KEEP OUT OF REACH OF CHILDREN WARNING
See other precautions on side panel

Direct and repeat grouping of fungi, bacteria, fungi, filth, and other harmful insects and in the cracks, crevices and hidden locations where they habitually infer. Apply every 28 days or as often as necessary.

To Kill Mite Eggs and Ticks: Remove and destroy all bedding, MSR spray spaying parts of animals. EU areas, around beds, window, and door frame, cranny, balcony and wherever the pests of area are found. Spray such as to approach all. MSRs should be boldly done above the spray line. Spray all cracks, crevices and unobstructed areas. MSRs should be boldly done above the spray line. Spray all cracks, crevices and unobstructed areas. MSRs should be boldly done above the spray line.

To Kill Bedbugs, Cimex, Wasp and Flies: Contact in many insects as possible with the MSR. MSRs to top of all of the rooms suspected of harboring these pests. Special attention should be taken to corners, baseboards, under sinks, under stock, baseboards, over doors and windows, and where beds, tables, desks, chairs, and under and under seats and upholsteries. PRIMEL BURNTOOD: X-590 can be used in all the room s suspected of harboring these pests. Special attention should be taken to corners, baseboards, under sinks, under stock, baseboards, over doors and windows, and where beds, tables, desks, chairs, and under and under seats and upholsteries.

To Kill Flies, Wasps, Ants and Moths: Clean all all flies in applicators. Thermally spray to top of all and corners. Thermally spray to the notches, corners, cracks, windows, and doors. MSRs to top of all of the rooms suspected of harboring these pests. Special attention should be taken to corners, baseboards, under sinks, under stock, baseboards, over doors and windows and where beds, tables, desks, chairs, and under and under seats and upholsteries.

To Kill Birds, Squirrels, and Other MI: Keep all slits, doors, and windows closed. Thermally spray to top of all and corners. Thermally spray to the notches, corners, cracks, windows, and doors. MSRs to top of all of the rooms suspected of harboring these pests. Special attention should be taken to corners, baseboards, under sinks, under stock, baseboards, over doors and windows and where beds, tables, desks, chairs, and under and under seats and upholsteries.

GENERAL METHODS OF APPLICATION

Surfaces and objects must be cleaned before application by suitable detergent method. Surfaces and objects which will be thoroughly rinsed (do not wipe to point of sight or use) are wipe enough so that breeding surfaces and objects remain free of at least 15 minutes. Tables and chairs should be cleaned with a soap or detergent, hard-surfaced objects, allowing by 15 minutes. For felling and other large volume applications use appropriate spray equipment, protective clothing, gloves and masks. Hand held sprayer must be readily sprayed with paper or other readily available materials for felling and other large volume applications. ALE, MEGALADION, BACSO, AND BACSO SPRAY INJECTANT KIT (bliss, must grease, and other protective equipment) to the work area, applying sprays, cleaning, and other equipment to the work area. Such as the injector, etc. ALE, MEGALADION, BACSO, AND BACSO SPRAY INJECTANT KIT (bliss, must grease, and other protective equipment) to the work area, applying sprays, cleaning, and other equipment to the work area. The product is not to be used as an agent for the treatment of rice, wheat, corn, or other grains. The product is not to be used as an agent for the treatment of rice, wheat, corn, or other grains. The product is not to be used as an agent for the treatment of rice, wheat, corn, or other grains.

PHYSICAL AND CHEMICAL PROPERTIES

Flammable. Keep away from heat and open flame.

PRODUCTION FOR USE

It is a violation of Federal Law to use the product for any reason inconsistent with the label.

GENERAL PROHIBITIONS AND REQUIREMENTS

Prior to applying a treated product, read and follow all precautions stored in the container. Do not allow exposed skin or contact with the treated area. Do not touch treated surfaces. Do not use air sprays or other forms of treated spray. Do not expose eyes, mouth, or any other part of the body to treated areas. Do not smoke, drink, or eat within 10 ft of treated areas. Do not allow children or pets in treated areas. Do not use treated water for irrigation. Do not allow children or pets to play in treated areas. Do not allow children or pets to play in treated areas. Do not allow children or pets to play in treated areas. Do not allow children or pets to play in treated areas. Do not allow children or pets to play in treated areas. Do not allow children or pets to play in treated areas. Do not allow children or pets to play in treated areas.

General recommendations: Use only as directed. Keep out of reach of children. Not for use in food or feed production. Not for use in food or feed production. Not for use in food or feed production. Not for use in food or feed production. Not for use in food or feed production. Not for use in food or feed production. Not for use in food or feed production.

SHAKE WELL BEFORE AND DURING USE
U.S. Patent No. 3,458,629
DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Microban® Formula X-590 Institutional Spray should be applied with hand or power operated sprayers, foggers, automated metering systems or gravity drip dispensers as an insecticide, bactericide, mold and mildewcide, fungicide and deodorizing agent, to previously cleaned surfaces. Spray areas until thoroughly moist, giving special attention to cracks and crevices. Allow ten to twenty minutes for drying. It is not necessary to wipe the sprayed surface. Microban should not stain those materials not stained by water.

