PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER. Corrosive. Causes irreversible eye damage. Causes skin irritation. Harmful if swallowed, inhaled, or absorbed through skin. Do not get in eyes, on skin or on clothing. Wear goggles, face shield or safety glasses and rubber gloves when handling. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS
This product is toxic to fish and aquatic organisms. Do not discharge into lakes, streams, ponds, or other waters unless in accordance with requirements of a National Pollutant Discharge Elimination System (NPDES) permit. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the U.S. Environmental Protection Agency.

PHYSICAL OR CHEMICAL HAZARDS: This product is an oxidizer. Do not mix with acids. Avoid breathing dust from powder.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Liquid Medical Waste
Encapsulation and Treatment
For Use Only in Health Care and Veterinary Facilities

This product treats 3000cc of fluid.

This product is intended for use with suction canisters.

Always wear hand and eye protection when handling Infectious waste.

For Liqui-Loc Plus (bottle)
- Shake well to thoroughly mix the Liqui-Loc Plus powder.
- Turn off suction and remove patient tubing.
- Remove the top of the access port.
- Remove the top from the Liqui-Loc Plus bottle.
- Allow the contents to pour into the canister. Be sure all Liqui-Loc Plus powder is poured into the suction canister.
- Remove the Liqui-Loc Plus bottle and cap the open access port.
- Allow sufficient time for solidification.
- Dispose of encapsulated material according to institutional procedures and Federal, State and Local regulations.

For Liqui-Loc Plus (dissolvable pack)
- Prior to beginning the procedure drop the Liqui-Loc Plus Pak into the vessel.
- As fluid is introduced into the vessel the Liqui-Loc Plus Pak powder is released.
- Allow sufficient time for solidification.
- Dispose of encapsulated material according to institutional procedures and Federal, State and Local regulations.

See side panel for additional precautionary statements.
STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Keep in a cool, dry place. Keep container tightly closed. Maintaining a spill kit and fire extinguisher on hand and having emergency phone numbers posted will allow you to prepare for emergencies.

PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal of excess pesticide is a violation of Federal law. If these wastes cannot be disposed of by use according to label instruction, contact your state pesticide or environmental control agency, or hazardous waste representative of the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL:
Nonrefillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows. Empty the remaining contents into suction canister. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinsate into suction canister or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Offer for recycling, if available or puncture and dispose of in a sanitary landfill, or incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.
