SANI-CLOTH® BLEACH
GERMICIDAL DISPOSABLE WIPE

Bactericidal, Fungicidal, Tuberculocidal, and Virucidal** in 4 minutes
One Step Cleaning disinfecting wipe
Ready to use

Kills pathogenic organisms including
- Bacteria
- Pseudomonas aeruginosa • Salmonella enterica • Staphylococcus aureus
- Multi-Drug Resistant Bacteria
  - Klebsiella pneumoniae • Carbapenem Resistant
  - Community Acquired Methicillin-Resistant
  - Staphylococcus aureus (CA-MRSA) [NRS 33400] (Genotype USA 300) • Community Acquired
  - Methicillin Resistant Staphylococcus aureus (CA-MRSA) [NRS 3920] (Genotype USA 400)
- Vancmycosis Resistant Enterococcus faalculus (VRE)
- Bloodborne Pathogens
  - Hepatitis B virus (HBV) • Hepatitis C virus (HCV) • HIV • HGV • AIDS-related
- Viruses**
  - Hepatitis A virus (HAV) • Hepatitis C virus (HCV) • Influenza (Influenza A, B, & C)
  - SARS Virus
- TB
  - Mycobacterium bovis • BCG (TB)
- Pathogenic Fungi
  - Aspergillus fumigatus • Candida albicans • Trichophyton mentagrophytes

ACTIVE INGREDIENTS:
- Sodium Hypochlorite .......................................................... 0.60%

OTHER INGREDIENTS .......................................................... 99.40%

TOTAL .......................................................... 100.00%

Does not include the weight of the wipe
Approximately 0.700 ppm Available chlorine
Pre moistened wipe with a stabilized bleach solution
(equivalent to a 1:10 dilution)

KEEP OUT OF REACH OF CHILDREN

Net Contents
- 75 Extra Large Wipes 6 x 10.5 in (15.2 x 26.6 cm)
- Net Wt. 1.0 lb 14.0 oz (853g)
Sani-Cloth Bleach Germicidal Disposable Wipe is a one-step, cleaning, disinfecting wipe. Recommended for use in hospitals and other critical care areas where the control of the hazards of cross-contamination between treated surfaces is required. Suitable for use on equipment requiring bleach-based products. Use on hard nonporous surfaces and equipment listed on this label made of stainless steel, plastic, Formica® and glass. Organisms are killed in four (4) minutes by exposure to the liquid in the wipe. Areas of Use: Hospital and Healthcare Settings: Ambulances, Ambulatory Surgical Centers (ASC), Clinics, Dental Offices, Dialysis Clinics, Home Health Care, Hospitals, Laboratory, Nursing homes, Physical therapy, Physicians offices, Radiology, and Transport vehicles. Hospital, Healthcare, and Critical Care Wipes: May be used on hard nonporous surfaces of: blood glucose meters; blood pressure monitors; cabinets; carts; charts; counters; dental chairs; exam tables; gurneys; isolets; IV poles; laboratory equipment and surfaces; operating room tables and lights; physical therapy (PT) equipment surfaces; tables; suture machines and respiratory therapy equipment; sphygmomanometers; diagnostic equipment, dialysis machines; patient monitoring equipment; patient support and delivery equipment. This product is not to be used as a terminal sterilization high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either in or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection. DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Dispense Wipes: Remove lid and discard inner seal from container. Find center of wipe roll, remove first wipe for use, twist corner of next wipe into a point and thread through the hole in the container lid. Pull through about one inch. Replace lid. Dispense remaining wipes as necessary by pulling out at an angle. When not in use keep center cap of lid closed to prevent moisture loss. TO CLEAN, DISINFECT AND DEODORIZE: Use a wipe to remove heavy soil. Unfold a clean wipe and thoroughly wet surface. Treated surface must remain visibly wet for a full four (4) minutes. Use additional wipes if needed to assure continuous 4 minute wet contact time. For food contact surfaces, rinse with potable water before use. These directions also apply to Mycobacterium borei-KG (Tuberculosis) at 61°F (16°C). Ultrasound transducers and probes: For use on external surfaces of ultrasound transducers and probes only. To disinfect: Pre-clean gel from external surface of ultrasounds transducer or probe to be disinfected by using a clean washcloth. Then thoroughly wet the probe with a wipe. Treated surface must remain visibly wet for a full four (4) minutes. Use additional wipes if needed to assure continuous four (4) minute wet contact time. Let air dry. MILLIS HV-1 (ADS VIRUS), HERPES B VIRUS (HSV) AND HERPES C VIRUS (HCV) ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS AND PRE-CLEANED EXTERNAL SURFACES OF ULTRASOUND TRANSDUCERS AND PROBES PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS: in one (1) minute at room temperature (68°F-77°F) or (20°C-25°C) in healthcare or other settings in which there is an expected likelihood of scaling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluid can be associated with the potential for transmission of Human Immunodeficiency Virus type 1 (HIV-1) (associated with AIDS), Hepatitis B Virus (HBV) and Hepatitis C Virus (HCV). SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1, HERPES B VIRUS (HSV) AND HERPES C VIRUS (HCV) OF SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS: PERSONAL PROTECTION: When using this product, wear disposable protective gloves, protective gowns, face masks, or eye coverings as appropriate when handling HIV-1 (ADS Virus), HSV or HCV infected blood or body fluids. Cleaning Procedure: All blood and other body fluids must be thoroughly cleaned from surfaces and objects before disinfection by the germicidal wipe. Open, unroll and use flat germicidal wipe to remove heavy soil. Disposal of infectious materials: Dispose of used wipe in accordance with local regulations for infectious waste disposal. CONTACT TIME: Use second germicidal wipe to thoroughly wet surface. Allow to remain wet one (1) minute. Let air dry. PRECAUTIONARY STATEMENTS: Hazards to Humans and Domestic Animals: CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash protective eyewear when dispensing and using this product. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. First Aid: Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment if ill or expose. Hold eye open and insert a few drops of water gently into the eye for several minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Physical or chemical hazard: This product contains bleach. Do not mix with other chemicals such as ammonia, toilet bowl cleaners, rust removers, or acid, as this releases hazardous gases. STORAGE AND DISPOSAL: Do not contaminate water, food, or feed by storage and disposal. Storage: Do not store near heat or open flame. When not in use keep center cap of lid closed to prevent moisture loss. TOWELETTES DISPOSAL: Do not reuse towels. Dis posed of used towels in trash. Do not flush in toilet. CONTAINER DISPOSAL: Non-refillable container. Do not reuse or refill this container. Triple rinse and offer for recycling. If recycling is not available, put in trash collection. EPA: Reg. No: 84892-B. EPA Est. No. A16408-A-0X1, C1-7956-HW-1, C1-1825-MW-1, DB-1551-MWH-1, EPA-05666-MW-1, F1-22858-HW-1, and F1-2286-HW-1. Alpha character will precede batch code on product.