Direct and repeat spraying of Ants, Roaches, Bedbugs, Silverfish and other harmful insects and the cracks, crevices and hidden surfaces where they hide are necessary for control. Apply every 28 days or as often as needed.

**To Kill Fleas and Ticks:** Remove and destroy old animal bedding. Spray sleeping quarters of animals, floor areas, around baseboards, window and door frames, cracks, crevices and wherever the presence of these insects is suspected. Repeat as necessary. Thoroughly vacuum rugs and carpets prior to application. Do not spray animals. Put fresh bedding in animal quarters after spray has dried. Treat animals with a registered flea and tick control product before allowing them to enter treated area.

**To Kill Sowbugs, Centipedes, Firebrats and Mites:** Contact as many insects as possible with the spray. Also thoroughly spray all parts of the room suspected of harboring these pests. Special attention should be paid to cracks, crevices, hidden surfaces under sinks, basement and utility rooms, floors, doorjambs, behind and under stoves and refrigerators.

**To Kill Flies, Mosquitoes, Gnats and Wasps:** Close all doors and windows and spray upward into center of room with a slow sweeping motion. Spray 5-10 seconds for average room. Keep room closed for 15 minutes after spraying. Ventilate room thoroughly before re-entry. Sweep up and destroy fallen insects. Before spraying cover exposed food and utensils.

**To Kill Carpet Beetles, Lice and Moths:** Clean all articles prior to application. Thoroughly spray top and undersides of rugs and carpets. Thoroughly spray the interiors of lockers, trunks, closets, cupboards and other storage areas. Spray directly on restroom fixtures. When treating upholstered furniture and mattresses thoroughly spray exterior, paying particular attention to seams and folds. Interior should be treated to eliminate hidden infestations.

Microban® X-590 Institutional Spray when used as directed is effective in decontaminating the treated exposed surfaces of bedding, mattresses, textiles, drapes, upholstered furniture, rugs, carpets and in storage areas to control mold, mildew, fungus, insects and odors wherever they are a problem.

GENERAL METHOD OF APPLICATION

Surfaces and objects must be cleaned of gross filth with suitable detergent before treatment. Spray surfaces and articles until thoroughly wet, use enough so that treated surfaces and objects remain wet for at least 10 minutes. May be applied with a sponge to pre-cleaned, hard non-porous surfaces, allowing to dry for 10 minutes. For fogging and other large volume applications use appropriate spraying equipment, protective clothing, gloves and respirator. Heavily treated spaces should be adequately ventilated and not re-entered for at least one hour after treatment.

**AS A MILDEWCEIDE, FUNGICIDE AND BROAD SPECTRUM DISINFECTANT:** (Kills most gram negative and gram positive bacteria and influenza virus). In hospitals, operating rooms, emergency rooms, lobbies, hallways, patient rooms, wards, washrooms, scrub stations, mop rooms, morgues, pathology labs, nurse's stations, laboratories, veterinary clinics and other health care facilities; in schools, hotels, motels, restaurants, offices, homes and industrial buildings.
For use on pre-cleaned hard non-porous surfaces such as glazed tiled porcelain, waste receptacles, compactors, on, in and around rest room fixtures, toilet seats, locker rooms, telephones, door knobs, hospital apparatus and equipment, furniture, empty containerized storage units. For athletes foot fungus on floors, shower stalls and rest rooms. Follow method of application specified above.

**AS A BACTERIOSTAT, FUNGISTAT AND DEODORIZING AGENT**

Apply Microban Formula X-590 as directed to floors, walls, ceilings that have been damaged by smoke, fire, floods and sewage backups. For cleanup operations in areas such as attics, wall voids, basements, areas above suspended ceilings and similar inaccessible spaces in buildings. Spray avian, rodent and other animal and human wastes and carcasses as directed above, prior to removal and disposal. Treat spaces and surfaces as specified in method of application. For use as a bacteriostat, fungistat and deodorizing agent on carpeting found in schools, hotels, motels, homes, shelters and commercial and residential buildings. After flood or water damage, vacuum or extract as much water as possible before application. Apply full strength with sprayer until moist to carpet nap and rake or brush in. To treat the backing or padding a fogger is recommended. Allow to remain until dry. For best results, carpets should be cleaned before application.

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

**TO DISINFECT FARM PREMISES, POULTRY HOUSES, ANIMAL PENS AND VEHICLES**

Remove all animals and feed from premises, vehicles and enclosures. Remove all litter and manure from floors, walls and surfaces of barns, pens, stalls, chutes and other facilities and fixtures occupied or traversed by animals. Empty all troughs, racks and other feeding and watering appliances. Thoroughly clean all surfaces with soap or detergent and rinse with water. Saturate all surfaces with the recommended disinfecting solution for a period of 10 minutes. Immerse all halter, ropes and other types of equipment used in handling and restraining animals, as well as forks, shovels and scrapers used for removing litter and manure. Ventilate buildings, cars, boats and other closed spaces. Do not house livestock or employ equipment until treatment has been absorbed, set or dried. Thoroughly scrub all treated feed racks, mangers, troughs, automatic feeders, fountains and waterers, with soap or detergent, and rinse with potable water before reuse. Apply Microban X-590 full strength as directed in general method of application until thoroughly wet. Allow all surfaces to dry thoroughly. Ventilate enclosed spaces adequately. Do not house animals in treated areas until thoroughly dry and free from odors. Thoroughly scrub all treated feed racks, mangers, troughs, automatic feeders, fountains and waterers with soap or detergent and rinse with potable water before reuse.

