STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage or disposal.
Pesticide Storage: Do not reuse empty container. Store in a dry place at 50°F to 120°F.
Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide spray mixture or rinseate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.
CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Clean container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container ¾ full with water and recap. Shake for 10 seconds. Pour rinseate into application equipment or a mix tank or store rinseate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Offer for recycling, if available.
Environmental Hazards: This product is toxic to fish.

PRECAUTIONARY STATEMENTS
HAZARD TO HUMANS AND DOMESTIC ANIMALS
DANGER: Corrosive. Causes irreversible eye damage and skin burns. Harmful if absorbed through the skin. Do not get in eyes, on skin, or on clothing. Wear chemical splash-proof goggles or face shield, rubber gloves and protective clothing when handling. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

This product is a phosphate-free concentrated detergent, which provides effective sanitization. It has been designed specifically for food processing plants, food service establishments, and other institutions where housekeeping is of prime importance. This product is for use as a sanitizer in restaurants, food processing plants and bars. For use on: chopping blocks, countertops, tables, glasses, dishes and utensils.

**DIRECTIONS FOR USE:**
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**Sanitization:** When used as a food contact sanitizer at 2.0 oz. of product per 3.5 gallons of water dilution (200 ppm quaternary), this product reduces the following bacteria by 99.999% with a 1 minute contact time on pre-cleaned, hard, non-porous inanimate surfaces: *Staphylococcus aureus, Escherichia coli*

This product can be applied by mop, sponge, cloth, paper towel or hand pump coarse trigger sprayer.

**To Sanitize Hard, Non-Porous Food Contact Surfaces and Equipment:**
1. Prior to sanitization, remove gross particulate matter with a warm water flush, presoak or scrape, then wash equipment with detergent or cleaning solution and follow with a potable water rinse.
2. Prepare the sanitizing use solution by adding 2 oz. of this product per 3-1/2 gallons water (200 ppm active quat).
3. Apply sanitizing solution by immersion, coarse spray, mop, wipe, flood techniques or circulation techniques as appropriate to the equipment or surface to be treated. Allow a contact time of at least one (1) minute.
4. Allow surfaces to drain thoroughly and air dry before resuming operation. Do not rinse.

**Sanitizing Food Contact Surfaces:**
1. Pre-flush, scrape or pre-soak articles to be washed.
2. Wash areas or items to be sanitized with clean water and a recommended detergent.
3. Rinse with potable water.
4. Sanitize in a solution prepared by diluting 2 oz. of this product per 3-1/2 gallons water to 200 ppm quaternary level. Immerse or wet all surfaces for at least 60 seconds (1 minute) or as required by local sanitation regulations. When solution depreciates or becomes soiled, discard. Test sanitizer solution periodically with a Quaternary Test Kit to ensure 200 ppm active quaternary.
5. Drain and allow equipment or utensils to air dry.

**Note:** NO POTABLE WATER RINSING of equipment is required. Prepare a fresh solution daily or more frequently if soil is apparent.
