**KEEP OUT OF REACH OF CHILDREN**

**CAUTION**

PETARMOR® Plus for Dogs acts fast and is an effective, lasting, waterproof, and easy-to-use application for control of fleas, flea eggs, ticks, chewing lice, and mosquitoes on dogs and puppies. When used as directed, PETARMOR® Plus for Dogs can stop infestations of fleas, ticks, and chewing lice and help to prevent reinfestations on dogs and puppies, including on breeding, pregnant and lactating bitches. PETARMOR® Plus for Dogs kills the entire life cycle of sarcoptic mange mites. If your dog has mange, treat all other dogs in the household.

Specifically, PETARMOR® Plus for Dogs kills, controls and prevents infestations of:

1. Adult fleas, flea eggs, and flea larvae, including fleas which could cause flea allergy dermatitis, and can prevent the further development of fleas at the egg, larva and pupa stages;
2. Brown Dog tick, the American Dog tick, the Lone Star tick, and the Deer tick (including ticks that may transmit Lyme Disease), at all stages;
3. Chewing lice infestations;

**PETARMOR® Plus for Dogs contains the active ingredient Fipronil and the insect growth regulator (IGR) (S)-methoprene.**

**Directions for Use**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Do not allow children to apply this product. Read entire label and enclosed directions before each use. Carefully follow all precautionary statements and applicable use directions. For use on dogs only. Do not use on Rabbits or other Animals.

For topical application only. Apply PETARMOR® Plus for Dogs only to dogs and puppies aged 8 weeks or older, including on breeding, pregnant, and lactating bitches, as indicated below for control of fleas, flea eggs, ticks, chewing lice, and mosquitoes.

**How to Apply**

1. Open the child resistant package according to the directions on the back of the sealed inner package for each pipette.
2. Apply the pipette along the back of the dog’s neck between the shoulder blades.
3. Snap the tip of the pipette away from you as shown.
4. Part the dog’s hair and place the tip of the pipette behind the neck and between the shoulders. Ensure that the entire application of PETARMOR® Plus for Dogs is contained in a single spot on the dog’s skin. Be sure to squeeze the pipette thoroughly so that the entire contents are applied.

Do not apply the product superficially to the dog’s hair. Use only one pipette during each application. Do not touch the area where the application was made until it is dry.

**PETARMOR® Plus for Dogs also kills the entire life cycle of sarcoptic mange mites.**

**Frequency of Application**

Fleas: According to research studies, adult fleas, flea eggs and flea larvae are killed for up to three months following an application of Fipronil plus (S)-methoprene. If, however, your dog or puppy is susceptible to flea allergy dermatitis, or if you believe there is a risk of reinfestation, apply once every month.

Ticks: Each application kills ticks for one month or longer. For best control of ticks, apply once every month.
Chewing Lice: Each application kills chewing lice for one month or longer. For best control of chewing lice, apply once every month.

Do not reapply PETARMOR™ Plus For Dogs for thirty (30) days.

Please note that there is no need to reapply following your dog’s exposure to bathing or water immersion, as PETARMOR™ Plus For Dogs remains effective in these conditions.

Storage and Disposal

Do not contaminate water, food, or feed by storage or disposal.

Storage: Store unused application pipettes in the original child-resistant container and out of reach of children and animals.

Pesticide Disposal: If partly filled: Call your local solid waste agency or 1-BAD-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

Container Disposal: Nonrefillable container. If empty: Do not reuse this container. Place in trash or offer for recycling if available.

First Aid

Have the product container or label with you when calling a poison control center or doctor, or if going for treatment.

If Swallowed: Immediately call a poison control center or doctor for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.

If on Skins: Rinse skin with plenty of soap and water. Get medical attention if irritation persists.

Precautionary Statements

Hazard to Humans. Caution. Harmful if swallowed. Causes eye irritation. Avoid contact with skin, eyes, or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Hazards to Domestic Animals. Not for external use only. Do not use on puppies under 8 weeks of age. Sensitivities may occur after using any pesticide product for pets.

While temporary irritation at the application area may occur, if signs of continued sensitivity occur, consult a veterinarian immediately. Should any unusual reactions to the application occur, do not reapply before consulting with a veterinarian. Certain medications can interact with pesticides. Consult with your veterinarian before using this product on medicated, debilitated, or aged dogs. Call 1-888-900-1000 for 24-hour assistance.

Physical or Chemical Hazards

Flammable. Keep away from heat and open flame.

Application Options for Different Sizes of Dogs
