For dogs 45-88 lbs.

**PARASTAR Plus**
(fipronil/cyphenothrin)

Kills Ticks, Fleas & Chewing Lice

**ACTIVE INGREDIENTS:**
Fipronil 9.8%
Cyphenothrin 5.2%
OTHER INGREDIENTS: 85.0%
TOTAL: 100.0%

**WARNING:**
Keep out of reach of children.

**PRODUCT INFORMATION:**
Parastar Plus is a broad-spectrum, long-lasting, waterproof solution for the treatment and control of ticks, fleas, and chewing lice in dogs weighing 45-88 lbs. The active ingredients, fipronil and cyphenothrin, provide effective control against these pests for up to 4 weeks.

**APPLICATION INSTRUCTIONS:**
1. **Product Use:** This product is specifically designed for dogs weighing 45-88 lbs.
2. **Application Site:** Apply the solution to the dog's neck, avoiding the eyes, ears, and mouth areas.
3. **Application Frequency:** Apply at least monthly or as directed by the veterinarian.
4. **Safety Precautions:** Keep the product out of reach of children and pets other than the intended dog.

**ADDITIONAL INFORMATION:**
- **Storage:** Store the product in a cool, dry place.
- **Expiration Date:** Check the expiration date on the package before use.
- **Side Effects:** Monitor for any adverse reactions and contact your veterinarian if necessary.

**NOTICE:**
Before using this product, consult your veterinarian to ensure it is appropriate for your dog's specific needs and health conditions.

**NOTICE TO PROFESSIONALS OR PERSISTENT USERS:**
- Use this product only as directed.
- Keep out of the reach of children.
- Do not use on cats.
- Do not use on puppies under 8 weeks of age or dogs under 45 lbs.

**FOR OPTIMUM RESULTS:**
- Apply the product at the start of the tick season or as recommended by your veterinarian.
- Reapply every 4 weeks or as directed by your veterinarian.

**CONTACT INFORMATION:**

For questions or more information, please contact your veterinarian or a professional from Novartis Animal Health.
ParaStar™ Plus contains fluralaner and cyphenothrin to effectively start killing ticks and fleas in as little as 1 hour. Kills ticks, including those that may transmit Lyme disease, Rocky Mountain spotted fever, ehrlichiosis, babesiosis, anaplasmosis and hepatozoonosis.

- **ParaStar™ Plus**
  - Kills Deer Ticks
  - Kills Brown Dog Ticks
  - Kills American Dog Ticks
  - Kills Lone Star Ticks
  - Kills Fleas
  - Kills chewing lice
  - Controls mites that may cause Sarcoptic Mange

**How to apply:**
1. Remove product tubes from the package.
2. Separate one tube from the others.
3. Holding the tube with notched end pointing up and away from the face and body, cut off the narrow end at the notches with scissors.
4. Invert tube over dog and use open end to part dog’s hair.
5. Squeeze tube firmly to apply all of the solution to the dog’s skin as a spot to the dog’s back between the shoulder blades.

**Sensitivities may occur after using any pesticide product on dogs. Dogs may experience some temporary irritation at the site of product applications. If signs of sensitivity occur bathe your dog with a mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.**

**How to open:** Remove product tubes from the package. Separate one tube from the others. Holding the tube with notched end pointing up and away from the face and body, cut off the narrow end at the notches with scissors.

**How to apply:** While holding the dog with one hand, use the other hand to apply the solution. Invert the tube and use open end to part dog’s hair. Apply contents of one tube of ParaStar™ Plus as a spot to the dog’s back between the shoulder blades. Hold the dog for a few seconds to give the solution time to be absorbed into the dog’s coat. When finished, wrap the tube in paper and put into trash. Only one application per treatment is needed. Repeat applications may be made if necessary, but do not apply more than once every 4 weeks.

**FREQUENCY OF APPLICATION**
Use ParaStar™ Plus monthly for complete control of flea, tick and chewing lice infestations. Studies show that ParaStar™ Plus kills fleas for up to 30 days. If the dog is at high risk for flea reinfestation, or in a highly infested environment, apply monthly. Apply monthly to control ticks and chewing lice. ParaStar™ Plus remains effective, even after bathing, water immersion, or exposure to sunlight. Allow treated area to dry thoroughly. Do not repeat for 30 days.

**For Dogs Weighing 45 to 88 lbs.**
Apply one tube 0.09 fl oz (2.68 mL) as a spot on the dog’s back between the shoulder blades.

**STORAGE AND DISPOSAL**
Do not contaminate water, food, or feed by storage and disposal.

**PESTICIDE STORAGE:** Do not remove tube from the pack until ready to use. Store in a cool (below 77°F) dry place inaccessible to children and pets. Do not refrigerate. Protect from direct sunlight.

**CONTAINER DISPOSAL:** Non-refillable container. Do not reuse or refill this container. If Pesticide Spills on the Floor or Items, Wipe up with clean cloth. Rinse the spill area with water. Place in trash or offer for recycling if available. If any Pesticide is spilled into water supply, notify local health or water officials. If Pesticide Spills into the Water Supply, notify local health or water officials.

**Read entire label before each use. Use only on Dogs and Puppies 12 weeks of age or older.**
