**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**DANGER. CORROSIVE**: Causes severe eye damage and skin burns. Harmful if swallowed, absorbed through skin or inhaled. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash before reuse.

**FIRST AID**

- **IF ON SKIN OR CLOTHING**: Take off contaminated clothing. Wash skin with plenty of water for 15-20 minutes. If eyes are contaminated, immediately wash with water for 15-20 minutes. If swallowed or inhaled, get medical attention immediately.
- **IF IN EYES**: Hold eyes open and rinse slowly with running water for 15-20 minutes. If present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
- **IF SWALLOWED**: Call a poison control center or doctor for treatment advice. Do not induce vomiting unless told to do so by a poison control center or doctor. Mouth to an unconscious person.
- **IN CASE OF EMERGENCY CALL TOLL FREE**: 1-866-216-4

**NOTE TO PHYSICIAN**: Probable mucosal damage may be needed.

**PHYSICAL AND CHEMICAL HAZARDS**

**CONDUCTIVE**

This product has been tested by Lee Patterson as NFPA Standard No. 56A, published by the Nat. Fire Protection Association, for conductivity on conductive flooring. The method used conforms to the specifications known as NFPA Standard No. 56A.

**HOSPITAL USE DIRECTIONS**

1. To clean, disinfect, and deodorize floors, walls, and other non-porous environmental surfaces: Use 1 oz. of this product per gallon of water. (1:128). Apply with cloth, sponge, mop, mechanical spray device, making sure all surfaces are wetted thoroughly. Allow surfaces to remain wet for 10 minutes. For heavily soiled areas a preliminary cleaning is required. Remove gross soil and proceed per General Use Directions.

2. When completed rinse with clear water.

3. This product is an effective tuberculocide against Mycobacterium bovis in 10 minutes at 80°C when used on hard, non-porous inanimate environmental surfaces. Follow above directions, including removal of gross film or heavy soil prior to application of this product.

4. KILLS HIV ON PRECLEANED ENVIRONMENTAL SURFACES OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in 10 minutes at 80°C when used on hard, non-porous inanimate environmental surfaces. Follow above directions, including removal of gross film or heavy soil prior to application of this product.

**SPECIAL INSTRUCTIONS**

For Cleaning And Decontamination Against HIV Of Surfaces/Objects Soiled With Blood/Body Fluids:

**Personal Protection**: When handling items soiled with blood or body fluid, use protective equipment such as disposable rubber gloves, gowns, masks or eye coverings. Cleaning Procedures: Blood and body fluids must be thoroughly cleaned from surfaces and objects before application of this disinfected. Contact Time: To kill HIV (AIDS virus) a contact time of 10 minutes at room temperature must be allowed. Disposal Of Infectious Materials: Blood and body fluids should be autoclaved and disposed of according to local regulations for infectious waste disposal.

This product is not to be used as a terminal sterilant. High-level disinfectant on any surface or instrument that is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection.

**GENERAL USE DIRECTIONS**

This product is effective against all organisms tested at 500 ppm water hardness and 5% blood serum. NOTE: This product is also effective against a number of organisms (identified in the left panel) under more stringent conditions of 1,000 ppm water hardness and 10% blood serum.

1. To clean, disinfect and deodorize walls, floors, tables, restroom fixtures, drinking fountains, sinks, stoves, garbage cans, refrigerators, sitting benches, and other hard, non-porous environmental surfaces: Remove gross film and heavy soil with a preliminary cleaning step prior to application of this product. Apply solution of 1 oz. of this product per gallon of water (1:128) with a sponge, mop, mechanical spray device or framing apparatus, making sure that all surfaces are wetted thoroughly. Allow surfaces to remain wet for 10 minutes.

2. To clean and disinfect such articles as combs, brushes, razors, scissors, and rubber goods: Wipe articles clean and soak for 10 minutes in a solution containing 1 oz. of this product per gallon of water (1:128).

3. To disinfect such articles as sheets, towels, aprons and uniforms: First time to remove gross film or heavy soil, then soak for 10 minutes in a solution containing 1 oz. of this product per gallon of water (1:128).

4. To clean gross film or heavy soil on environmental surfaces prior to disinfection, use 1 oz. of this product per gallon of water (1:128).

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

General Precautions and Restrictions:
Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only trained handlers may be in the area during application. Following application as a fog or mist pressure spray, do not enter or allow others to enter the treated area until sprays have dried. Thoroughly ventilate entire closed area after fogging applications. Do not enter, allow other persons to enter, house livestock, or use equipment in the treated area until ventilation is complete and any liquid has been absorbed, set, or dried. For entry into fogged areas before ventilation is complete and the fog has been completely dissipated, all persons must wear the PPE, including a full-face respirator, required in the Precautionary Statement Section of this labeling for applicators and other handlers.

