>
<tr>

</table>

**Use sites**

- **Vegetables**
  - Scatter the bait around the perimeter of the field or greenhouse vegetable plantings at the rate of 20-44 lbs per acre (0.5-1 lb per 1,000 square feet) to provide a protective "barrier" for pests entering the vegetable plantings. If pests are inside the rows, then scatter the bait on the soil around the plants and between the rows.

- **Artichoke**
  - Do not apply within 2 days of harvest. Do not make applications less than 7 days apart. Do not make more than 4 applications per crop. Do not apply more than a total of 0.33 lb ai spinosad (including foliar uses) per crop.

- **Asparagus**
  - For post harvest protection of ferns only. Do not apply within 60 days of spear harvest. Do not make applications less than 4 days apart. Do not make more than 3 applications per crop. Do not apply more than a total of 0.28 lb ai spinosad per acre per season. Do not feed treated ferns to meat or dairy animals.

- **Root and Tuber Vegetables**
  - Do not apply within 7 days of harvest. Do not make applications less than 7 days apart. Do not make more than 4 applications per crop. Do not apply more than a total of 0.33 lb ai spinosad (including foliar uses) per crop.

- **Potatoes, ginger, sweet potatoes, yams**
  - Do not apply within 7 days of harvest. Do not make applications less than 7 days apart. Do not make more than 4 applications per crop.

- **Carrots and Parsnips**
  - Do not apply within 3 days of harvest. Do not make applications less than 7 days apart. Do not make more than 4 applications per crop. Do not apply more than a total of 0.33 lb ai spinosad (including foliar uses) per acre per crop.

- **Beans and Sugar Beets**
  - Do not apply within 3 days of harvest. Do not make applications less than 7 days apart. Do not make more than 4 applications per crop. Do not apply more than a total of 0.33 lb ai spinosad (including foliar uses) per crop.

- **Butternut, acorn, and navy squash**
  - Do not apply within one day of harvest. Do not make applications less than 4 days apart. Do not apply more than a total of 0.45 lb ai spinosad (including foliar and seed uses) per acre per crop. Do not make more than 5 applications per year.

- **Tomato, tomatoes, pepper, groundcherry**
  - Do not apply within 2 days of harvest. Do not make applications less than 7 days apart. Do not make more than 4 applications per crop. Do not apply more than a total of 0.33 lb ai spinosad (including foliar uses) per crop.

- **Melons, muskmelons**
  - Do not apply within 2 days of harvest. Do not make applications less than 7 days apart. Do not apply more than a total of 0.45 lb ai spinosad (including foliar uses) per acre per crop. Do not make more than 5 applications per year.

- **Okra**
  - Do not apply within 1 day of harvest. Do not apply within 2 days of harvest. Do not apply more than a total of 0.45 lb ai spinosad (including foliar uses) per acre per crop. Do not make more than 5 applications per year.

- **Dry squash**
  - Do not apply within 1 day of harvest. Do not apply within 2 days of harvest. Do not apply more than a total of 0.45 lb ai spinosad (including foliar uses) per acre per crop. Do not make more than 5 applications per year.

- **Winter squash**
  - Do not apply within 1 day of harvest. Do not apply within 2 days of harvest. Do not apply more than a total of 0.45 lb ai spinosad (including foliar uses) per acre per crop. Do not make more than 5 applications per year.

- **Garlic, shallots,Welch onion, leek, scallions**
  - Do not apply within 1 day of harvest. Do not apply within 2 days of harvest. Do not apply more than a total of 0.45 lb ai spinosad (including foliar uses) per acre per crop. Do not make more than 5 applications per year.

- **Dry beans and peas**
  - Do not apply within 28 days of harvest. Do not make more than 6 applications per season. Do not apply more than a total of 0.45 lb ai spinosad (including foliar uses) per acre per season. Dried beans and peas: do not apply within 3 days of harvest. Do not apply more than a total of 0.188 lb ai spinosad per acre per season.

- **Soybeans**
  - Do not apply within 28 days of harvest. Do not make applications less than 4 days apart. Do not make more than 4 applications per calendar year. Do not apply more than a total of 0.188 lb ai spinosad (including foliar uses) per acre per season. Do not feed treated forage or hay to meat or dairy animals.
STONE FRUITS

cherries, plums, prunes
Do not apply within 7 days of harvest. Do not make applications less than 7 days apart. Do not apply more than a total of 0.45 lb ai spinosad (including foliar uses) per acre per year.

peaches, nectarines, apricots
Do not apply within 14 days of harvest for apricots or within 1 day of harvest for nectarines and peaches. Do not make applications less than 7 days apart. Do not apply more than a total of 0.45 lb ai spinosad (including foliar uses) per acre per year.

FRUITS INCLUDING CITRUS, AND SMALL FRUITS

Apply at 0.15 oz., or 1 level teaspoon, per square yard, in a 6 inch circular band around the base of the plants to be protected in the field or greenhouse. For older trees, spread the bait around the base of the trees to intercept pests traveling to the trunk. Apply the bait at 20-44 lbs. per acre (0.5-1 lb per 1,000 square feet) in orchards, using standard fertilizer granular spreaders. For seedlings spread the bait around the base of the stem. Use the higher rates for heavy infestations.

Banana and plantain
Do not apply within 6 weeks of harvest. Do not make applications less than 7 days apart. Do not make more than 4 applications per calendar year. Do not apply more than a total of 0.45 lb ai spinosad (including foliar uses) per acre per year.

Fig
Do not apply within 7 days of harvest. Do not make applications less than 7 days apart. Do not make more than 4 applications per calendar year. Do not apply more than a total of 0.45 lb ai spinosad per acre per crop.

