Have the product container or label with you when calling a poison control center or doctor; or going for treatment.

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**Method of Application**

This product is recommended for disinfecting raw or pre-treated (settled, coagulated and/or filtered) water supplies intended for use as drinking water for humans. The source of water to be treated may be a river, lake, well, stream or similar system at temperatures as low as 9°C. Prior to the addition of the sanitizer, remove all suspended material by filtration or by allowing it to settle to the bottom. Decant the clarified, contaminated water into a clean container and add one Aquatabs® tablet to 15 liters (4.2 gallons) of water to obtain a 2.6ppm (2.6 mg/L) available chlorine solution. Mix well for at least 10 minutes, leave to stand for 30 minutes before drinking. Aquatabs® are used for the disinfection of individual water systems free of organic debris at room temperature. At one Aquatabs® tablet to 2 quarts of water to obtain a 2.6ppm (2.6 mg/L) available chlorine solution. Mix well for at least 10 minutes, leave to stand for 30 minutes before drinking.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage and disposal.

Pesticide Storage: Keep product dry in a tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame.

Pesticide Disposal: Pesticide wastes are subject hazardous. Improper disposal of excess pesticide, spray mixture or rinse is a violation of the Federal Law. If these wastes cannot be disposed of by use according to label instructions contact your state pesticide or environmental control agency, or the hazardous waste representative at the nearest EPA regional Office for guidance.

Container Disposal: Do not water empty containers. Place empty containers thoroughly with water to dissolve all material before discarding. Securely wrap container in several layers of newspaper and discard in trash.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**DANGER**

Corrosive. Causes irreversible eye damage. May be fatal if inhaled. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or on clothing. Do not breathe dust, vapor or spray mist. Wear goggles or face shield or safety glasses. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash before reuse.

**Environmental Hazards**

This pesticide is toxic to fish and aquatic organisms.

**Physical and Chemical Hazards**

Contains strong oxidizing agent. Use only clean dry utensils. Use only in water. Contamination with moisture, dirt, organic matter, other chemicals (including other food chemicals) or any other foreign matter may start a chemical reaction with generation of heat, liberation of hazardous gases and possible generation of fire and explosion. Avoid any contact with flaming or burning materials such as a lighted cigarette. Do not use this product in any chlorinating device which has been used with any inorganic or unstable chlorinating compound (e.g., calcium hypochlorite). Such use may cause explosion.

Emergency Handling: In case of contamination or decomposition do not rinse container if possible, isolate container from open and well ventilated area. Flood with large volumes of water. Dispose of contaminated material in an approved landfill area.
