**DIRECTIONS FOR USE**

This is a violation of Federal Law to use this product in a manner inconsistent with the label.

**IN CASE OF AN EMERGENCY**

- Encourage breathing if not breathing; if breathing is difficult, give artificial respiration.
- Do not give by mouth if patient is unconscious.
- Call a poison control center or doctor for treatment advice.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by the poison control center or doctor.
- If swallowed:
  - Give 2-4 cups of water if able to swallow.
  - Call a poison control center or doctor for treatment advice.
- If in eyes:
  - Hold eye open and rinse slowly and gently with water for 30 minutes.
  - Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
  - Obtain prompt medical treatment, preferably from an ophthalmologist.

**PAPER MILLS**

- For control of bacterial, fungal, and viral growth in pulp, paper, and paperboard mills, add AQUCAR™ DB 20 Water Treatment Microbiocide at the rate of 0.1-0.5 ppm by weight of paper or paper basis. Add it continuously or in discrete shots, depending upon the size of the paper mill and the severity of the contamination. It may be made into a working solution in water preceding addition to the system.

**PAPER-makers**

- Add AQUCAR™ DB 20 Water Treatment Microbiocide in the amount of 0.01 to 0.1 ppm by weight to the system.
