**KEEP OUT OF REACH OF CHILDREN**

**CAUTION**

**PETARMOR** For Dogs acts fast and is an effective, lasting, waterproof, and easy-to-use application for control of fleas, ticks, chewing lice, and mange mites on dogs and puppies. When used as directed, **PETARMOR** For Dogs can stop infestations of fleas, ticks, chewing lice, and mange mites and help to prevent reinfestations on dogs and puppies, including on breeding, pregnant, and lactating bitches.

**PETARMOR** For Dogs also aids in the control of scabies mange infestations. Apply monthly to eliminate sarcoptic mange mites.

**Specifically, PETARMOR** For Dogs kills, controls, and prevents infestations of:

1. Newly-emerged adult fleas prior to egg-laying, including fleas which could cause flea allergy dermatitis;
2. Brown Dog Tick, the American Dog Tick, the Lone Star tick, and the Deer tick (Including ticks that carry transmit Lyme Disease), at all stages;
3. Chewing Lice infestations;

**PETARMOR** For Dogs contains the active ingredient Fipronil.

**Directions for Use**

If it is violation of Federal Law to use this product in a manner inconsistent with its labeling. Do not allow children to apply this product. READ ENTIRE LABEL AND ENCLOSED DIRECTIONS BEFORE EACH USE. CAREFULLY FOLLOW ALL PRECAUTIONARY

**STATEMENTS AND APPLICABLE USE DIRECTIONS. FOR USE ON DOGS ONLY. DO NOT USE ON RABBITS OR OTHER ANIMALS.**

For topical application only. Apply **PETARMOR** For Dogs to dogs and puppies aged 8 weeks or older, including on breeding, pregnant, and lactating bitches, as indicated below for control of fleas, ticks, chewing lice, and mange mites.

1. Open the child resistant package according to the directions on the back of the sealed inner package for each pipette.
2. Snap the tip of the pipette away from you as shown.
3. Part the dog’s hair and place the tip of the pipette behind the neck and between the shoulders. Ensure that the entire application of PETARMOR For Dogs is contained in a single spot on the dog’s skin. Be sure to squeeze the applicator thoroughly so that the entire contents are applied.

Do not apply the product superficially to the dog’s hair. Use only one pipette during each application.

Do not touch the area where the application was made until it is dry. **PETARMOR** For Dogs also aids in the control of sarcoptic mange infestations. Apply monthly to eliminate sarcoptic mange mites.

**Frequency of Application**

Fleas: According to research studies, adult fleas are killed for up to three months following an application of **PETARMOR**. If, however, your dog or puppy is susceptible to flea allergy dermatitis, or if you believe there is a risk of reinfestation, apply every month.

Ticks: Each application kills ticks for one month or longer. For best control of ticks, apply once every month.

Chewing Lice: Each application kills chewing lice for one month or longer. For best control of chewing lice, apply once every month.

**Do not reapply PETARMOR** For Dogs for thirty (30) days.
Please note that there is no need to remove following your dog's exposure to baking or water immersion, as FENAMAR® for Dogs remains effective in these conditions.

Storage and Disposal
Do not contaminate water, food, or feed by storage or disposal.
Storage: Store unused application pipeline in the original child-resistant container and water box only, out of reach of children and animals.
Pesticide Disposal: If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.
Container Disposal: Nonrefillable container. If empty: Do not reuse this container. Place in trash or offer for recycling if available.

First Aid
If the product container or label with you when calling a poison control center or doctor, or if going for treatment.
If Swallowed: Immediately call a poison control center or doctor for treatment advice. Have the product and the water box with you if possible. If unable to swallow, do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
If in Eyes: Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.
If on Skin: Rinse eyes with plenty of soap and water. Get medical attention if irritation persists.

Precautionary Statements
Hazard to Humans. Caution.
Hazard to Eyes. Caution. Avoid eye contact. Avoid contact with skin, eyes, or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.
Hazard to Domestic Animals. For external use only. Do not use on puppies under 8 weeks of age.
Sensitivity may occur after using ANI pesticide products for pets. Temporary irritation of the application area may occur. If signs of continued sensitivity occur, consult a veterinarian immediately. Should any unusual reactions to the application occur, do not supply before consulting with a veterinarian. Certain medications can interact with pesticides. Consult with your veterinarian before using this product on medicated, debilitated, or aged dogs. Call 1-800-POISON to 24-hour assistance.

Physical or Chemical Hazards
Flammable: Keep away from heat and open flame.
