CLOROX® Broad Spectrum

Quaternary Disinfectant Cleaner

BLEACH-FREE

ACTIVE INGREDIENTS:
n-Alkyl (60% C14, 38% C16, 5% C12, 5% C18)
dimethyl benzyl ammonium chlorides ................. 0.105%
n-Alkyl (68% C12, 32% C14)
dimethyl ethylbenzyl ammonium chlorides ............. 0.105%
OTHER INGREDIENTS: ........................................ 99.790%
TOTAL: ................................................................ 100.000%

2 MIN. CONTACT TIME:
E. faecium
S. aureus
K. pneumoniae
A. baumannii
P. aeruginosa
E. aerogenes

KEEP OUT OF REACH OF CHILDREN.
CAUTION: EYE IRRITANT.
USE ONLY IN WELL-VENTILATED AREAS.
SEE BACK LABEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS.

1 QT (32 FL OZ) 946 mL

EPA Reg. No. 67619-20 Clorox Broad Spectrum Quaternary Disinfectant Cleaner (32 oz)
Fast Effective • Unscented

- Ready-to-use cleaner and disinfectant
- Kills Hepatitis B virus, Hepatitis C virus, HIV-1, MRSA, VRE and TB
- Removes odors • Powers through tough messes

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DISINFECTION: To clean and disinfect hard, nonporous surfaces: Spray 6–8 inches from surface until surface is thoroughly wet. Let stand for contact time listed on label. Wipe excess. Allow to air dry. Rinse with potable water for food-contact surfaces. For all others, no rinsing is required. Gross filth should be removed prior to disinfecting. MOLD AND MILDEW: To control mold and mildew: Apply to precleaned hard, nonporous, inanimate surfaces. Allow to air dry. Repeat application weekly or when growth reappears.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

CAUTION: Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling. Avoid contact with foods. FIRST AID: If in eyes: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

STORAGE AND DISPOSAL: Do not reuse or refill this container except as described in the directions for use. Refill only with this product. Recycle empty container or discard in trash. Contains no phosphorus.

Special Instructions for Use Against HIV-1, HBV and HCV:

This product kills HIV-1, HBV and HCV on precleaned environmental surfaces/objects previously soiled with blood/body fluids in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus (HIV-1) (associated with AIDS), Human Hepatitis B (HBV) and Human Hepatitis C (HCV).

Special instructions for using this product to clean and decontaminate against HIV-1, HBV and HCV on surfaces/objects soiled with blood/body fluids: Personal Protection: When handling items soiled with blood or body fluids, use disposable impervious gloves, gowns, masks and eye coverings. Cleaning Procedure: Blood and other body fluids must be thoroughly cleaned from surfaces and other objects before applying this product. Contact Time: Allow surface to remain wet for HBV, HCV and HIV-1 for 1 minute. These contact times will not control other common types of viruses and bacteria. Disposal of Infectious Materials: Use disposable impervious gloves, gowns, masks and eye coverings. Blood and other body fluids must be autoclaved and disposed of according to local regulations for infectious waste disposal. This product is not to be used as a terminal sterilant/high-level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes, but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semicritical medical devices prior to sterilization or high-level disinfection.

Use Sites:

Operating rooms
Radiology areas
Public areas
Emergency rooms
Pediatric areas
Dialysis facilities
ICU areas
Nurses’ stations
Laboratories
Patient rooms
Long term care facilities
Physicians’ offices

Medical Surfaces:

Bedrails
Commodes
Bedside tables
Blood pressure monitors
Carts
Chairs
Coated mattresses
Computer peripherals
Counters
Dialysis machines
Gluometers
Mobile devices
Mattress covers
Stretchers
Walls
Wheelchairs

Surfaces:

This product is formulated to disinfect hard, nonporous, inanimate environmental surfaces:

Enamel
Chrome
Formica
Glass
Glazed ceramic
Glazed porcelain
Laminated surfaces
Plastic surfaces
Stainless steel

For plastic and painted surfaces, spot test on an inconspicuous area before use.
Using approved AOAC test methods (under Good Laboratory Practices) in the presence of 5% blood serum, unless otherwise noted, this product kills the following organisms on hard, nonporous, inanimate surfaces:

