Spartan II Brand Disinfectant Deodorant is for use on hard, nonporous surfaces in hospitals, schools, hotels, office buildings, industrial plants and other medical, commercial, institutional or industrial facilities where a sanitary environment is important; on bathroom and lavatory fixtures, tile floors, wall surfaces, or any other surface exposed to contamination by body fluids.

This product is not to be used as a terminal high-level disinfectant on any surfaces or equipment that are introduced directly into the human body, other than the skin. It is intended for use on those nonporous, normally sterile surfaces of the body, or on contact with those normally sterile areas of the body. This product may be used to prevent or decontaminate critical or semi-critical medical devices prior to sterilization in high level disinfection.