General Information:
Test data tests required by the U.S. Environmental Protection Agency for this product is done in compliance with the FDA and EPA Good Laboratory Practice Regulations.
Proven effective as a disinfectant by the following test: A.O.A.C. (use dilution test method) in accordance with the 14th Edition 1984. The following organisms tested at 1,000 ppm water hardness as calcium carbonate and 10% blood serum as organic soil:

- **Mycobacterium bovis (BCG) ATCC #35749** A.O.A.C. Tubercular Test
- **Staphylococcus aureus, CDC-resistant** ATCC #25922
- **Salmonella paratyphi A ATCC #29319**
- **Salmonella schottmuelleri ATCC #9679**
- **Shigella flexneri ATCC #25201**
- **Klebsiella pneumoniae ATCC #43522**

+ The following Viruses tested in accordance with U.S. Environmental Protection Agency Pesticide Assessment Guidelines on inanimate environmental surfaces. Tested at 1,000 ppm water hardness as calcium carbonate and 10% blood serum as organic soil:

- **Vaccinia Virus ATCC #VR-325**
- **Human adenovirus ATCC #VR-6**
- **Human Immunodeficiency Virus, HIV-1, 8 strain of HIV-1 [AIDS Virus]**

This product has also been tested according to A.O.A.C. use dilution test methods and proven effective as a disinfectant against the following organisms at 500 ppm water hardness as calcium carbonate and 5% blood serum as organic soil. All tests done in accordance with the 14th Edition, 1984.

- **Tropheryma whippelii ATCC #6633** A.O.A.C., Fungal Test
- **Escherichia coli ATCC #11229**
- **Salmonella choleraesuis ATCC #10708**
- **Pseudomonas aeruginosa ATCC #15442**

+ The following Viruses tested in accordance with U.S. Environmental Protection Agency Pesticide Assessment Guidelines on inanimate environmental surfaces. Tested at 500 ppm water hardness as calcium carbonate and 5% blood serum as organic soil:

- **Herpes simplex Type 1**
- **Herpes simplex Type 2**
- **Human Influenza A Hong Kong Virus**

Lot #: 17T8
Expiration Date: June, 2010

**Net Contents:** 1 Gallon (3.8 L)

This product is a synthetic detergent with a broad spectrum kill of gram positive and gram negative microorganisms, provides good cleaning and disinfecting in one operation, nonflammable and non-irritating to skin. Use this product in concentrations indicated in the Precautionary Statement Section of this labeling for applicators and other handlers.

- **PERSONAL PROTECTIVE EQUIPMENT (PPE)**

Applications and handlers must wear:

- Long-sleeved shirt and long pants,socks plus shoes, goggles or face shield, chemical-resistant gloves (such as barrier laminate, nitrile rubber, neoprene rubber and vinyl).

In addition, applications and handlers exposed to fog during fogging applications, and until fog has dissipated and the enclosed area has been thoroughly ventilated, must wear a full face dust/mist filtering respirator with an organic vapor cartridge with a prefilter approved for pesticides (NIOSH/NCC Instant number prefix TC 202C) and a Biological Cartridge approved for pesticides (NIOSH/NCC Instant number prefix TC 202B).

Follow manufacturers’ instructions for cleaning/maintaining PPE. If no such instructions exist, washable, use detergent and hot water. Keep and wash PPE separately from other laundry.

**SAFETY RECOMMENDATIONS**

Users should Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Remove PPE immediately after handling this product. Wash outside of gloves before removing. As soon as possible wash thoroughly and change into clean clothing.

**STORAGE AND DISPOSAL**

Do not contaminate water sources, or leach by storage or disposal.

**Pesticide Storage:** Store only in original container away from heat or open flame. Keep container closed when not in use. Storage must be securely labeled to prevent product accessible to children or persons unfamiliar with its proper use. Pesticide Disposal: Pesticide waste is acutely hazardous. Improper disposal of access pesticides, spray residue, or rinse is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency or the Federal Waste representative at the nearest EPA Regional Office for guidance.

**Container Disposal:** Noncombustible container. Do not reuse or refill this container. Clean container promptly after emptying. Dispose of container as follows: Empty the remaining contents into a hazardous waste container or a tank. Do not flush waste from container to storm drains or sewer. Do not dispose of container as refuse. Flush the container with water and foam. Clean container promptly after emptying. Dispose of container in accordance with local regulations. Follow the procedure for recycling as follows: Shred paper waste and discard in a sanitary landfill. Incineration, or following by state and local authorities by burning if burned, keep out of smoke.
