Disinfectant, Sanitizer - Non-Food Contact Surfaces

PREPARATION OF NON-FOOD CONTACT SANITIZER SOLUTION (for floors, walls, tables, etc.): 1. Fill 1 quart or 4 gallons of water and apply to sanitizing face, non-food surfaces in areas. Apply with a cloth, mop, sponge, manual spray device or by immersion, thoroughly wetting all surfaces. For spray applications, use a coarse pump or trigger jet sprayer. Spray 4.5 fl. oz. from a 1 gallon bucket with a hose or sprayer to the treated surface until it is saturated. Rinse thoroughly with soap and water after handwashing and before eating, drinking, showing gum, using toothbrushes or using the toilet. Remove contaminated clothing and wash clothing before reuse.

EMOTIONAL HAZARD: This product is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, saltwater, seawater or other water bodies in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the regulatory authority that has been assigned wetting prior to disposal. Do not discharge effluent containing this product into water bodies without properly notifying the local waste management authority, local Port District or Regional Harbor Office of the EPA.

PHYSICAL CHEMICAL HAZARDS: Do not mix with other materials, acids or detergents.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Not for use as a medicinal device or medical equipment surface disinfectant on body cavities or cutaneous tissue.SAFE uses of this product are to disinfect oriental, glassware, stainless steel, surfaces in interior surfaces of appliances.

Apply this product with a cloth, mop, manual spray device or fumigating device. When applied with a manual spray device, surfaces to be sprayed should be thoroughly wetted. For disinfection, treated surfaces must remain wet for 10 to 15 minutes. For surface applications, use a coarse pump or trigger jet sprayer. Spray 4.5 fl. oz. from a 1 gallon bucket with a hose or sprayer to the treated surface until it is saturated. Rinse thoroughly with soap and water after handwashing and before eating, drinking, showing gum, using toothbrushes or using the toilet. Remove contaminated clothing and wash clothing before reuse.

POSITION OF PROTECTION: This product is an effective non-food contact sanitation as evaluated using the Method for Efficiency of Sanitizers recommended for Federal and Federal ContractoD(2)4
