WATER CONDITIONING AND ANTIFOAMING AGENT

KICKER™

PRINCIPAL FUNCTIONING AGENTS:  
Ammonium Sulfate and Dimethylpolysiloxane .............................. 39.0%  
CONSTITUENTS INEFFECTIVE AS A SPRAY ADJUVANT .......................... 61.0%  
TOTAL ........................................................................................................... 100.0%

All ingredients are exempt from tolerance requirements under 40 CFR 180.

WA REG. NO. 7001-

CAUTION
KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed, inhaled or absorbed through skin. Causes moderate eye irritation. Avoid breathing spray mist. Avoid contact with skin, eyes and clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

WA Reg. No. 7001-11002
**KICKER™**

**GENERAL INFORMATION**

*KICKER* is a highly active ammonium sulfate solution designed to enhance herbicide performance by modifying solution pH and water hardness. The ammoniacal nitrogen in *KICKER* has been found to promote herbicide (such as glyphosate) uptake in agricultural applications. *KICKER*'s use of high quality spray grade ammonium sulfate eliminates cold water sedimentation and nozzle plugging commonly found with dry AMS. *KICKER* also contains a pH stable antifoam which prevents foaming during tank mixing.

**FIRST AID**

**IF SWALLOWED:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything to an unconscious person.

**IF ON SKIN:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

**IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance then give artificial respiration preferable mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for further treatment advice.

**PERSONAL PROTECTIVE EQUIPMENT:** Wear chemical-resistant gloves, long-sleeved shirt and long pants and shoes plus socks.

**DIRECTIONS FOR USE**

FOR USE WITH PRODUCTS REGISTERED FOR: AGRICULTURAL, FORESTRY, INDUSTRIAL, MUNICIPAL, NON-CROPLAND, ORNAMENTAL, RIGHTS-OF-WAY AND OTHER USES. THIS PRODUCT CANNOT BE USED FOR AQUATIC APPLICATIONS.

**NOTE:** READ AND FOLLOW LABEL DIRECTIONS AND PRECAUTION STATEMENTS FOR PRODUCTS USED IN THE SPRAY MIX.

The addition of *KICKER* to a tank mix should always follow the review of herbicide(s) labels and their procedures, rates and application requirements. Before using *KICKER*, it is recommended that the user be familiar with or conduct a field test to check for phytotoxicity for the herbicide combination.

**RECOMMENDED USE RATES**

**Glyphosate tank mixes:** Use a rate of 2.5% (2.5 gallons/100 gallons solution) for 8.5 lbs. of ammonium sulfate/100 gallons. Use a rate of 5% (5 gallons/100 gallons solution) for 17 lbs. of ammonium sulfate/100 gallons.

**Other tank mixes:** Use a rate of .25% to .75% or 1 to 3 quarts of *KICKER* per 100 gallons of spray solution.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal.

**STORAGE:** Do not allow to freeze. For optimum storage stability, store at temperatures between 40°F (5°C) and 90°F (32°C). Avoid contact with iron clad, copper and copper bearing materials. Do not store near oxidizing agents.

**DISPOSAL:** Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.