**PRECAUTIONARY STATEMENTS:**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**WARNING:** May be harmful if swallowed (inhaled or absorbed through the skin). Do not breathe vapors (dust or spray mist). Do not get in eyes, on skin or on clothing. May cause eye (and skin) irritation.

**STORAGE AND DISPOSAL**

**STORAGE:** Keep from freezing. Store in ventilated areas. Do not contaminate water, food or feed by storage and disposal. Dispose left overs in landfill approved for pesticides.

**PESTICIDE DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site at an approved waste disposal facility.

**CONTAINER DISPOSAL:** Large containers (55 gallon drums and 5 gallon pails): Triple rinse (or equivalent) all containers and offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by procedures approved by state and local authorities. Small container (1 gallon or less): Rinse thoroughly and discard with trash.
SHAKE WELL BEFORE AND DURING USE
TEST FABRIC OR SURFACE IN AN INCONSPICUOUS AREA FOR COLOR FASTNESS OR ADVERSE REACTION

WARNING: May be harmful if swallowed (unlabeled or absorbed through the skin). Do not breathe vapors or fumes. Keep out of the reach of children. If swallowed, induce vomiting. Call a poison control center or doctor immediately. If on skin or clothing: Take off contaminated clothing. Rinse exposed area(s) with water. Call a doctor or health professional.

IF IN EYES: Hold open eye and wash slowly and gently with water for 15 to 30 minutes. Remove contact lenses, if present, after the first 5 minutes, and continue rinsing eye. Call a doctor or health professional.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse exposed area(s) with water. Call a doctor or health professional.

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

PRECAUTIONARY STATEMENTS

Read the precautionary statements to ensure safe handling and use of the product.

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Environmental Hazards

Do not allow this product to contact streams, ponds, or other water bodies, or to enter groundwaters. Do not apply in a manner that may cause runoff to groundwaters or surface waters.

If you have questions about the environmental effects of this product, contact your local wastewater agency or the Environmental Protection Agency at 1-800-438-4318.

Physical and Chemical Hazards

Physical and chemical hazards may include corrosion, fire, or explosion. Follow the precautions outlined in the safety data sheet (SDS) for safe handling and use.

Mixtures: This product contains a mixture of ingredients that may result in increased hazards.

User Safety Recommendations: Avoid contact with skin, eyes, or mucous membranes. Wash hands after handling.

General Precautions and Restrictions

General precautions and restrictions may include the following:

- Do not apply to a wet or damp surface.
- Do not apply to a surface that is wet or damp with water, such as a recently cleaned or washed surface.
- Do not apply to a surface that is wet or damp with a different product.
- Do not apply to a surface that is wet or damp with a different solvent.
- Do not apply to a surface that is wet or damp with a different surfactant.

Physical and Chemical Hazards

Physical and chemical hazards may include corrosion, fire, or explosion. Follow the precautions outlined in the safety data sheet (SDS) for safe handling and use.

To treat the backing or padding a fogger is recommended. Allow to remain until dry. For best results, carpets must be cleaned before application. This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

**TO DISINFECT FARM PREMISES, POULTRY HOUSES, ANIMAL PENS AND VEHICLES**

Remove all animals and feed from premises, vehicles and enclosures. Remove all litter and manure from floors, walls and surfaces of barns, pens, stalls, chutes and other facilities and fixtures occupied or traversed by animals. Empty all troughs, tanks and other feeding and watering appliances. Thoroughly clean all surfaces with soap or detergent and rinse with water. Saturate all surfaces with the recommended disinfecting solution for a period of 10 minutes. Immerse all halters, ropes and other types of equipment used in handling and restraining animals, as well as forks, shovels and scrapers used for removing litter and manure. Allow all surfaces to dry thoroughly. Ventilate buildings, cars, boats and other enclosed spaces. Do not house livestock or employ equipment until treatment has been absorbed, set or dried. Thoroughly scrub all treated feed racks, mangers, troughs, automatic feeders, fountains and waterers, with soap or detergent, and rinse with potable water before reuse. Do not apply more than one time per day.

Do not contaminate water, food or feed by storage and disposal.

**PESTICIDE STORAGE:** Keep from freezing. Store in ventilated areas.

**PESTICIDE DISPOSAL:** To avoid wastes, use all material in this container by application according to label directions. If wastes cannot be avoided, offer remaining product to a waste disposal facility or pesticide disposal program (often such programs are run by state or local governments or by industry).

**CONTAINER DISPOSAL:** Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. If recycling is not available, puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
