RECOMMENDED BAIT STRIP PLACEMENT LOCATIONS
1. Ants* find the bait strips and eat the bait.
2. Ants* carry the bait back to the colony so that it kills the queen and other ants in the colony.

HOW COMBAT® ANT KILLING BAIT STRIPS WORK:
1. Ants find the bait strips and eat the bait.
2. Ants carry the bait back to the colony so that it kills the queen and other ants in the colony.

DIRECTIONS FOR USE:
To ensure a successful baiting program, the bait product is designed to be used in a manner consistent with its labeling. Place bait strips in areas ants frequent and not on smooth or Tattoos were you just applied. Do not apply bait strips on treated food preparation surfaces. For indoor and outdoor use (adjacent to the home).

1. Break strip apart.
2. Place strips in a chosen location indoors or outdoors a minimum to the floor, and of production errors on the bottom of the strip (remove to adhere). To activate strip, peel off the protective film on top of the strip marked "Peel Here".
3. Stick the strip to a clean surface. Place near ant trails or where ants may enter your home. USE ALL BAIT STRIPS AS A COLLECTION. To activate strip, peel off the protective film on top of the strip marked "Peel Here".
