PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER: EXTREMELY HAZARDOUS LIQUID AND VAPOR UNDER PRESSURE. FATAL IF INHALED OR INGESTED. CORROSIVE. CAUSES SKIN BURNS AND IRREVERSIBLE EYE DAMAGE. WHICH MAY HAVE A DELAYED ONSET. DO NOT BREATHE VAPOR OR DUST. INHALATION MAY CAUSE SERIOUS ACUTE ILLNESS, OR DELAYED LUNG, OR NERVE INJURY. DO NOT GET IN EYES, ON SKIN OR ON CLOTHING.
NOTE: CHLOROPHOSYN MAY BEIRRITATING TO THE UPPER RESPIRATORY TRACT AND EVEN MAY CAUSE HARMFUL BURNS. SMOKE CAN CAUSE PAINFUL BURNING TO THE EYES. PRODUCING TEAR GAS IF THESE SYMPTOMS OCCUR, LEAVE THE FUMIGATION AREA IMMEDIATELY.

PERSONAL PROTECTIVE EQUIPMENT (PPE)
Some materials that are chemical-resistant to this product are listed below. For more options, follow the instructions for Cagayan de Oro on the chemical-resistance category selection chart. PPE constructed of Saranex, neoprene, and chlorinated polyethylene provides short-term contact or splash protection against liquid in this product. Long-term protection is provided by PPE constructed of Viton, Teflon, or EPDM barrier laminates. (For example, sprayer suits made by Life Guard.) Silver-bonded neoprene is manufactured by North. Where chemical-resistant materials are required, latex, neoprene, or cotton materials offer no protection from this product and must not be worn as the sole article of protection when contact with this product is possible.

When performing tasks with a potential for contact with liquid fumigant, all handlers (including applicators) must:

- Wear long-sleeved shirt and long pants, shoes, and socks.
- Wear heavy, loose-fitting clothing, rubber-resistant gloves, rubber protective clothing, or rubber boots when handling. Mixed materials can beapped inside clothing and cause skin irritation.
- Wash hands with soap and water immediately and follow proper cleaning procedures.

In addition, when an applicator is required under this label's Directions for Use, all handlers (including applicators) must wear:
- Long-sleeved shirt and long pants, shoes, and socks.
- Chemical-resistant shoes.
- Protective eyewear (DO NOT wear goggles), and
- Chemical-resistant footwear with socks.

In addition, when an applicator is required under this label's Directions for Use, Protection for Handlers, Respiratory Protection and Stop Work Trigger section, handlers (including applicators) must wear:
- A NIOSH-certified N95 respiratory protective mask with cartridges certified by the manufacturer for protection against vapor. In addition, respirators should be worn at concentrations up to 5 ppm (e.g., a 3M spray/painting respirator equipped with a 3M Model 5812 Organic Vapor/ｃｏｍｐｏｓｅｒ Cartridge).

IMPORTANT! A well-ventilated breathing apparatus (SCBA) is not permitted for rescue and handler tasks.

In the event of an emergency when corrective action is needed to relieve air concentrations to acceptable levels, wear an SCBA. Escape-only SCBA respirators must be used by handlers for responding to emergencies. In addition, wear PPE required for potential contact with liquid fumigant.

See label legend for additional Precautionary Statements.

NOTICE: Contains methyl bromide, a substance which harms public health and the environment by destroying ozone in the upper atmosphere.

RESTRICTED USE PESTICIDE
DUE TO ACUTE TOXICITY
For retail sale to and use by certified applicators or persons under their direct supervision only and for these tasks covered by the certified applicator's certification.

Tri-Con 33/67 Pre-Plant Soil Fumigant
ACTIVE INGREDIENTS:
Chloropicrin.................................................. 66.6%
Methyl Bromide.......................................... 33.4%
OTHER INGREDIENTS:........................................ 0.4%
TOTAL:............................................................ 100.0%
KEEP OUT OF REACH OF CHILDREN
DANGER
POISON
PELIGRO

IF INHALED:
• Move person to fresh air.
• If person is unconscious,给予 first aid measures as needed and call emergency services immediately.
• If not breathing, give resuscitation, preferably by mouth-to-mouth, if possible.
• If vomiting, call a poison control center or doctor for further treatment advice.

IF SWALLOWED:
• Call a poison control center or doctor immediately for treatment advice.
• Do not induce vomiting unless told by a poison control center or doctor.
• Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING:
• Take off contaminated clothing.
• Wash skin immediately with plenty of water for 15-20 minutes.
• Call a poison control center or doctor for further treatment advice.

IF IN EYES:
• Hold eyes open and rinse slowly and gently with water for 15-20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes.
• Call a poison control center or doctor for treatment advice.

Note: Keep the product container or label with you when calling a poison control center or doctor, or going for treatment.

EMERGENCY PHONE NUMBER: Chemtex 1-800-424-9300
NOTE TO PHYSICIAN
Early symptoms of overexposure to methyl bromide are dizziness, headache, nausea, vomiting, weakness, and collapse. Long actions may develop in 2 to 4 hours after exposure, accompanied by cardiac irregularities, these are the same causative effects. Promote recovery after a period of no exposure. Blood and urine tests suggest the occurrence, but not the degree, of exposure. Treatment is symptomatic.

DIRECTIONS FOR USE
Restricted Use Pesticide
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only handlers may be in the application zone before the start of the application and the entire restricted pesticide area, and no person shall be in the buffer zone during the buffer zone period. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

Agricultural Use Requirements
Use this product only in accordance with the label and in accordance with the Wisconisn Standard 48-7 FR 119. Refer to label instructions under "Agricultural Use Requirements" in the Directions for Use section for information on the standard.

Storage and Disposal
DO NOT CONTAMINATE WATER, FOOD, OR FEED.
AT STORAGE OR DISPOSAL
PESTICIDE Storage: Store in a dry, cool, well-ventilated area under lock and key. This is a pesticide storage area.
PESTICIDE Disposal: Pesticide waste is toxic. Improper disposal of excess pesticide, spray mixture, or residue is a violation of Federal Law. If these wastes cannot be disposed of by use according to labeled instructions, contact your State Pesticide or Environmental Control Agency, or the National Pesticide Information Center at the number listed below for proper disposal options.

See label legend for additional Precautionary Statements.
