HARD SURFACE
COMMERCIAL LINE

KILLS: E. COLI, SALMONELLA ENTERICA,
LISTERIA MONOCYTOGENES,
CAMPYLOBACTER JEJUNI AND NOROVIRUS

- NO RINSE FORMULA
- ODORLESS
- READY TO USE

ACTIVE INGREDIENTS
SILVER † 0.003%
CITRIC ACID 4.846%
OTHER INGREDIENTS 95.151%
TOTAL 100.000%
† Electrolytically generated silver ions stabilized in citric acid as silver dihydrogen citrate

DISINFECTANT,
FUNGICIDE,
VIRUCIDE* AND
FOOD CONTACT
SURFACE SANITIZER

NET CONTENTS 1 QT

Keep Out of Reach of Children

KILLS GERMS IN 30 SECONDS‡
DIRECTIONS FOR USE:
IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

This product is a colorless, odorless, broad spectrum antimicrobial sanitizer, disinfectant and deodorizer. Proven to kill bacteria, fungus and viruses, this product should be used on non-porous environmental hard surfaces in restaurants, homes, food processing plants, food storage areas, supermarkets, kitchens and dining halls.

This product has been formulated to treat hard, non-porous environmental surfaces (painted, glazed tile, plastic, metal, glass, glazed porcelain) and objects including counters, kitchen surfaces, dish racks, food processing equipment, coolers, grills, cooking equipment, food trays, food cases, sinks and ice machines.

GENERAL INFORMATION
This product successfully killed the following organisms under AOAC protocols. (In order to ensure that all organisms listed are killed, you must use the contact times as directed in the Application Instructions):

APPLICATION INSTRUCTIONS:

Pre-clean surfaces prior to using this product.
You may use this product for pre-cleaning. General Cleaning:
Apply to surface until thoroughly wet, then wipe the surface clean.

GENERAL DISINFECTION: To kill bacteria, apply this product to the surface until thoroughly wet for 2 minutes. The surface may then be wiped dry with a clean towel. When used as directed, this product provides residual protection from *Pseudomonas aeruginosa*, *Staphylococcus aureus* and *Salmonella enterica* up to 24 hours after initial application. Do not touch treated surface after application if residual protection is to be maintained.

FUNGUS CONTROL: To kill fungus, apply this product to the surface until thoroughly wet for 10 minutes. The surface may then be wiped dry with a clean towel. Re-apply when cleaning or when new growth appears.

*VIRAL CONTROL: To kill viruses, apply this product to the surface until thoroughly wet for 10 minutes. The surface may then be wiped dry with a clean towel.

This product has demonstrated effectiveness against Influenza A virus and is expected to inactivate all influenza A viruses including Pandemic 2009 H1N1 Influenza A virus.

Kills HIV-1 on pre-cleaned environmental surfaces/objects previously soiled with blood/body fluids in health care settings (or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of HIV):

Instructions for Cleaning and Decontamination Against HIV on pre-cleaned environmental surfaces/objects previously soiled with blood/body fluids: Personal Protection: When handling items soiled with blood or body fluids, use appropriate barrier protection such as latex gloves, gowns, masks and eye coverings. Cleaning Procedure: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this disinfectant. Contact Time: Apply this product to area to be treated. The surface must be completely wet with this product for 30 seconds. The surface may then be wiped dry with a clean towel. This contact time will not control all organisms listed on this label. Refer to application instructions for other organisms. Disposal of Infectious Materials: Blood and other body fluids should be autoclaved and disposed of according to federal, state and local regulations for infectious waste disposal.

SANITIZATION OF FOOD CONTACT SURFACES:

Do not use this product on utensils, dishes or glassware.

TO SANITIZE FOOD CONTACT SURFACES: Spray, pour or spread this product on surface until thoroughly wet. Let stand for 60 seconds and wipe with a clean towel or allow to air dry. No rinsing is required. Kills 99.999% of *Escherichia coli* and *Staphylococcus aureus*.

To sanitize food processing equipment and other hard surfaces in food processing locations, dairies, restaurants and bars: Prior to use in federally inspected meat and poultry plants and dairies, food products and packaging materials must be removed from the room or carefully protected. A potable water rinse is not permitted following the use of this product as a sanitizer on previously cleaned hard, non-porous surfaces, provided that the surfaces are adequately drained before contact with food so that little or no residue remains.
APPLICATION INSTRUCTIONS (CONT'D):

Apply product to pre-cleaned hard surfaces by thoroughly wetting surfaces with a cloth, mop, sponge, sprayer or by immersion. Surfaces should remain wet for 1 minute followed by adequate draining and air drying.

This product is a ready to use sanitizer that eliminates 99.999% of the following bacteria in 60 seconds: *Escherichia coli* (ATCC 11229), *Staphylococcus aureus*.

DIRECTIONS FOR SANITIZING FOOD PROCESSING EQUIPMENT AND FOOD CONTACT ARTICLES REGULATED BY 21CFR Sec. 178.1010: b(22), c(17):

1. Scrape, flush or pre-soak articles to remove gross food particles and soil.
2. Thoroughly wash articles in an appropriate detergent or cleaner.
3. Rinse articles thoroughly with potable water.
4. Sanitize articles by immersion in this product for 60 seconds. Articles too large for immersion should be thoroughly wetted with this product by rinsing, spraying or swabbing.
5. Remove immersed items from solution to drain and air dry. Non-immersed items should also be allowed to air dry.

U.S. PUBLIC HEALTH SERVICE FOOD SERVICE SANITIZATION RECOMMENDATIONS CLEANING AND SANITIZING:

Equipment shall be thoroughly pre-flushed or pre-scraped and pre-soaked when necessary to remove gross food particles and soil.

1. Thoroughly wash equipment in a hot detergent solution. Rinse equipment thoroughly with potable water.
2. Sanitize equipment by immersion for 60 seconds at a temperature of 75°C.
3. For equipment that is too large to immerse, apply by rinsing, spraying or swabbing until thoroughly wetted.
4. Allow sanitized surfaces to drain and air dry. No potable water rinse is allowed.

To refill spray bottles:

1. Remove trigger sprayer from empty bottle.
2. Remove cap from refill and pour contents directly into empty bottle.
3. Replace trigger sprayer and use as you normally would.

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream, or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store in a cool, dry area away from direct sunlight at temperatures above freezing.

PESTICIDE DISPOSAL: Nonrefillable Container. Refill only with this product. Do not reuse or refill except as described in the directions for use. If empty: Place in trash or offer for recycling if available. Rinse thoroughly before discarding in trash or recycling.

IN CASE OF EMERGENCY: Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact CHEMTREC 1-800-424-9300 for emergency medical treatment information.
