Product #002085
Parastar™ contains fipronil to effectively kill fleas and ticks including those that may transmit Lyme disease.

**Parastar™**
- Kills fleas
- Kills deer ticks
- Kills brown dog ticks
- Kills American dog ticks
- Kills lone star ticks
- Kills chewing lice
- Controls mites that may cause sarcoptic mange

**How to Open:**
1. Remove product tubes from the package.
2. Separate one tube from the others. Holding the tube with notched end pointing up and away from the face and body, cut off the narrow end at the notches with scissors.

**How to Apply:**
1. Invert tube over dog and use open end to part dog’s hair.
2. Squeeze tube firmly to apply all of the solution to the dog’s skin as a spot to the dog’s back between the shoulder blades.

**Directions for Use**
- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- Do not allow children to apply product. To prevent harm to you and your dog, read entire label before each use. Follow all directions and precautionary statements carefully. For external use on dogs only. Do not use on rabbits. Do not use on other animals.
- Do not use on puppies under 8 weeks of age. Weigh your dog to be sure you are applying the right dose formulated for the weight of your dog. Consult a veterinarian before using on debilitated, aged, or medicated dogs. Can be used on breeding, pregnant, or lactating dogs. Consult a veterinarian before using on dogs with known organ dysfunction. Dogs may experience some temporary irritation at the site of product application. Certain medications can interact with pesticides. Sensitivities may occur after using any pesticide product on dogs. If signs of sensitivity occur bathe your dog with a mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.
- How to open: Remove product tubes from the package. Separate one tube from the others. Holding the tube with notched end pointing up and away from the face and body, cut off the narrow end at the notches with scissors.
- How to apply: While holding the dog with one hand, use the other hand to apply the solution. Invert the tube and use the open end to part the dog’s hair. Apply contents of one tube of Parastar as a spot to the dog’s back between the shoulder blades. Hold the dog for a few seconds to give the solution time to be absorbed into the dog’s coat. When finished, wrap the tube in paper and put into the trash. Only one applicator per treatment is needed. Repeat application may be made if necessary, but do not apply more often than once every 30 days.
- Frequency of application:
  - For Dogs Weighing 45 to 88 lbs: Apply one tube 0.69 fl oz (20 mL) as a spot on the dog’s back between the shoulder blades.

**Storage and Disposal**
- Do not contaminate water, food, or feed by storage and disposal.
- Pesticide Storage: Do not remove tube from the pack until ready to use. Store in a cool (below 77°F) dry place inaccessible to children and pets. Do not refrigerate. Protect from direct sunlight.
- Container Disposal: Non-refillable container. Do not reuse or refill container. If empty, Place in the trash or offer for recycling if available. If pastry filled, Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
