NUOSEPT® 498G PRESERVATIVE

INDUSTRIAL MICROBIOSTAT

Spin-Fin in Solutions, Pesticide Formulations, Tape Joint Compounds, Leather Processing Solutions, Inks, Home Cleaning Products (such as floor cleaners, floor waxes and polishes, surface cleaners, window cleaners, and dish detergents), and Car Care Products (such as washing products, car waxes, and silicone emulsions), and for the preservation of fresh animal hides and skins.

ACTIVE INGREDIENT:
1,2-Benzoisothiazolin-3-one .................. 19.00%
INERT INGREDIENTS: .................. 81.00%
TOTAL .................. 100.00%

KEEP OUT OF REACH OF CHILDREN

DANGER

FIRST AID

IN EYES:
- Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye.
- Call poison control center or doctor for treatment advice.

IF SWALLOWED:
- Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED:
- Move person to fresh air. If person is not breathing, call 911 or an ambulance. If breathing is difficult, give artificial respiration, preferably mouth-to-mouth, if possible.
- Call a poison control center or doctor for further treatment advice.

IF ON SKIN OR CLOTHING:
- Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

DEFINITIONS

Hazard Category: Corrosive
Primary Risk: Respiratory irritation
Primary Route: Inhalation
Toxicity: No data available
Health Effects: No data available

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS

DANGER

Corrosive. Causes irreversible eye damage. May be fatal if swallowed or inhaled. Do not get in eyes, on skin or on clothing. Causes skin irritation. Do not breathe vapor or spray mist. Prolonged or frequent skin contact may cause allergic reactions in some individuals. Water gloves or face shield, a respirator with an organic vapor removing cartridge with a prefilter approved for pesticides (MSHA/NIOSH approval number TC-230) or a canister approved for pesticides (MSHA/NIOSH approval number TC-145) or a NIOSH approved respirator with an organic vapor (OV) cartridge or canister with an N, R, P or HE prefilter, coversall over short-sleeved shirt and short pants, chemical resistant footwear plus sock, chemical resistant gloves made of any waterproof material, a chemical resistant apron when mixing, loading, or cleaning equipment and chemical resistant headgear for overhead exposure.

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Discard clothing and other absorbent material that have been drenched. Do not mix or re-use equipment contaminated with the product's concentrate. Do not reuse them.

USER SAFETY RECOMMENDATIONS:
- Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
- Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

A water soluble, liquid organic biocide (also called an antimicrobial or non-toxic preservative), recommended for use as an industrial preservative for the protection of caulks, sealants, grouts, spackling, ready-mixed cements, ready-mixed wallboard compounds, aqueous compositions such as emulsion paints, aqueous slurries, titanium dioxide slurries, oil in water emulsions, latexes, water-based adhesives, cement/resin dispersions, textile spin-finish solutions, pesticide formulations, tape joint compounds, leather processing solutions, inks, home cleaning products (such as floor cleaners, floor waxes and polishes, surface cleaners, window cleaners and dish detergents), laundry additives (such as liquid laundry detergent, fabric softeners, and stain removers) and car care products (such as washing products, car waxes, and silicone emulsions), and for the preservation of fresh animal hides and skins. Typical use level for pesticide formulations is 0.05% by weight. For other applications, typical use levels range from 0.03 to 0.25% by weight in the final formulation, but should not exceed 0.5% of the final product for any application.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE - Do not store with strong oxidizing agents or strong (concentrated) acids. Keep container tightly closed when not in use. Do not reuse container.

PESTICIDE DISPOSAL - Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your local State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER HANDLING - Non-refillable container. Do not refill or re-use this container. Tripacked (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container with water and recap. Shake for 10 seconds. Pour the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Dain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration or, if allowed by state and local authorities, by burning. If burned stay out of smoke.

PHYSICAL AND CHEMICAL HAZARDS

Combustible. Do not store or use near heat or open flame. Do not apply this product in a way that will contact workers or other persons.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

* This use application is not approved for use in California

NOTE: READ THE MATERIAL SAFETY DATA SHEET BEFORE USING THIS PRODUCT

CASE OF TRANSPORTATION EMERGENCY

CALL CHEMTREC: 800-424-9300 (703-527-3287)

Net Contents: 40LBS/18.1KG
For industrial use only as a Microbiostat Preservative for Aqueous Compositions such as Emulsion Paints, Aqueous Slurries, Titanium Dioxide Slurries, Oil in Water Emulsions, Lattices, Water-Based Adhesives, Casein Rosin Dispersions, Textile Laundry Additives (such as liquid laundry detergents, fabric softeners, and stain removers) and Car Care Products (such as washing products, car waxes, and silicone emulsions), and for the preservation of Fresh Animal Hides and Skins.

KEEP OUT OF REACH OF CHILDREN

DANGER

Corrosive. Causes irreversible eye damage. May be fatal if swallowed or inhaled. Do not get in eyes, on skin or on clothing. Causes skin irritation. Do not breathe vapor or spray mist. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wear goggles or face shield, a respirator with an organic vapor removing cartridge with a prefilter approved for pesticides (MSHA/NIOSH approval number prefix TC-23C) or a canister approved for pesticides (MSHA/NIOSH approval number TC-14G) or a NIOSH approved respirator with an organic vapor (OV) cartridge or canister with an N, R, P or HE prefilter. Coveralls over short-sleeved shirt and short pants, chemical resistant footwear with socks, chemical resistant gloves made of any waterproof material, chemical resistant apron when mixing, loading, or cleaning equipment and chemical resistant headgear for overhead exposure.

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instruction exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Discard clothing and other absorbent material that have been drenched or heavily contaminated with the product's concentrate. Do not reuse them.

USER SAFETY RECOMMENDATIONS:
- Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
- Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

A water soluble, liquid organic biocide (also called an antimicrobial or in-can preservative), recommended for use as an industrial preservative for the protection of caulks, sealants, grouts, spackling, ready-mixed cements*, ready mixed wallboard compounds, aqueous compositions such as emulsion paints, aqueous slurries, titanium dioxide slurries, oil in water emulsions, lattices, water-based adhesives, casein/rosin dispersions, textile spin-finish solutions, pesticide formulations, joint compound, leather processing solutions, inks, home cleaning products (such as floor cleaners, floor waxes and polishes, surface cleaners, window cleaners and dish detergents), laundry additives (such as liquid laundry detergent, fabric softeners, and stain removers) and car care products (such as washing products, car waxes, and silicone emulsions), and for the preservation of Fresh Animal Hides and Skins.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE - Do not store with strong oxidizing agents or strong (concentrated) acids. Keep container tightly closed when not in use. Do not reuse container.

PESTICIDE DISPOSAL - Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsates is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your local State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER HANDLING - Non-refillable container. Do not reuse or refill this container. Triple rinse (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container ¾ full with water. Replace and tighten closures. Tilt container on its side and roll back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two or more times. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incinerate or, if allowed by state and local authorities, by burning. If burned stay out of smoke.
