Alpha-HP®

Multi-Surface Disinfectant Cleaner

ACTIVE INGREDIENT:
Hydrogen Peroxide ........................................... 4.25%
OTHER INGREDIENTS: .................................................. 95.75%
TOTAL: ...................................................................... 100.00%

KEEP OUT OF REACH OF CHILDREN
CAUTION

FIRST AID
IF IN EYES: Hold eye open and rinse slowly and gently with water for
15-20 minutes. Remove contact lenses, if present, after the first 5
minutes, then continue rinsing eye.
IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin
immediately with plenty of water for 15-20 minutes.
IF SWALLOWED: Have person sip a glass of water if able to swallow.
Do not induce vomiting unless told to do so by a poison control center
or doctor. Do not give anything by mouth to an unconscious person.

IN CASE OF EMERGENCY, CALL A POISON CONTROL CENTER OR
DOCTOR FOR TREATMENT ADVICE.
1-800-851-7145
Have the product container or label with you when calling a Poison
Control Center or doctor or going in for treatment.

Note to Physician: Probable mucosal damage may contraindicate
gastric lavage.
See additional precautionary statements on side panel.

This product is a one-step hospital-grade disinfectant designed for general cleaning, disinfecting, and deodorizing hard, non-porous inanimate surfaces. It cleans quickly by removing dirt, grime, body oils and other common soils found in hospitals, nursing homes, office buildings, schools and colleges, medical offices, transportation facilities, train stations, bus stations, airports, cruise ships, casinos, retail facilities, correctional facilities, athletic facilities, playgrounds, gym locker rooms, health clubs, veterinary clinics, pet shops, animal life science laboratories, hotels, motels, public areas and restrooms. Use daily on the following hard, non-porous inanimate surfaces: vinyl, painted surfaces, plastic surfaces, glass, mirrors, glazed ceramic, glazed porcelain, laminated surfaces and baked enamel surfaces associated with floors, walls, ceilings, tables, chairs, countertops, telephones, fixtures, athletic equipment, glazed tile, toilets, urinals, sinks, tubs, shower rooms and locker room areas – any hard, non-porous washable surface where disinfection is required. This product’s non-dulling formula eliminates the time and labor normally required for rinsing. Do not use on glasses, dishes and utensils.

At a 1:64 dilution, in the presence of 200 ppm hard water, 5% serum load and a 10 minute contact time, unless otherwise noted, this product kills the following on hard non-porous inanimate surfaces: Bacteria: Pseudomonas aeruginosa, Salmonella enterica formerly known as Salmonella choleraesuis, Staphylococcus aureus
Antiobiotic-Resistant Strains of Bacteria: Staphylococcus aureus (MRSA), Enterococcus faecium (VRE). At a 1:64 dilution, in the presence of 200 ppm hard water, 5% serum load and a 5 minute contact time, unless otherwise noted, this product kills the following on hard non-porous inanimate surfaces: *Viruses: *Adenovirus type 8, *Human Coronavirus, *Influenza Virus Type A (Hong Kong), *Norovirus (Feline Calicivirus as the surrogate), *Poliovirus Type 1, *Respiratory Syncytial Virus, *Rhinovirus Type 37, Strain 151-1, *Rotavirus (Strain WA), *Vaccinia Virus. Kills *Hepatitis B Virus (HBV) & *Hepatitis C Virus (HCV) when used as directed on hard, non-porous inanimate surfaces with a 5 minute contact time. Kills *HIV-1 (AIDS virus) (HTLV-III) when used as directed on hard, non-porous inanimate surfaces with a 1 minute contact time. Kills *Influenza A Virus (H1N1) when used as directed on hard, non-porous inanimate surfaces with a 1 minute contact time.

Bactericidal Stability of Use-Solution: Tests show this product as a disinfectant, when diluted at 1:64 dilution in 200 ppm hard water, in the presence of 5% serum, remains effective against Staphylococcus aureus, Salmonella enterica, and Pseudomonas aeruginosa for up to 90 days in storage as long as the bottle remains sealed. If the use-solution becomes visibly dirty or contaminated, it must be discarded and a fresh product prepared. Always use clean, dry containers when diluting this product. Treated surfaces must remain wet for 10 minutes.

Sanitizing: When used as a non-food contact sanitizer at a 1:128 dilution, in the presence of 200 ppm hard water, 5% serum load, this product reduces the following bacteria by 99.9% with a 3 minute contact time on hard non-porous inanimate surfaces: Staphylococcus aureus, Klebsiella pneumoniae, Escherichia coli, Enterococcus faecalis, Listeria monocytogenes, Pseudomonas aeruginosa, Salmonella enterica

Malodor Activity: reduces odors and odor-causing bacteria on hard, non-porous surfaces in restroom areas, behind and under sinks and counters, and storage areas and other places where bacterial growth can cause malodors when used as directed at a 1:128 dilution, in the presence of 200 ppm hard water and a 3 minute contact time.
