Garden Pest Bait
INSECT, SLUG AND SNAIL BAIT
For Outdoor Use Around Residential Sites

- Convenient. Easy-to-use. Requires no mixing, spraying, or special applicators.
- Effective against a wide variety of insects, slugs and snails.
- Lasts up to 4 weeks.
- For use around vegetables, fruit trees, citrus, berries, ornamentals, shrubs, flowers, trees, lawns, gardens, and in greenhouses (non-commercial).
- Treats 1,625 sq. ft.

Active Ingredient: By Weight
Iron phosphate ......................................... 0.97%
Spinosad (a mixture of spinosyn A and spinosyn D) ..................... 0.07%
Other Ingredients: .................................... 98.96%
Total ................................................... 100.0%

KEEP OUT OF REACH OF CHILDREN

CAUTION

FIRST AID

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For emergency information concerning this product, call the National Pesticide Information Center at 1-800-858-7378, 6:30 am to 4:30 pm Pacific Time, seven days a week (NPIC Web site: www.npic.orst.edu). During other times, call the poison control center at 1-800-222-1222.

See back panel for precautionary statements and directions for use.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals: CAUTION. Causes moderate eye irritation.
Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and
before eating, drinking, chewing gum, or using tobacco.

Environmental Hazards: To protect the environment, do not allow pesticide to enter or run
off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm
weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain
does not blow or wash pesticide off the treatment area. Sweeping any product that lands on
a driveway, sidewalk, or street, back onto the treated area of the lawn or garden will help to
prevent run off to water bodies or drainage systems.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

PESTS CONTROLLED: carwigs, cutworms, sawbugs, pillbugs, crickets, ants (excluding
fire ants, harvester ants, Pharaoh's ants and carpenter ants), slugs, snails

APPLICATION DIRECTIONS:

Scatter the bait granules on the soil around or near the plants to be protected with a suitable
hand or power operated spreader (gravity or rotary) to ensure uniform coverage over the
treatment area. Apply bait evenly at approximately 0.5 to 1 lb per 1000 square feet, or
for smaller areas, 0.075 to 0.15 oz, or 0.5 to 1 teaspoon, per square yard. Do not place in
piles. For slugs and snails also scatter the bait around the perimeter of the area to provide a
protective "barrier" for slugs and snails entering the area. If the ground is dry, wet it before
applying bait. The product works best when soil is moist but with little or no standing water.
Do not use food utensils such as spoons, cups, etc. for food purposes after pesticide use.
Do not apply more than 3 times in any 30 day period. Apply at the higher rate if the infestation
is severe. Re-apply after heavy rain or watering. Do not apply within 3 days of harvest.

For seedlings spread the bait around the base of the stem. For trees or shrubs, spread the
bait around the base of the tree. For small plots, treat around the base of the plants to be
protected. In greenhouses, scatter the bait in the pots of plants being damaged or around pots
on greenhouse benches.

Evening is the best time to apply the bait as pests travel and feed mostly by night or early
morning. Treat all likely areas of infestation, especially around the perimeter of garden plots,
for slugs and snails because these pests travel into plant areas from daytime refuges.

USE SITES:

Vegetables: artichokes (globe), asparagus, beans, beets, broccoli, Brussels sprouts, cabbage,
cantaloupe, carrots, cauliflower, corn, cucumbers, eggplants, garlic, lettuce, onions, peppers,
potatoes, radishes, rutabagas, spinach, soybeans, squash, Swiss chard, tomatoes and
turnips; Fruits: apples, avocados, apricots, cherries, grapes, melons, peaches, plums, citrus,
pears; Berries: strawberries, blueberries, loganberries; Outdoor Ornaments; Greenhouses
(Non-Commercial); Lawns; Turf.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store this product in its original container and keep in a
secure storage area out of reach of children and domestic animals.

PESTICIDE DISPOSAL AND CONTAINER HANDLING:

Nonrefillable. Do not reuse or refill this container.

If empty: Place in trash or offer for recycling if available.

If partly filled: Call your local solid waste agency for disposal instructions. Never
place unused product down any indoor or outdoor drain.
