**Other Ingredients**

96.3%

**TOTAL** 100.0%

Compare to Frontline® brand products, contains an active ingredient: fipronil.*

**Keep Out of Reach of Children**

**Caution**

PetArmor® for Cats acts fast and is an effective, lasting, waterproof, and easy-to-use application for control of fleas, ticks, and chewing lice on cats and kittens. When used as directed, PetArmor® for Cats can stop infestations of fleas, ticks, and chewing lice and help protect your pet from reinfestation on cats and kittens, including on breeding, pregnant and lactating queens.

**Directions for Use**

**For topical application only. Do not allow children to apply this product. Read Entire Label and Enclosed Directions Before Each Use. Carefully Follow All Precautionary Statements and Applicable Use Directions. For Use on Cats Only. Do Not Use on Rabbits or Other Animals.**

It is a violation of federal law to use this product in a manner inconsistent with its labeling. Do not allow children to apply this product. Read entire label and enclosed directions before each use. Carefully follow all precautionary statements and applicable use directions. For use on cats only. Do not use on rabbits or other animals.

**How to Apply**

1. Remove product applicators from the package.
2. Separate the applicator from the tube. Hold the applicator with needle and pointing up away from the face and body. Use scissors to cut off the needle and at the nectar along the line.
3. Part the cat's hair and place the tip of the applicator behind the neck and between the shoulders. Ensure that the entire application of PetArmor® for Cats is contained in a single spot on the cat's skin. Be sure to squeeze the applicator thoroughly so that the entire contents are applied. Do not apply the product superficially to the cat's hair. Use only one applicator during each application. Do not touch the area where the application was made until it is dry. Do not allow your cat to ingest this product.

**Frequency of Application**

Fleas: According to research studies, none have been killed for up to six weeks following an application of Fipronil. However, your cat or kitten is susceptible to flea allergy dermatitis, or you believe there is a risk of reinfection, apply once every month.

Ticks: Each application kills ticks for one month or longer. For best control of ticks, apply once every month.

Chewing Lice: Each application kills lice for one month or longer. For best control of lice, apply once every month.

Do not reapply PetArmor® for Cats for 30 days.

Please note that there is no need to reapply following your cat's exposure to bathing or water immersion, as PetArmor® for Cats remains effective in those conditions.

**Side Effects**

Monitor your pet after application. Infrequent side effects may include signs of skin irritation such as redness, scratching, or other signs of discomfort. See directions for use for additional information. If these or other side effects occur, consult your veterinarian or PetArmor® at 1-888-PRO-TECH (776-8324).

**Storage and Disposal**

Do not contaminate water, food, or feed by storage or disposal. Store unused applicators in the original child-resistant container and out of reach of children and animals. Pesticide Disposal. If Partly Filled: Call your local solid waste agency for disposal instructions. Never pour directly on water sources, pets, or livestock. Container Disposal. Nonrefillable container. If empty: Do not reuse this container. Place in trash or offer for recycling if available.

**First Aid**

If kept away from children and pets, can be used without harm. Pesticide Disposal. If Partly Filled: Call your local solid waste agency for disposal instructions. Never pour directly on water sources, pets, or livestock. Container Disposal. Nonrefillable container. If empty: Do not reuse this container. Place in trash or offer for recycling if available.

**Precautionary Statements**

**Hazard to Humans. Caution.**

 Harmful if swallowed. Causes eye irritation. Avoid contact with skin, eyes, or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, or using tobacco.

**Hazard to Domestic Animals.**

For external use only. Do not use on kittens under 8 weeks of age and less than 1.5 lbs. Sensitivities may occur after using any pesticide product for pets. While temporary irritation at the application site may occur, if signs of continued sensitivity occur, consult a veterinarian immediately. Should any unusual reactions to the application occur, do not supply before consulting with your veterinarian. Certain medications can interact with pesticides. Consult with your veterinarian before using this product on an animal, animal, or pet who is under treatment. Call 1-888-PRO-TECH (776-8324) for 24-hour assistance.

**Physical or Chemical Hazards**

Flammable: Keep away from heat and open flame.

**Warranty**

The cat is consistent with applicable law. Sellers make no warranty, express or implied, concerning the use of this product other than as indicated on the label. Buyer assumes all risk of use and handling of the product when such use and handling are contrary to the label instructions.

**For Use only.**
