Parastar™ Plus is an insecticide that contains fipronil and cypermethrin to effectively start killing ticks and fleas in as little as 1 hour. It kills ticks, including those that may transmit Lyme disease, Rocky Mountain spotted fever, ehrlichiosis, babesiosis, anaplasmosis and hepatozoonosis.

**Parastar™ Plus**
- Kills Deer Ticks
- Kills Brown Dog Ticks
- Kills American Dog Ticks
- Kills Lone Star Ticks
- Kills fleas
- Kills chewing lice
- Controls mites that may cause Sarcoptic Mange

**How to open:**
1. Remove product tubes from the package.
2. Separate one tube from the others. Holding the tube with the notched end pointing up and away from the face and body, cut off the narrow end at the notches with scissors.

**How to apply:**
1. Invert tube over dog and use open end to part dog's hair.
2. Squeeze tube firmly to apply all of the solution to the dog's skin as a spot to the dog's back between the shoulder blades.

**Storage and Disposal:**
- Do not contaminate water, food, or by storage and disposal.
- Pesticide Storage: Do not remove tube from the pack until ready to use. Store in a cool (below 77°F) dry place inaccessible to children and pets. Protect from direct sunlight.
- Container Disposal: Non-refillable container. Do not use or refill this container.
- Non-Refillable: Place in the trash or offer for recycling if available. If properly labeled, call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

**Directions for Use:**
- It is a violation of Federal law to use this product in a manner inconsistent with its labeling. READ ENTIRE LABEL BEFORE EACH USE.
- Do not allow children to apply product. TO PREVENT HARM TO YOU AND YOUR DOG, READ ENTIRE LABEL BEFORE EACH USE. FOLLOW ALL DIRECTIONS AND PRECAUTIONARY STATEMENTS CAREFULLY. DO NOT USE ON PETS. DO NOT USE ON POT BIRDS, PETS, OR OTHER ANIMALS. USE ONLY IN Catisfaction. May be toxic and potentially fatal if applied to or ingested by pets. FOR EXTERNAL USE ON DOGS ONLY. Do not use on puppies under 12 weeks of age. Weigh your dog to be sure you are applying the right dose calculated for the weight of your pet. Do not treat more than one pestidic product at a time. Overdosing your animal can result in serious illness and even death.
- Best if used per year round. Certain medications can interact with pesticides. Consult a veterinarian before using this product on pregnant, aged, medicated, pregnant, or nursing dogs. Consult a veterinarian before using on dogs with known organ dysfunction. Do NOT USE ON CATS or animals other than dogs. Separate the treated dog from all other dogs and cats for 24 hours after application. Use Parastar Plus monthly to control lice, ticks and chewing lice infestations. Studies show that Parastar Plus kills lice for up to 30 days. If your pet is at high risk for flea reinfestation, or in a highly infected environment, apply monthly. Apply monthly to control lice, ticks and chewing lice. Parastar Plus remains effective, even after bathing, water immersion, or exposure to sunlight. Allow treated area to dry thoroughly. Do not reapply for 30 days. For Dogs Weighing up to 22 lbs. Apply one tube 0.023 fl. oz. (0.67 mL) as a spot on the dog's back between the shoulder blades.
