USER SAFETY REQUIREMENTS:

Follow-up:

Replace bait stations if contents are consumed or contaminated.

Fresh bait for 10 days or until signs of rat or mouse activity cease in infested areas.

Purchased, place bait stations at 15 to 30 foot intervals. Maintain a constant supply of fresh bait. Place the T1 Rat bait station at highest point of activity beside burrows, along walls, by gnawed openings, in corners and concealed places.

Mice will most likely find and consume the bait. Generally, these areas are beside buildings consistent with all use restrictions and other requirements indicated on this label.

For control only of rats and house mice. T1 Rat bait station must be used in and around buildings accessible to humans and/or handling is contrary to label instructions. If reinfestation does occur, repeat treatment.

HARMFUL if swallowed or absorbed through skin. Do not get in eyes, on skin or clothing. Any person who retrieves carcasses or unused bait following application of this product must wash hands immediately.
