AQUCAR™ DB 20 Water Treatment Microicide

DIRECTIONS FOR USE

IE is a violation of federal law to use this product in a manner inconsistent with the labeling.

NOTE: ADD AQUCAR™ DB 20 WATER TREATMENT MICROICIDE IMMEDIATELY TO THE SYSTEM. DO NOT MIX IT WITH OTHER ADDITIVES. IN ORDER TO AVOID CROSS-POLLUTION OF AQUCAR DB 20 WITH OTHER TREATMENTS, TREATMENT UNITS SHOULD BE CLEANED, DRAINED, AND RINSED WITH CLEAN WATER BEFORE TREATMENT. TREATMENT SYSTEMS SHOULD BE RINSED WITH CLEAN WATER BEFORE AND AFTER USING WATER TREATMENT MICROICIDE.

INDUSTRIAL AGRICULTURAL WATER COOLING TOWERS

AQUCAR™ DB 20 WATER TREATMENT MICROICIDE is a highly effective, broad-spectrum biocide designed for use in cooling towers. It is effective against a wide range of microorganisms, including bacteria, fungi, and algae. It is recommended for use in cooling towers to control and prevent biofilm formation, which can reduce the efficiency and performance of the system.

AQUCAR™ DB 20 WATER TREATMENT MICROICIDE is suitable for use in cooling towers with a capacity of up to 100,000 gallons. It is formulated to be compatible with most cooling tower equipment and materials.

AQUCAR™ DB 20 WATER TREATMENT MICROICIDE is available in 55-gallon drums and 100-gallon containers.

SAFETY PRECAUTIONS

AQUCAR™ DB 20 WATER TREATMENT MICROICIDE is a concentrated biocide and must be used with caution. Read the label and follow all safety instructions before use. Keep out of reach of children.

Personal Protective Equipment

- Eye protection
- Face protection
- Respiratory protection

Engineering Controls

Ventilation equipment should be used when the biocide is used in a confined space. Personal protective equipment (PPE) should be used when handling the biocide.

USER SAFETY REQUIREMENTS

- Detailed instructions for use and handling should be provided to all personnel who will be exposed to the biocide.
- The biocide should be stored in a secure area, away from food, water, and other materials.

APPLICATION RESTRICTIONS

- Do not apply to plants or animals. Do not apply to living tissue.

ENVIRONMENTAL HAZARDS

The biocide is biodegradable and does not pose a significant risk to the environment. However, improper disposal of the biocide can cause pollution. Follow local regulations for the disposal of the biocide.

STORAGE AND DISPOSAL

- Store in a cool, dry, well-ventilated area.
- Do not mix with other chemicals or materials.
- Do not dispose of the biocide in surface waters or storm drains.
