Ant Control Tips: Place the gel near ant trails without disrupting the ants to ensure the entire colony is exposed to the bait. Impact regularly after placing gel. If gel has been consumed and ants are still present, reapply. Do not apply gel where the surface temperature is exceedingly hot because the gel could harden.

**Recommended placement of gel bait:**
- Kitchen
  - On windowsills and cabinets
  - Under refrigerator and other appliances
  - Under sink
  - Under dishwasher
  - Under sink
  - At drain area
  - Under sink
  - At sink area
  - Bathtub
  - Behind toilet
  - Behind sink
  - At wall area
  - Cabinet edges and corners inaccessible to children and pets

**Storage and Disposal:**
Do not contaminate water, food or feed by storage or disposal. Precautionary statements: Wear protective clothing and safety devices when handling this product. Do not use or store where children or pets can get to them. Wash all work clothes before reuse. Do not use or store in the vicinity of pets or livestock. If eye exposure occurs, flush eyes with abundant water for at least 15 minutes. If ingestion occurs, do not induce vomiting. If medical assistance is needed, call 1-800-280-3858. For more information, contact the National Poison Control Center at 1-800-280-3858. Disposal should be made in accordance with local, state, and federal regulations.
