WATER PURIFICATION TABLETS

Purifies water for:
- Camping
- Hiking
- Trekking
- International travel

- Used globally: Over 10 billion liters of water treated annually
- Great value 50 tablet pack: Treats up to 100 quarts
- Achieves EPA microbiological water purification test standards
- Fast acting: Water ready to drink 30 minutes after mixing
- Doesn't contain iodine or chlorine
- 100% US manufactured active ingredient
- Kills 99.9999% of bacteria
- Great tasting drinking water - consistently

First Aid
If in eyes:
- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes; continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

If swallowed:
- Call a poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by the poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

If inhaled:
- Move person to fresh air if person is not breathing; call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth if possible.
- Call a poison control center or doctor for further treatment advice.

If on skin or clothing:
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-30 minutes.
- Call a poison control center or doctor for treatment advice.

NOTE TO PHYSICIAN: "Possible mucosal damage may contraindicate the use of gastric lavage."

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Method of Application:
This product is recommended for disinfecting raw or pre-treated (wells, cisterns and/or filters) water supplies intended for use as drinking water for humans. The source of water to be treated may be a natural lake, well, cistern or similar system at temperatures as low as 4°C. Prior to the addition of the sanitizer, remove all suspended material by filtration or by allowing it to settle to the bottom. Discard the clarified water in small containers and add one 5g Aquatabs® tablet to 15 gallons (57 liters) of water to obtain a 5ppm (0.25mg/L) available chlorine solution. Mix well for at least 10 minutes before standing. Aquatabs® are used for the disinfection of individual water systems, free of organic debris at room temperature. Add one 5g Aquatabs® tablet to 2 quarts of water to obtain a 1.2ppm (0.06mg/L) available chlorine solution. Mix well for at least 10 minutes before standing to disinfect.

STORAGE AND DISPOSAL
Do not contaminate water supply or feed by storage and disposal. Pesticide Storage: Keep product dry in a tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flames.

Pesticide Disposal: Pesticide wastes are acutely hazardous improper disposal of excess pesticides, spray residue or minute is a violation of the Federal law. If these wastes cannot be disposed of by use according to the instructions contact your state pesticide or environmental control agency and hazardous waste representative at the nearest EPA regional office for guidance.

Container Disposal: Do not reuse empty container. Empty of product thoroughly with water to dissolve all material before discarding. Securely seal container in several layers of newspaper and discard in trash.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER
Contains a contaminant that may cause eye damage. May be fatal if swallowed or inhaled. Harmful if swallowed or absorbed through skin. Do not use near skin or clothing. Do not breathe dust, vapor, or spray mist. Wear goggles or face shield or safety glasses. When working with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove contaminated clothing and wash before reuse.

Environmental Hazards
This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waterways unless in accordance with requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

Physical and Chemical Hazards
Contains strong oxidizing agents. Use only on clear, dry, neutral or mildly alkaline water. May produce chlorine gas which may cause eye irritation.

Emergency Handling: In case of contamination or decomposition do not retain container if possible. Provide access to fresh air and rest. Wash with soap and water.
