FOR USE AS A DISINFECTANT ON PRECLEANED NON-CRITICAL MEDICAL DEVICES, INSTRUMENTS AND IMPLEMENTS: Instruments must be thoroughly cleaned to remove excess organic debris, rinsed and dried. Thoroughly clean and fine lenses of hollow instruments. Spray CaviCide directly onto pre-cleaned surface, thoroughly wetting area to be disinfected. Allow surface to remain visibly wet for 1 minute at room temperature (98-100°F). Remove and rinse instruments. Wipe dry prior to use.

*Non-critical medical devices are items that come in contact only with intact skin.

Note: Critical and semi-critical devices must be followed by appropriate terminal sterilization/high-level disinfection processes.

To disinfect external surfaces of ultrasonic transducers: Preclean ultrasonic gel from external transducer to be disinfected. Spray CaviCide directly onto pre-cleaned surface. Thoroughly wetting area to be disinfected. Allow surface to remain visibly wet for 1 minute at room temperature (98-100°F).

**CaviCide** EFFECTIVELY KILLS HUMAN IMMUNODEFICIENCY VIRUS TYPE 1 (HIV-1), HEPATITIS B VIRUS (HBV), and HEPATITIS C VIRUS (HCV) ON PRECLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS IN HEALTHCARE SETTINGS OR OTHER SETTINGS IN WHICH THERE IS AN EXPECTED LIKELIHOOD OF SOILING OF INanimate SURFACES/OBJECTS WITH BLOOD/BODY FLUIDS. AND IN WHICH THE SURFACES/OBJECTS CAN BE ASSOCIATED WITH THE POTENTIAL FOR TRANSMISSION OF HIV-1, HBV, AND HCV.

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1, HBV, AND HCV OF SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUID: Personal Protection: Wear appropriate barrier protection such as protective gowns, gloves, masks and eye coverings.

Cleaning Procedure: Blood and other bodily fluids must be thoroughly cleaned from surfaces and objects before disinfection with CaviCide. Contact Time: A contact time of 1 minute is required for HBV, HIV-1, and HCV.

Infectious Material Disposed: Cleaning materials used that may contain blood or other bodily fluids must be autoclaved and/or disposed of in accordance with local regulations for infectious materials disposal. This product is not to be used as a terminal high-level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or on contact with the bloodstream or normally sterile areas of the body, or (2) contact intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization/high-level disinfections.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals WARNING: — Causes substantial but temporary eye injury. Do not get in eyes or on clothing. Wear goggles, face shield, or safety glasses. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

Physical or Chemical Hazards: Combustible. Do not use or store near heat or open flame.

FIRST AID

If in eyes:

— Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.

— Call a poison center or doctor for treatment advice.

For Chemical Emergency ONLY (spill, leak, fire, exposure or accident), call CHEMTREC at 1-800-424-9300. For all other questions about this product, call Metrex Customer Service at 1-800-841-1428, Monday through Friday, between 6 a.m. and 4 p.m. Pacific Time.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. Remove and wash contaminated clothing before reuse.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage: Store in a cool place.

For Spills and Leaks: Spill leak: Allow containers from spill area. Absorb with inert material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor. Refer to produce MSDS for additional information.

Pesticide Disposal: Unused product or wastes resulting from the use of this product may be disposed of according to applicable Federal, State, or local procedures.

Container Disposal: Nonflammable container. Do not reuse or refill this container. Offer for recycling, if available.

This product has demonstrated effectiveness against the following organisms with a 1 minute contact time: Mycobacterium tuberculosis, var bovis (BCG) MTB, Staphylococcus aureus, Pseudomonas aeruginosa, Salmonella enterica, Streptococcus pneumoniae, Candida albicans, Aspergillus niger, A. fumigatus, A. flavus, Saccharomyces cerevisiae, Escherichia coli, Pseudomonas aeruginosa, Serratia marcescens, Staphylococcus epidermidis, Streptococcus pyogenes, and MRSA, Pseudomonas aeruginosa, Candida albicans. The labeled use of this product also meets the label claims of all other surface disinfectants that claim to eliminate Mycobacterium leprae, C. albicans, and the following organisms, respectively: Trichophyton mentagrophytes, Candida albicans, Aspergillus niger, and Aspergillus flavus.

This product is not to be used as a terminal high-level disinfectant, terminal sterilization process, or terminal sterilization high-level disinfection.

ADDITINAL INSTRUMENTS TO BE DISINFECTED:

- General instruments used that may enter into or come into contact with the bloodstream or normally sterile areas of the body, or (2) contact intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body.

- Instruments used to directly contact or come into contact with a fluid medium in the body, including all body fluids other than blood or semen, and all non-invasive medical devices such as blood collection tubes for blood and other blood products and any medical device used to deliver fluid to, or gain access to, any body organ or cavity.

Mycobacterium tuberculosis
Products must meet the label claims of all other surface disinfectants that claim to eliminate Mycobacterium leprae, C. albicans, and the following organisms, respectively: Trichophyton mentagrophytes, Candida albicans, Aspergillus niger, and Aspergillus flavus.

For use as a precleaning decontaminant spray:

- Spray CaviCide directly onto pre-cleaned surface, thoroughly wetting area to be disinfected. Allow surface to remain visibly wet for 1 minute at room temperature (98-100°F). Wipe surface using a towel or allow to air dry.

For use as a precleaning decontaminant spray:

- Spray CaviCide directly onto pre-cleaned surface, thoroughly wetting area to be disinfected. Allow surface to remain visibly wet for 1 minute at room temperature (98-100°F). Wipe surface using a towel or allow to air dry.