Grape
Do not apply within 7 days of harvest. Do not make applications less than 5 days apart. Do not make more than 5 applications per calendar year. Do not apply more than a total of 0.45 lb ai spinosad per acre per season east of the Rocky Mountains, and no more than 0.36 lb ai spinosad per acre per season west of the Rocky Mountains.

Tropical tree fruits
Do not apply within one day of harvest. Do not make applications less than 7 days apart. Do not make more than 4 applications per calendar year. Do not apply more than a total of 0.45 lb ai spinosad (including foliar uses) per acre per crop.

CITRUS FRUITS

grapefruit, lemons, limes, oranges, tangerines
Do not apply within one day of harvest. Do not make applications less than 7 days apart. Do not make more than 3 applications per calendar year. Do not apply more than a total of 0.45 lb ai spinosad (including foliar uses) per acre per crop.

POMEFRUITS

apples, crabapples, loquat, mayhaw, pears, quince
Do not apply within 7 days of harvest. Do not make applications less than 10 days apart. Do not apply more than 4 applications per calendar year. Do not apply more than a total of 0.45 lb ai spinosad (including foliar uses) per acre per crop.

HERBS

angelica, balm, basil, borage, burnet, chamomile, catnip, chervil (dried), chive, clary, costmary, cilantro, curry, dillweed, horshound, hyssop, lavender, lemongrass, lovage, mignonette, marjoram, nasturtium, parsley, pennyroyal, rosemary, rue, sage, savory, sweet bay, tansy, tarragon, thyme, wintergreen, woodruff and wormwood
Do not apply within one day of harvest. Do not make applications less than 7 days apart. Do not apply more than a total of 0.45 lb ai spinosad (including foliar uses) per acre per crop.
Peppermint and spearmint
Do not apply within 7 days of harvest. Do not make applications less than 4 days apart. Do not make more than 4 applications per calendar year or more than 3 applications per crop. Do not apply more than a total of 0.45lb ai spinosad (including foliar uses) per acre per crop.

GRASS FORAGE, FODDER, HAY AND CEREAL GRAINS
When pests are detected, scatter the bait by hand or with a granular spreader at a rate of approximately 0.23 to 1 lb. per 1000 square feet (10-44 lbs. per acre). Use the higher rate for heavy infestations.
Small Cereal Grains
barley, buckwheat, grain amaranth, milo, oats, pearl millet, proso millet, rye, sorghum, triticale, wheat
Do not use within 3 days of harvest for forage, fodder or hay. Do not apply within 21 days of harvest for grain or straw. Do not make applications less than 4 days apart. Do not make more than 3 applications per calendar year. Do not apply more than a total of 0.28lb ai spinosad (including foliar uses) per acre per year.

Grass Forage, Fodder, Hay
Grass crops, grass grown for pastures and rangeland
Do not use within 3 days of harvest for hay or fodder. No preharvest interval for forage. Do not make more than 6 applications per season. Do not apply more than a total of 0.186lb ai spinosad per acre per season.

GRASS GROWN FOR SEED PRODUCTION
When pests are detected, scatter the bait by hand or with a granular spreader at a rate of approximately 0.23 to 1 lb. per 1000 square feet (10-44 lbs. per acre). Use the higher rate for heavy infestations. Do not make more than 6 applications per season. Do not apply more than a total of 0.186lb ai spinosad per acre per season.

OUTDOOR ORNAMENTALS
Scatter bait in a 6 inch circular band around the base of the plants to be protected at 0.15 oz., or 1 level teaspoon, per square yard. If plants are next to a grassy area, spread the bait between the ornamentals and the grass. Pests traveling to the plants will encounter the bait before reaching the plant. In these situations, scatter the bait around the perimeter of the plot at 1 lb. per 1000 square feet to intercept pests traveling to the plot. Do not make applications less than 7 days apart. Do not apply more than a total of 0.45lb ai spinosad (including foliar uses) per acre per year.

GREENHOUSE ORNAMENTALS
Where insects, slugs or snails are a problem in greenhouses, scatter the bait in the plant pots of plants being damaged or around pots on greenhouse benches. Apply about ½ teaspoon per 9 inch pot. Do not make applications less than 7 days apart. Do not apply more than a total of 0.45lb ai spinosad (including foliar uses) per acre per year. Do not apply more than 10 times in 12 months.

TREE FARMS AND PLANTATIONS
Use the bait on tree farms and plantations. Spread the bait at a rate of 0.5 to 1 lb. per 1000 square feet (20-44 lbs. per acre). Use the higher rate for heavy infestations. Do not apply more than a total of 0.45lb ai spinosad (including foliar uses) per acre per year.

OUTDOOR CONTAINER-GROWN NURSERY PLANTS
Where pests are a problem in outdoor nurseries, scatter the bait in the plant containers at the rate of 1 tablespoon per container of plants being damaged, or scatter around the soil near the containers at the rate of 1 teaspoon per square yard (24-44 lbs. per acre). Do not make applications less than 7 days apart. Do not apply more than a total of 0.45lb ai spinosad (including foliar uses) per acre per year.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.
PESTICIDE STORAGE: Store this product in its original container and keep in a secure storage area out of reach of children and domestic animals.
PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.
CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. Completely empty metal drum, plastic bag, box or plastic tote into application equipment. Then dispose of empty metal drum, plastic bag, box or plastic tote in a sanitary landfill, or by incineration, or if allowed by State and local authorities, by burning. If burned, stay out of smoke.

WARRANTY
To the extent consistent with applicable law, the seller warrants that this product conforms to the chemical description on this label and is reasonably fit for purposes stated on this label only when used in accordance with the directions for use. This warranty does not extend to use of this product contrary to label directions, or under abnormal use conditions, or under conditions not reasonably foreseeable to seller. To the extent consistent with applicable law, seller makes no other warranties, either expressed or implied.
