NET WT/PESO NETO 1 lb. (453g)

ACTIVE INGREDIENTS/INGREDIENTE ACTIVO:
Tetramethrin 0.20%
Permetrin* 0.50%
Piperonyl Butoxide** 1.00%
OTHER INGREDIENTS/OTROS INGREDIENTES: 98.30%
TOTAL 100.00%

*Carbana rate min. 35% (+/-) cis and max. 85% (+/-) trans.
**Equivalent to min. 0.8% (bulkyisobutyro) (Z)-3-propyl-2-butenyl) ether
and 12% related compounds.
See back panel for additional information.
Shake well before using

DIRECTIONS FOR USE
It is a violation of federal law to use this product in a manner inconsistent with its labeling.

GENERAL INFORMATION: This product provides effective control of pests in and on buildings and structures and their immediate surroundings and on modes of transport. Permitted areas of use include, but are not limited to: apartment buildings, homes, and trailers. In the home, cover all food handling surfaces and cover or remove all food and cooking utensils or wash thoroughly after treatment. Remove pets and cover fish aquarium before spraying. Prevent re-entry of dogs and cats into treated area until spray deposits are dry.

GENERAL PRECAUTIONS & RESTRICTIONS: Do not allow adults, children, or pets to enter the treated area until spray has dried. Do not apply directly to floors or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitats is possible. Use responsibly, as directed by this label.

SURFACE SPRAY APPLICATION: Hold container upright with nozzle away from you. Press valve down and spray as directed. Surface spray until slightly wet (at a rate of 4 ounces product to treat approximately 25 square feet of surface area).

CRACK & CREVICE INJECTION: Hold container upright and tilt extension tube to a 90° angle with can and inject into cracks and crevices where insects may be hiding, living, and breeding. Place injection tip 1/2 inch into cracks, crevices, holes and other small openings where insects may be a problem. Release a one-second spray per spot. In severe infestations, if possible, place spots approximately 12 inches apart. In light infestations or for preventative treatment, place spots approximately three feet apart. In long running cracks, move the injection tip along the crack while spraying. Move at the rate of one linear foot per second in heavy infestations and three feet per second in light infestation. See the additional directions below for effective control of specified insects.

STINK BUGS, ASIAN LADY BEETLES, BOXEDER BUGS: Apply as a crack and crevice treatment. Apply thoroughly to all areas where these pests crawl and hide, especially in cracks and crevices, and hidden areas around sinks and storage areas, behind baseboards, around doors and windows, behind and under refrigerators, cabinets, sinks and stoves, the underside of shelves, drawers, bookcases, and in similar areas.

CARPENTER ANTS: For effective control, locate and treat nests and surrounding areas. Apply around doors and windows and other places where ants enter premises and where they crawl and hide. Inject into wall voids and infested wood through existing openings or newly drilled small holes.

PESTS ON OUTSIDE SURFACES OF BUILDINGS: For control of building infestation due to Stink Bugs, Ants, Asian Lady Beetles, Clover Mites, Crickets, Earwigs, Millipedes and Sawbugs (Pillbugs). Spray foundation of building where insects are active and may find entrance up to a height of 2 to 3 feet. Apply a residue spray to outside surfaces of buildings where insects tend to congregate. Spray around tree trunks but are not limited to trees, window frames, eaves, porches, patios, garages and refuse dumps.

APPLICATION RESTRICTIONS FOR OUTDOOR USE: Do not water the treated area up to the point of run-off. Do not make applications during rain. All outdoor applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses: (1) Treatment to soil or vegetation around structures, (2) Applications to building foundations, up to a maximum height of 3 feet. Other than applications to building foundations, all outdoor applications to impervious surfaces such as sidewalks, driveways, patios and structural surfaces (such as windows, doors, and leaves) are limited to spot and crack-and-crevice applications only. Not for use in outdoor residential misting systems.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Avoid contact with skin or clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

FIRST AID: IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

ENVIRONMENTAL HAZARDS: This pesticide is extremely toxic to aquatic organisms, including fish and invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters, or surface waters. Applying this in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. This pesticide is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area.

PHYSICAL AND CHEMICAL HAZARDS: Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Do not use this product in or on electrical equipment due to the possibility of shock hazard. Do not use on surfaces that can be harmed or stained by water.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage or disposal. STORAGE: Do not store near heat or open flame. Store in cool dry area away from children. PESTICIDE DISPOSAL AND CONTAINER HANDLING: Do not puncture or incinerate; if empty. Offer for recycling if available or place in trash. If partly filled: Call your local solid waste agency for disposal instructions.

Agite bien antes de usar
DECLARACIONES DE PRECAUCIÓN
RIESGOS PARA SERES HUMANOS Y ANIMALES DOMÉSTICOS

PRECAUCIÓN: Evite el contacto con la piel o la ropa. Lave bien la piel con agua y jabón después de manipularlo. Retire la ropa contaminada y lávea antes de volverla a usar.

PRIMEROS AUXILIOS: SI ESTÁ EN LA PIEL O EN LA ROPA: Quite la ropa contaminada. Enjuague la piel inmediatamente con abundante agua por 15 a 20 minutos. Llene un centro de control de envenenamientos o a un médico para obtener asesoramiento sobre el tratamiento. Cuando llame a un centro de control de envenenamientos o a un médico, informe a mano el envase o la etiqueta del producto.

RIESGOS AMBIENTALES: Este pesticida es extremadamente tóxico para los organismos acuáticos, incluidos los peces y los invertebrados. Para proteger el medio ambiente, no deje que el pesticida entre en contacto con suelos, plantas y tierras. No aplique este producto en un entorno tranquilo, donde pueda tener un efecto negativo en las plantas. Si es necesario, aplique el pesticida en un uso controlado, en un área con protección, que no cause daño a los suelos o plantas. No aplique este producto en áreas con plantas o árboles, donde pueda causar daño. Esta precaución es necesaria para garantizar una aplicación segura del pesticida.

RIESGOS FÍSICOS Y QUÍMICOS: Contenido bajo presión. No utilice este pesticida cerca de fuentes de calor o fuego. No perturbe el envase. La exposición a temperaturas superiores a 120°F (49°C) puede causar un incendio o explosión. Si está vacío: El envase está diseñado para reciclaje o desecho en la basura. Si está parcialmente lleno: Llame a su agencia local de desechos sólidos para obtener instrucciones sobre cómo eliminar el producto.

ALMACENAMIENTO Y ELIMINACIÓN
No contamine el agua, los alimentos o el forraje al almacenar o eliminar el pesticida. ALMACENAMIENTO: No almacene el producto cerca de fuentes de calor o fuego. Almacene en un área seca y segura, lejos del alcance de los niños. ELIMINACIÓN DEL PESTICIDA Y MANIPULACIÓN DEL ENVASE: No perturbe el envase. Si está vacío: El envase está diseñado para reciclaje o desecho en la basura. Si está parcialmente lleno: Llame a su agencia local de desechos sólidos para obtener instrucciones sobre cómo eliminar el producto.