**ORGANISMS**

**BACTERIA: 2-minute contact time:**
- Acinetobacter baumannii
- Acinetobacter calcoaceticus
- Bordetella bronchiseptica
- Burkholderia cepacia
- Citrobacter freundii
- Corynebacterium ammoniagenes
- Enterobacter aerogenes
- Enterobacter cloacae
- Enterococcus faecalis
- VRE
- Enterococcus faecium
- Enterococcus hirae
- Escherichia coli
- Escherichia coli resistant to tetracycline
- Escherichia coli with ESBL (Extended Spectrum Beta Lactamase) resistance
- Escherichia coli O157:H7
- Flavobacterium
- Haemophilus influenzae
- Haemophilus alvei
- Klebsiella oxytoca resistant to ampicillin
- Klebsiella oxytoca
- Klebsiella pneumoniae
- Legionella pneumophila
- Listeria monocytogenes
- Micrococcus luteus
- Kyococcus sedentarius
- Pasteurella multocida
- Proteus mirabilis
- Proteus vulgaris
- Pseudomonas (Brevundimonas) diminuta
- Pseudomonas aeruginosa
- Pseudomonas fluorescens
- Pseudomonas putida
- Pseudomonas stutzeri
- Salmonella enterica
- Salmonella enteritidis
- Salmonella gallinarum
- Salmonella paratyphi B
- Salmonella pullorum
- Salmonella typhi
- Salmonella typhimurium
- Serratia liquefaciens
- Serratia marcescens
- Shigella dysenteriae
- Shigella flexneri serotype 1B
- Shigella sonnei
- Staphylococcus aureus
- MRSA
- CA-MRSA
- Staphylococcus aureus resistant to erythromycin, penicillin, tetracycline
- Staphylococcus aureus resistant to vancomycin
- Staphylococcus aureus toxic shock toxin (TS)
- Staphylococcus epidermidis resistant to methicillin
- Staphylococcus haemolyticus
- Streptococcus agalactiae
- Streptococcus mutans
- Streptococcus pneumoniae resistant to penicillin
- Streptococcus pyogenes (group A)
- Xanthomonas maltophilia
- Yersinia enterocolitica

**Tuberculocidal Activity: 5-minute contact time:** Mycobacterium bovis (BCG)

**VIRUSES: 30-second contact time:**
- Rabies virus
- Feline Calicivirus (Norovirus (Norwalk) virus surrogate)

**VIRUSES: 1-minute contact time:**
- Avian Influenza A (H5N1) on precleaned environmental surfaces
- Duck hepatitis B virus (Human hepatitis B surrogate)

**VIRUSES: 2-minute contact time:**
- Avian infectious bronchitis
- Cytomegalovirus
- Feline viral rhinotracheitis
- Herpes simplex virus type 1
- Herpes simplex virus type 2
- Human Coronavirus
- Infectious bovine rhinotracheitis virus
- Influenza A virus
- Newcastle disease virus

**Bovine Viral Diarrhoea virus** (Hepatitis C surrogate)
**Human Immunodeficiency Virus type 1**
Fast Effective • Unscented
- Ready-to-use cleaner and disinfectant
- Kills Hepatitis B Virus, Hepatitis C Virus, HIV-1, MRSA, VRE and TB
- Removes odors • Powers through tough messes

1 GALLON (128 FL OZ) 3.78 L
DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DISINFECTION: TO CLEAN AND DISINFECT HARD, NONPOROUS SURFACES: Spray 6-8 inches from surface until surface is thoroughly wet. Let stand for contact time listed on label. Wipe excess. Allow to air dry. Rinse with potable water for food-contact surfaces. For all others, no rinsing is required. Gross soiling should be removed prior to disinfecting.

MOLD AND MILDEW: To control mold and mildew: Apply to pre-cleaned hard, nonporous, inanimate surfaces. Allow to air dry. Repeat application weekly or when growth reappears.

Special Instructions for Use Against HIV-1, HBV and HCV: This product kills HIV-1, HBV and HCV on presoaked environmental surfaces/objects previously contaminated with blood/ or body fluids, in which the surface/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus (HIV-1) (associated with AIDS), Human Hepatitis B (HBV) and Human Hepatitis C (HCV).

Special Instructions for using this product to clean and disinfect against HIV-1, HBV and HCV on surfaces/objects soiled with blood/body fluids: Personal Protection: When handling items soiled with blood or body fluids, use disposable impermeable gloves, gowns, masks and eye coverings. Cleaning Procedure: Blood and other body fluids must be thoroughly cleaned from surfaces and other objects before applying this product.

Contact Time: Allow surface to remain wet for HBV and HIV-1 for 1 minute. For plastic and painted surfaces, spot test on an inconspicuous area before use. For all other surfaces, allow to air dry. Using approved ADAC test methods (under Good Laboratory Practice) in the presence of 5% blood serum, unless otherwise noted, this product kills the following organisms on hard, nonporous, inanimate surfaces:

ORGANISMS

BACTERIA: 2-minute contact time:
- Aerococcus viridans
- Enterococcus faecalis
- Escherichia coli
- Haemophilus influenzae
- Klebsiella oxytoca
- Listeria monocytogenes
- Proteus mirabilis
- Salmonella typhimurium
- Yersinia enteroxolita

For plastic and painted surfaces, spot test on an inconspicuous area before use.
