HARRIS® YELLOW JACKET, WASP & HORNET KILLER

FRIST AID
IF SWALLOWED: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

IF IN EYES: Remove any contact lenses. Rinse eye immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance. Then give artificial respiration, if trained to do so. If possible, call a poison control center or doctor for further treatment. Have the product container or label with you when calling.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Hazards if absorbed through skin or inhaled. Avoid contact with skin, eyes or clothing. Avoid breathing vapor or spray mist. Wash thoroughly with soap and water after handling or before eating, drinking, chewing gum or using tobacco. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

This product contains fish and other aquatic invertebrates. Do not apply directly to water. Do not contaminate water by allowing run-off from treated areas directly into water or onto land applied to via spray drift.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Do not apply this product around electrical equipment due to possibility of shock hazard.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DO NOT USE AROUND ANIMALS OR IN PONDS.

OUTDOOR USES: Under eaves, near window frames, doorways, porches, picnic areas and outdoor play areas.

INDOOR USES: Attics and anywhere pests are built and where food or feed is not exposed.

Kills insects and eliminates the nests where they live and breed. Insects will fall to the ground and die after spraying. Kills insects inside the nest, as well as any returning.

For Control of Wasps, Yellow Jackets, Hornets and other listed Insects: For Nests: 1. Spray at sunrise or sunset when insects are least active. 2. Stand a safe distance from the nest. Do not spray directly under the nest. 3. Spray at least 15 minutes before each use. Hold can upright and spray away from person. Push button to spray. 4. Aim actuator at the opening in the nest and spray until nest is saturated. This product's powerful spray will also kill insects that return to the nest. 5. Wait at least 24 hours before removing the nest. For At Home: 1. Spray at 30 second intervals until an effective barrier is formed around windows, doors, eaves, windows or other places where insects enter such as outdoor plumbing, faucets, etc. and cracks or crevices in foundations, as well as around sinks and ledges. 2. Kill Waasps, Yellow Jackets, Mud Daubers and Hornets: To treat nests: 1. Spray at sunrise or dusk when insects are least active. 2. Stand a safe distance from the nest. Do not stand directly under the nest. 3. Always hold can upright while spraying. 4. With wand at 120° angle, aim actuator at the nest, and push button to spray. 5. Spray opening of nest until saturated. Then spray the rest of the nest. 6. Entering foam will remain on the nest to kill insects that return to the nest. 7. Wait at least 24 hours before removing the nest.

Kills other insects, including Fire Ants, Spiders (including Black Widow Spiders), Scorpions, Crickets, Ants, Fleas, Ticks, Centipedes, Earwigs, Flies and Mosquitoes: 1. Spray short 1-2 second bursts directly on insects. 2. For scorpions, stand 3-4 feet away and toss covey into the mix. Make sure scorpions are dead before removing.

Use Tips: 1. Fence with wire or metal to keep out insects. 2. Remove any debris that forms a bridge to the nest. 3. Rinse with water any desireable surface that is contaminated with spray.

General Precautions and Restrictions: Avoid contamination of food and feedstuffs. Do not use in commercial food/ feed processing preparation, feedlot storage or handling areas. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Exposed foodstuffs should be covered or removed. Remove pets and birds and cover fish aquariums before spraying. Do not water the treated area for at least 2 hours. Do not make applications during rain. All outdoor applications must be kept up to a spot or crack in concrete/ brick walls, etc. or for the following permitted uses: Procedures: 1. Treatment for soil or vegetation around structures. Application is prohibited directly into streams or drains, or any area like a gutter where drainage to streams, storm drains, water bodies or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.

This product may stain or adversely affect vinyl, painted and plastic surfaces. Avoid application to asphalt or cement surfaces. Application should be avoided on areas where spray mist may contact these surfaces, test in an inconspicuous area and check in a few hours.

Use Precautions: 1. Spray applicators must be clean. 2. Rinse with water any desired surface that is contaminated with spray. 3. Avoid contamination of food and feedstuffs. Do not use in commercial food/ feed processing preparation, feedlot storage or handling areas. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Exposed foodstuffs should be covered or removed.
