SimpleGuard 3™

- Repels and kills fleas, lice, and mosquitoes for one month
- Kills 4 species of ticks (Rhipicephalus spp, Dermacentor variabilis, Ixodes spp, Amblyomma americanum). 3 types of mosquitoes (Culex spp, Ochlerotatus spp, Anopheles spp), and all stages of ticks
- Begins reducing flea feeding in 5 minutes
- Starts to kill fleas within 2 hours
- Repels and kills ticks that may transmit Lyme disease, Rocky Mountain Spotted fever, babesiosis, ehrlichiosis, bartonellosis, hepatozoonosis, and anaplasmosis
- Easy, spot-on topical application
- Continues to kill and repel fleas and tick after shampooing
- Only available from licensed veterinarians

After application, SimpleGuard spreads over the dog’s body to provide full body protection against fleas, ticks, and mosquitoes.

ACTIVE INGREDIENTS:
- Delfosfuran: 8.95%
- Pyriproxyfen: 4.44%
- Preremethrin: 36.68%
- OTHER INGREDIENTS: 58.52%

TOTAL: 100.00%

READ ENTIRE LABEL BEFORE EACH USE
USE ONLY ON DOGS OR PUPPIES OVER 7 WEEKS OLD

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

External use on dogs only. Do not use this product on cats.

Use only on dogs and puppies over the age of 7 weeks (1.6 kg) and 3.6 kg, respectively.

WARNING: Causes substantial, but temporary eye injury. Harmful if swallowed or absorbed through skin. DO NOT get in eyes or on clothing. Avoid contact with eyes, mouth, and other mucous membranes. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco products.

Do not apply this product to debilitated, aged, debilitated, pregnaant or nursing dogs or cats.

Individual sensitivity, such as slight transient redness, erythema or pruritus at the site of application, may occur after using ANT pesticide product for dogs. If signs of sensitization occur, bathe your dog with mild soap and shampoo and rinse with large amounts of water. If signs of individual animal sensitivity occur and persist, contact your veterinarian. Have the product container or label with you when calling your veterinarian for advice.

DO NOT USE ON CATS. Due to their unique physiology and inability to metabolize certain compounds, this product must not be used on cats. If applied to a cat, or ingested by a cat that actively gnaws a recently treated dog, this product may have serious harmful effects. If this occurs, contact your veterinarian immediately.

FIRST AID

If eyes exposed:
Hold eye open and rinse slowly and gently with water for 15 – 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center, or doctor for treatment advice.

If swallowed:
Induce vomiting unless told to do so by a poison control center or doctor. Have person sip a glass of water if able to swallow. Do not give anything by mouth to an unconscious person.

If skin exposed:
Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 – 20 minutes. If skin appears irritated after rinsing call a poison control center or doctor, or 1-877-847-3959 after 6 pm EST call 1-888-426-4425 immediately for treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may contact 1-877-847-3959 or after 6 pm EST call 1-888-426-4425 for emergency medical information.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. [Prensacler al consumarse si usted no usa engles, no use este producto hasta que la etiqueta le haya sido explicada ampliamente.] (To the user: If you cannot speak English, do not use this product until the label has been fully explained to you.)

HOW TO APPLY

1. USE ONLY ON DOGS. DO NOT USE ON CATS OR OTHER ANIMALS.
2. Remove applicator from package.
3. The dog should be standing or in a comfortable position for easy application.
4. Holding the applicator tube upright, pointing away from face, place thumb and index finger around the applicator tip under the large disk. With other hand, grasp the stem of applicator tip above smaller disk. Press down firmly on small disk until both disks meet, piercing the seal. See illustration.
5. Using the tip of the applicator, part the hair down to the level of the skin and slowly apply the product. Do not make superficial application to dog’s hair.

6. Discard empty applicator tube as outlined in Storage and Disposal.
7. Repeat every month as recommended by your veterinarian but not more often than every 30 days.
8. For optimum treatment, control and prevention of outdoor and indoor fleas, ticks, mosquitoes, lice, and mites (excluding mange mites) and biting and sand flies year-round treatment is recommended.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

Storage: Store in a cool, dry place. Protect from freezing.

Disposal: If empty, do not reuse the container. Place in trash or offer for recycling if available. If partially filled, call your local solid waste agency for disposal instructions.

Never pour unused products down any indoor or outdoor drain.

LIMITED WARRANTY AND LIMITATION OF DAMAGES

Seller warrants that the material conforms to the chemical parameters of the US EPA registration and the label. To the extent consistent with applicable law seller makes no warranty, express or implied, other than indicated on the label. Buyer and user assume all risk of use and handling of this material. To the extent consistent with applicable law any damages arising from a breach of this warranty shall be limited to direct damages and shall not include consequential or indirect damages such as loss of profit or values.

Volume varies with size of animal for which package is intended and number of applicators per package. Product packaged in 5 applicators per package. Total volume will correspond to number of applicators.
