under furniture and other dark areas. Carpet and cabinet linings may also be treated using a roll of 1 gallon of solution per 750 to 1,250 square feet of surface area.

Note: Freshly treated concrete floors may be slippery.

Carpet Beetles, Dust Mites and Household Fungi (Regular Mildew): Thoroughly vacuum before treatment and start and discard bag with collected dust. Apply in a uniform spray to affected areas of carpets, rugs or upholstery at the rate of 1 gallon of solution per 750 to 1,250 square feet of area, depending upon density and thickness. Treat to dampness but do not make carpet or upholstery wet. Apply to any area of carpet, rugs and carpeting which are treated.

To kill Bed Bugs: Apply at a rate of 3–5 oz per square foot of treatment area. Apply as a contact treatment into active bedding infestations in crevices and seams on beds, headboards, nightstands, furniture, window frames, walls, and housing of wall boxes. Apply as a topical spray application to mattresses, box springs, carpets, walls, furniture, rugs and other floor coverings. Treat beds, seems and tufts in mattresses, boxsprings and other furniture where bedbugs harbor. Do not apply as a surface spray to wood floors, linoleum or ceramic tile floors due to the possible creation of a slippery surface. Do not walk on treated surfaces until dry. Wash thoroughly with soap and water after handling and before eating, smoking, chewing gum or using tobacco.

Application Instructions:
Fleas: Thoroughly vacuum all furniture, upholstery, carpeting, rugs and pet bedding before application. Seal and discard vacuum bag and collected debris. Remove people and pets during product application and allow treatment to completely dry before reoccupying the area or pets or pets to treated areas. Best results are obtained when combined with a simultaneous treatment of pets using a product approved for use on pets. Although Cymex II will dry within 24 to 72 hours, better knockdown of adult fleas may be obtained by simultaneous application of another approved insecticide. Apply to carpet, rugs, drapes, upholstery and floor coverings. Always use a fine, uniform spray to carpet and any rug or mat at the rate of 1 gallon of solution per 750 to 1,250 square feet of surface, depending upon density and thickness. Treat to dampness but do not saturate. Fiber rug and carpeting mats may be treated. Pay particular attention to application of pet bedding and nesting areas. Apply in cracks and crevices along baseboards and around floor coverings as well as walls and corners.

WARRANTY LIMITATIONS AND DISCLAIMER
Manufacturers warrant that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated on the label when used in strict accordance with the directions, subject to the inherent risks set forth below. To the extent not prohibited by applicable law, MANUFACTURER

IN NO EVENT WILL MANUFACTURER BE LIABLE FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES OR LOSSES, INCLUDING WITHOUT LIMIT, HEALTH RELATED DAMAGES OR INJURIES.

The terms of this Warranty Disclaimer and Limitation of Remedies are not to be varied by any written or verbal agreements or engagements. No employee or officer of Manufacturer or the officer is authorized to vary or extend the terms of this Warranty Disclaimer or Limitation of Remedies.

It is not intended that this product be used to practice any applicable patent, whether mentioned or not, without procurement of a license, if necessary, from the owner, following investigation by the user.
